DOUGLAS AND THE PRESIDENCY .- The "little giant" has just written a letter, declaring his principles, and the terms upon which he would accept the nomination of the Charleston Convention. The letter was written in reply to Mr. J. B. Dorr, of Dubuque, Iowa, who inquired of Mr. Douglas whether his friends might present his name at Charleston as a candidate for the Presidency. Mr. Douglas says they may do so if the Convention shall adhere to the principles embodied in the compromise measures of 1850, ratified by the people in the Presidential election of 1852, re-affirmed in the Kansas-Nebraska act of 1854, incorporated into the Cincinnati Platform in 1856, and as expounded by Mr. Buchanan in his letter accepting the nomination; but if, on the contrary, the Convention sets up a new doctrine in favor of reviving the African slave trade, or a Congressional slave code for the Territories, or denying the right of the people in the Territories to regulate Slavery just as they control other matters relating to property, he will not accept the nomination, if it should be tendered to him. This is plain, frank and blunt talk ; and it must be acknowledged that it is not often that Presidential aspirants speak out as boldly and unequivocally as Mr. Douglas has in this letter, which will, in all probability, find favor with the masses of the Democratic party North, but does not accord

### HARVEST ITEMS.

VIRGINIA .- The farmers of the lower part of the State have cut their wheat. In some localities it has been injured by fly, rust, jointfield county, was held in the Court House in worm, weevil, etc., but generally the crop is Clearfield borough. The following were the regarded as a very good one. Ouro-The wheat harvest has commenced

in the Great Miami Valley, and the estimated yield of a field cut, is thirty bushels to the acre. The crop, it is said, will be at least an average one, in that State.

KENTUCKY .-- The wheat has been cut in this State. The yield is heavy and of good quality; in fact, such golden fields of wheat have not gladdened the hearts of the farmers since the year 1855.

ILLINOIS .- The wheat harvest is progressing in 'Egypt' or Southern part of the State; and, it is reported, that the crop is as good as any previous one cut in that State.

INDIANA .- The wheat is being cut in this State, and so far, the crop gives general satisfaction, being about an average yield.

GEORGIA .--- The crop of wheat has been harvested in the State. The yield is large, and the grain of good quality.

Mississippi.-The wheat has been cut in this State, and the crop is reported as an excellent one.

The Ship Bremen, which arrived at New York on Sunday evening, brings news from Europe to the 14th inst. After the battle of Magenta, the Austrians fled from Milan. A three hours fight occurred at Melegnano, in which the Austrians sustained a heavy loss in killed and 1,000 prisoners. The French loss amounted to 50 officers and 800 men killed and wounded. The Austrians have quitted Piacenza as well as Pavia, and seem to be steadily withdrawing toward the Mincio, while a French corps is said to have crossed the Adda. The Austrians have also evacuated the States of the Church. Napoleon has issued a proclamation to the Lombards, which, by the moderation of its tone, has produced a deep impression in Europe. He says he has no sinister object in view-he desires only to maintain the independence of the Italian States. Prince Metternich is dead. In England, the new Ministry is not yet completed. The foreign policy of the new Government promises to be substantially Napoleonic. It will aim to induce the Austrians now to leave Italy and so end the war.

WAR AMONG THE B's .- It is rumored, says with the views of Southern ultraists, and will, the Pittsburg Commercial Journal, that all is candidates, and upon important questions in therefore, reduce his chances of nomination at not harmony among the four Pennsylvania B's the decision of which our party in every por-tion of the county is entitled to a voice. Prowho figure at Washington. Senator Bigler is said to have recently discovered that Judge Black, who was elected to the Supreme Bench in October, 1851, by some 40,000 majority, while he, Bigler, was defeated by 37,000, had been in correspondence with the Know-Nething, and acting on the principle that every tub must stand on its own bottom-in other words, that Judge Black was quite willing an editorial in his favor, or the proceedings of Bigler should be sold if he himselt could save a meeting endorsing his course. On the 3d his bacon. This is frequently tolerated in politics, but among the four B's, whose love is said to surpass that of David and Jonathan's, such things could never be tolerated. Black denies, but his letters are said to be in several hands, and Bigler is trying to secure some of the originals. Rev. Alexander Clark, Editor of the "School Visitor," says: "We have had ample opportunities during the last few weeks, of witnessing the practical workings of the Iron City College. Having been in almost daily intercourse with the Teachers and Students, in the study room, and at the different recitations, we have only to say that thoroughness, and intense interest, characterize every performance. Students are arriving daily, from all parts of the country, and the number now in attendance is larger by far, than any similar Commercial College East or West. Mr. Jenkins the Principal is a gentleman of the strictest integrity, and the entire faculty is composed of competent and faithful instructors. Every inducement announced in the widely diffused advertisements of this institution, is promptly carried out, in the course of study and dicipline, which this college has won its present reputation." The Charleston Mercury says in reference to Douglas, "we will sustain or countenance him under no circumstances whatever; he is a traitor to the Democratic party, and a traitor to those principles which secure the South; he is dangerous and designing. Away with him. Finally," says the Mercury, "we shall sustain no man, of whatever party, clique, creed or section who shall stand upon the platform of Douglas' principles, though he should be nominated by twenty democratic Conventions. PEOPLE'S MEETING.

Secretaries-William R. Brown, David G. Nivling and S. B. Row.

The President having stated the object of the meeting, Joseph B. M'Enally, Esq., submitted the following, which was adopted :

The Committee to whom was referred the duty of reporting the best plan of perfecting and keeping up the organization of the party in Clearfield county, would respectfully report the following plan :

I. That there be a standing County Committee of one from each township and borough, whose duty it shall be : 1. To appoint township Committees of Vigilance. 2. To fcall, appoint and give notice of public meetings, where they deem it proper, either for the transaction of business or for the discussion of public affairs. 3. To take such measures as are calculated to promote the success of our principles and efficiency in our organization.

II. That this county committee be appoint-ed annually by the President of the County convention which nominates candidates to be voted for at the General Election. And in case of their being no such County Committee, the same may be chosen at any public county meeting, to serve till the proper time for choosing such officers. III. That when candidates are to be nomi-

nated, delegates elected, or important business transacted, it shall be done by a County Convention, at which all who act with us politically are invited to attend. That in such convention each township or borough shall be entitled to have a voice, or vote, equal to the number of votes cast in said township or borough at the last General Election for our candidate for the highest office then voted tor. That the vote of said township shall be cast by those members of our party who are in actual attendance at said convention from said township, and who have, upon the call of townships in order at the commencement of the meeting, given their names to the Secretary as delegates. That the voice of each delegate shall count equal to the whole number ascertained by dividing the number of votes given as aoresaid, in said township for our leading candidate, by the number of delegates in attendance from that township, (whole numbers only being regarded and fractions thrown away.) IV. That the above method of voting be adopted only in the election of candidates for public office, and of delegates who are to nominate district candidates, and of the President of the meeting at which candidates are nominated, and in giving instructions in favor of dition.

#### LETTER OF JUDGE DOUGLAS. The following is the letter of Hon. Stephen

Douglas, explaining his position on the subject of the Presidency :-

WASHINGTON, Wednesday, June 22, 1859. "My DEAR SIR : I have received your letter inquiring whether my friends are at liberty to present my name to the Charleston Convention for the Presidential nomination.

"Before the question can finally be determined, it will be necessary to understand distinctly upon what issues the canvass is to be conducted. If, as I have full faith they will, the Democratic party shall determine, in the Presideniial election of 1860, to adhere to the principles embodied in the compromise measures of 1850, and ratified by the people in the Presidential election of 1852, and re-affirmed in the Kansas-Nebraska act of 1854, and incorporated into the Cincinnati Platform in 1856, as expounded by Mr. Buchanan in his letter accepting the nomination, and approved by the people-in that event my friends are at liberty to present my name to the Convention, if they see proper to do so. It, on the contrary, it shall become the policy of the Democratic party-which I cannot anticipate-to repudiate these, their time-honored principles, on which we have achieved so many patriotic triumps, and if, in lieu of them, the Convention shall interpolate into the creed of the party such new issues as the revival of the African slave-trade, or a Congressional slave code for the Territories, or the doctrine that the Constitution of the United States either establishes or prohibits Slavery in the Territories, beyond the power of the people legally to control it as other property, it is due to candor to say that, in such an event, I could not accept the nomination if tendered to me. Trusting that this answer will be deemed sufficiently explicit, I am, very respectfully,

Your friend, S. A. DOUGLAS. "To J. B. Dorr, Esq., Dubuque, Iowa."

A DEAD SHOT .- A lady of Milwaukie, returning unexpectedly from a drive, she imagined she heard voices in the room usually occupied by herself and husband. The door being closed, she applied her eye to the keyhole, and saw the figure of a woman, and standing by her was the husband of the jealous wife, actually engaged in adjusting a shawl upon the shoulders of the female intru-der. The wife went to another room, took a loaded shot gun, returned, opened the door, nood. . . . The grand jury of Cambria county and deliberately shot the strange woman in the back. The husband screamed; the wife fainted. When the latter returned to consciousness, she found the wretch of a husband bending over her, with a well feigned solicisued, and the body of the woman who had been shot was brought in. It was a dummy ! The husband, who pursued the respectable calling of a retail dry goods dealer, was wont to use this figure to exhibit the mantillas and shawls with which he desired to charm the eyes of the Milwaukie ladies.

HON. SIMON CAMERON .- The popularity of this distinguished gentleman seems to be daily increasing, if we are permitted to judge of it by the tone of the newspaper press, and the expressed sentiments of public gatherings in various sections of the country. Scarcely an exchange comes to hand that does not contain inst., a festival was had at the opening of the "Cameron House" at Mt. Joy, Lancaster county, at which a decided preference for General Cameron was expressed by those participating, in their speeches, toasts, &c. On the 18th, the People's party of old Westmoreland held their County Convention, and among the resolutions adopted was one declaring Gen. Cameron to be their first choice for the Presidency. Thus it is working all over the State. Wherever a Convention is held, or a public movement of some consequence made, Cameron for the Presidency, is the popular cry.

AN EVENTFUL MONTH. -- Napoleon landed at Genca on the 12th of May. His Italian campaign had, up to last advices, occupied twenty-seven days. Those twenty-seven days have been productive of as rapid and brilliant results as the campaigns of the First Napoleon. If the battles have been less frequent, the success has been equally decisive. Turin has been saved from capture. Victory has crowned French arms a second time at Montebello. Two victories have been won at Palestro. The Austrians have been driven out of Sardinia. The French have invaded Lombardy. Como has been revolutionized. The Tuscan Sovereign has been dethroned. The Parmesan Dutchess has been compelled to fly. Milan has thrown off the Austrian yoke, and Magenta has been the scene of as bloody a conflict as Marengo. "In a month's time," said Napoleon, "I will date proclamations from Milan." He keeps his promise.
