"Pa, how long does the Legislature sit ?" "Three or four months, my son." "What a set a geese they must be ; our geese set only five weeks." "It is getting late, my son, your had better retire."

A thick-headed squire being worsted by .Sydney Smith in an argument, took his revenge by exclaiming, "If I had a son that was an idiot, by Jove, I'd make him a parson." "Very probably," replied Sydney, "but I see your father was of a different mind."

In the Louisiana lowlands lived lovely Lucy Leslie. Levi Larkins loved Lucy lavishly. Lucy loved Levi largely likewise. Levi lassoed Lucy ; Lumpkins legal lumphead lashed the lovers together, and lots of little Larkinses leapt limberly long the Lumpkins, lending loud luster to the land and likewise causing lively pleasure to the hearts of Levi and Lucy Larkins.

MORE WONEERFUL THAN THE MAMMOTH CAVE. Dr. D. L. Talbot, in commencing a series of articles for the Fort Wayne Times, in regard to the Wyandotte Cave, makes the following comparison between the Wyandotte and Mammoth Caves :- "Wyandotte Cave, one of the most extensive and remarkable in the world, is situated in Crawford county, Indiana, about 25 miles below New Albany, on Blue river. 1 have called it a remarkable cave. The Mammoth Cave of Kentucky has hitherto been designated as the greatest known cave in the world. It may startle your scientific readers to hear me assert the fact, that there is one stalagmite alone in Wyandotte cave more massive than all the stalagmites and stalactites in Mammoth Cave put together. This cave I have surveyed and mapped a distance of 25 miles in length, and there are numerous avenues I have never penetrated to their end, although I have visited the cave for scientific and other purposes, over a dozen different times, spending on one visit four days and nights within its darksome halls. The Mammoth Cave is distinguished more for its vastness than its beauty; the Wyandotte for its great extent, its mammoth hall, its lofty ceilings, reaching frequently to the height of 267 feet, and especially for its numerous and natural fountains, which almost continually meet the eye in every direction. A portion of this cave has been known and visited for over 40 years. This portion is about three miles in length, and is termed the Old Cave. In 1850, a new door from within the old cave was discovered, which extended the caves united to about 12 miles in extent. In 1853, a still newer discovery of ingress was accidentally made, which has added eight or ten miles thereto, and disclosed a plan of formation more extensive and more beautiful than heretofore known. The cave contains every kind of formation peculiar to the Mammoth and other caves, besides some unique formations found only in the Wyandotte Cave."
