

PEOPLE'S STATE TICKET. FOR AUDITOR GENERAL. THOMAS E. COCHRAN, of York. FOR SURVEYOR GENERAL, WILLIAM H. KEIM, of Berks.

THE EXTRAVAGANCE OF THE GOVERNMENT.-The wild extravagance of this administration, remarks the Pittsburgh Gazette, cannot too often be brought before the public. It has the hardihood to deny that extravagance, and to claim that it is "reforming" and "retrenching" the expenses of the government; and in order to show that the claim is a fraudulent one, it becomes necessary to revert to facts which are a part of the history of the past. In "old fogy" times, before Profligacy was President, and Corruption got hold of the money bags, the revenues of the government were deemed ample for the Federal expenses. In fact, such an extravagant and reckless administration as General Pierce's was considered to be, could not manage to dispose of the immense income, even in bribe-funds and dissipation, but was compelled to hand over to its successor more than twenty-five millions of dollars. Since the accession of "J. B.," tho', what with dishonest office-holders, thieving | ter from Governor Wise, of Virginia, in reply contractors and Navy Yard sinecures, the bal- to certain questions addressed to him by a ance sheet is an awful one. Look at the items : On the 4th of March, 1857, when "J. B." came into power, there was a balance in the Treasury of \$26,000,000.

On the 3d of June, 1857, it was reduced to \$17,500,000. On the 1st of January, 1858, it was reduced

to nothing. On the 10th of January, 1858, the government was compelled to borrow \$20,000,000.

State Constitution, it shall be ascertained by a census, taken according to law, that the ter-CLEARFIELD, PA., AUG. 10, 1859. ritory has a population equal to the ratio required for a Representative in Congress. No such census has been taken. Even if a census should now be taken, after the formation of the Constitution, it would be no compliance with the act of Congress. Are we, then, to have another Kansas controversy in the approaching Congress, or will the Administration hack down and permit her to come into the

Union in defiance of the act which it cost so much trouble and treasure to pass? This will be mortifying to the Administration, no doubt, but still we think they will have to come to it. It will be useless to attempt further resistance. The Administration has very little money at its command to operate with, and as to the offices, the tenure by which they are held is now so short that they are by no means as available to influence votes in Congress as they were during the Lecompton controversy."

KANSAS. The Kansas Convention, for the

The Kansas troubles we think are over. Al the ingenuity of the pro-slavery interest cannot keep this State out of the Confederacy. The young commonwealth has earned this position by years of suffering, which no State has undergone since the organization of the "immortal thirteen." Let us, then, prepare to welcome the "youngest born of liberty" in the family of commonwealths.

Gov. WISE DEFINING HIS POSITION .- The public have been favored with a six column letnumber of his fellow citizens, of the Old Dominion, who flatteringly allude to his position as a candidate for the Presidency. The two main questions upon which Mr. Wise spreads himselt, are the protection due to naturalized citizens returning to the country of their birth ; the re-opening of the African Slave Trade, and the enactment by Congress of a Slave Code for the Territories.

In the first place, Mr. Wise goes in for the fullest protection to naturalized citizens. In the second place, he declares himself opposed to the reopening of the slave trade, which he considers offensive to the large majority of

The wagon wheels passed over the woman's head, cutting and bruising her very severely. The child was also badly hurt. At first little hopes were entertained of their recovery, but were doing well at last accounts. . . . On the evening of the 30th a son of Wm. Insects generally must lead a truly jovial life. Think what it must be to lodge in a lily Imagine a palace of ivory or pearl, with pil-lers of silver and capitals of gold, all exhaling such a pertume as never arose from human censer! Fancy, again the fun of tucking yourself up for the night in the folds of a rose, rocked to sleep by the gentle sighs of a summer's air, and nothing to do when you awake but to wash yourself in a dew-drop and fall to and eat your bed-clothes !

The handsome pair of jet black horses, latev owned by Mr. Sanderson, of Somerville, . J., which attracted so much attention at he State Fair, have been sold to the Emperor Napoleon for \$4,000. For the last ten years these horses have taken all the prizes for carriage horses in the State ; they also took the prize in the Springfield florse Fair. They were bought to match a team of bays bought in this country. The horses sailed for France last week.

A tonching story is related of a Zonave who had picked up a wounded Austrian and was carrying him out of the melee. As he was trudging along with the man upon this back, he felt something cold upon his neck, and cautionsly looking around perceived that the poor fellow with a pair of scissors which he had contrived to draw from his pocket, was cutting off a lock of his preserver's hair to keep as a memento.

A party of gentlemen went to Chess Springs, in Blair county, Pa., recently to hunt squirrels, with glowing anticipations of a high old time among the long tailed beauties. They were absent two days, and succeeded in capturing ten squirrels, all told. The total expense of the party, counting loss, time and torse hire footed up to \$22,00, being \$2,20 per squirrel! Rather expensive squirrel pie, that.

In January, 1859, \$10,000,000 more. And now it wants \$30,000,000 to commence a debt of \$500,000,000.

In August, 1858, \$10,000,000 more.

It may be said that the receipts into the treasury, now, are equal to its disbursements; but they are so only because the country is repeating, under the low-tarriff policy now prevailing, the sad experience of 1857 by which, within the first six months of the administration, it was involved in a commercial crisis which brought ruin to the doors of the people. We are now, in its third year, fast rushing on to a similar fate. The government officials are rejoicing at the large revenue coming in from imports, which is saving the national treasury from utter bankruptcy, but all the while the prudent men of the land are looking on with alarm at the terrible volume of those imports, the immense foreign debt they are creating, and the unceasing outflow the California mines. It is not too much to few months longer, the country will be precipitated upon another crisis, equal in its ruinous effects to that of 1857. Two such crashes within two years ought to be enough to satisfy to the full ambition for mischief which seems to possess this administration above all that ever preceded it. One half the time it cannot raise the money to meet its extravagant expenses, and then it borrows; and when, during the other half, it does collect as much money as it needs, it does so at the expense of the prosperity of the country and at the risk of plunging it into the deepest financial distress. A government so corrupt, so reckless, and so extravagant must, it would seem, either bankrupt itself or the people. The punishment follows the crime, in either case ; and the only escape from it is to turn the criminals out of power.

WASHINGTON NATIONAL MONUMENT .- The construction of a Monument at the Federal Capital in honor of "the father of his country," is an object which should enlist the aid and influence of every patriotic citizen. Among the various projects on foot to raise funds to prosecute the work, which has been some time suspended, is that of placing boxes in the various post offices throughout the Union, for the reception of such contributions as those who repair to the offices may see fit to makethe postmasters to make quarterly returns of the amounts so collected. As a matter of course, it is not expected that any very large contributions will be made, but that they will consist of such trifling amounts as can be spared at any time. However insignificant, by themselves, these amounts may seem, they will swell to an important aggregate when collected from all of the 30,000 post offices in the United States. This is a good plan, and will give every one-no matter what his station in life-an opportunity of contributing his mite to one of the most commendable enterprizes ever started in the country. C. D. Watson, the worthy postmaster in this Borough, has

slaveholders, and of the people of the South. In the third place, he does not consider the enactment of a "slave code" for the Territories judicious or necessary, but he holds that the slaveholder going into a Territory of the United States, with his slave property, is entitled under the Constitution, to be protected in the possession and use of that property. He would not permit the people of a Territory, previous to their assuming the responsibilities of State Government, to exclude slave property by unfriendly legislation. Such are three planks of the Governor's platform, and he may be considered as fairly on the course for the Presidential prize.

The miserable dependence of our people npon Europe in one respect, is illustrated by the announcement that Mr. Cushman, the new United States Minister to the Argentine Confederation, will sail for Southampton, England, and there take a British steamer for Buenos Ayres-this being the only way he can reach his destination. "Only think of a man having to cross the Atlantic twice, in English steamof specie, already in the first seven months of ships, to reach a sister Republic on our own the year, equal to the entire yearly product of Continent! The fact is a disgrace to our people and ourGovernment .- Phil. Argus (Dem.) That is "just so," but while a Loco Foco say that if these importations be kept up a free trade party rules us, there is no help for it. We every week give to the manufacturers of Europe money enough to build a line of steamships, and the mechanics who should build them are either idle or hunting some useless employment, in which to find a subsistence, because their services as mechanics are not wanted. Loco Focoism is an incubus which weighs down the energies of the people, of Dr. Heichhold in Brookville. and makes our once free States mere colonies to the monarchies of Europe .- Phil. Daily News.

> JOHN MITCHELL APOLOGIES .- John Mitchell, who has, ever since his advent in the United States, been a strong friend of the Democratic party, and bitterly hostile to the Americans, can't stand the new doctrine of Mr. Cass relative to naturalized citizeus, and in commenting upon it, indulges in the following apology :-

"It is no great triumph for us to be compelled to acknowledge that the Know Nothings were right all the time, and to retract whatever we may have heretofore said against that philosophical body of men. Our language in dealing with the American party (that title can no longer be denied them) has sometimes been harsh and bitter ; we take it back ; eat it up, though it goes against the stomach, and must digest it as best we may at our leisure. We request the American party, then-the only rational and consistent Americans we are aware of-to accept our respectful apologies."

The importation of foreign dry goods into the sea-port towns of the East, for the fail trade, continues unabated. According to the New York Times, the entries into the Custom House of that city, for the past week, were \$4,988,720, against \$1,679,300 same week last year, and \$4,378,698 same week in 1857. The entries since January 1, have been \$67,572,956, against \$27,189,683 same time in 1858, and \$59,946,512 same time in 1859. To pay for these goods, the steamers from New York, last week, carried out over two millions of dollars in specie.
