THE JOURNAL.

CLEARFIELD, PA., AUG. 10, 1859.

REMOVAL .- The Raftsman's Journal office as been removed to the second story of Robns' new building, on Market street, nearly opposite our former location. july27

An Agricultural meeting will be held in Curwensville on Saturday. See advertisement.

Attention is directed to a number of new advertisement that appear in to-day's Journal.

ERRATUM.-In a part of our issue we have inadvertently used the word Wasp instead of Peacock, in the "Reminiscences."

NEW MILL.-We see that Mr. Archibald Shaw, Jr., of this place, has commenced the erection of a new flouring mill on his property adjoining town on the north-east, alongside of is being rapidly prepared.

Last Wednesday afternoon, as Col. George had just traded for, grew fractious, and in kicking, fell across and broke the tongue of come down the next morning, with another horse, for the wagon.

Somerning New .- No doubt many of our readers are aware that our friend Thomas Robins has erected a new and creditable building on the lot adjoining the "Clearfield House;" and we would take this opportunity to say, that he has just received and opened a general assortment of Groceries, Confectionaries, Tobacco, Cigars, &c., which he is selling at reasonable prices. He also keeps on hand and for sale Bacon, Flour by the barrel, and a variety of choice liquors, which he will sell at rates to suit the times. Give him a call and try his articles. His advertisement will appear next week.

A Good Job .- It is really surprising to see the great degree of perfection which has been attained in the making of artificial teeth. A tew days since we were shown a set made for a lady of Curwensville, by Dr. A. M. Hills, dentist, of this place, which for beauty, workmanship and completeness surpass anything of the kind we have seen for some time. The set is entire for both jaws, and the teeth are rendered more than usually firm and secure by being capped or "rimmed." If we hadn't the good fortune to have a couple rows of superior natural "grinders," we would by all me enre a set like the one mentioned.

DEMOCRATIC NOMINATIONS .- The returns of the Democratic primary election held in this county last Saturday, were made yesterday, and the following are the aggregates of the votes received by the candidates for nomina-

Senate-Wm. A. Wallace had 1093 votes. Assembly-Wm. F. Johnston had 276 votes. T. J. Boyer had 855 votes. Proth'y-John L. Cuttle had 590 votes. G. F. Hoop had 450 votes. Frank Peirce had 134 votes. Reg. & Rec .- James Wrigly had 826 votes. W. J. Hemphill had 339 votes. Treasurer-G. B. Goodlander had 642 votes. David Ross had 508 votes. Commissioner-John P. Dale had 475 votes. Wm.Merrell had 693 votes. J. B. Shaw was nominated for Auditor and H. B. Wright for county Surveyor.

SCRAPE ABOUT A House .- On the 27th July, a gray borse was taken from the pasture field of A. W. Heath, Esq., of Fox township, and found next day in Brockwayville with John J. Stewart, who had locked him up. Whilst Stewart was being arrested, his son took the horse down Little Loby creek. Stewart broke loose from the officer, but after being followed to New York State, was re-arrested near Belfast. He waived the right of having a hearing there, and those who had him in custody, started back with him. As they were passing through Hickory Kingdom, on the line of Elk and Clearfield counties, where Stewart had at one time resided, twenty or more men collected and declared that he should be released, and after following some eight miles, did succeed in rescuing him from his captors. Warrants we understand, have been issued for the arrest of fifteen of the rioters. Stewart, we believe, has entered bail for his appearance at the next term of our Court. Mr. Heath had purchased the horse as the property of Stewart's son, and it is probable the old gentleman has got into this scrape by following the ad-

vice of bad counsellors.

Accident .- We have been furnished with he following particulars of an accident which occurred between New Millport and Curwensville. Mr. Still and Mr. Slaysman went in company to New Millport, on the day named, to Mr. Still's appointment. After preaching of trust funds and payments on account of the in the evening they returned, and as they public debt, were \$66,396,000. were ascending the hill after crossing the River near Mr. Henry Hiles, the horse, in atattempting to shun a deep rut in the centre of the road, went too near the edge, and they were precipitated down the embankment, estimated to be 60 feet. The carriage fell on Mr. Slaysman and bruised his limbs badly. The horse, after struggling to avoid falling, lost his foot-hold, and rolling down the embankment, passed over Mr. Still as he was lying where he was thrown, but as the descent was very steep his whole weight was not upon him, or he would have probably been killed. The extent of Mr. Stik's injuries cannot yet be determined, but it is hoped they are not permanent or of a fatal character. His most ical treatment, but he is yet unable to leave Flour, per bbl. \$8.00 | Hams, per lb. .13 | P c. PURVIANCE, Ambrotypist, corner of 2nd his bed or to sit up longer than a few moments at a time, We regret that he has thus sud- Corn, denly been taken from his ministerial and ed- Buckwheat, ucational labors, to both of which he is much Potatoes,

CLEARFIELD SKILL TRICMPHANT. - Patient application and careful investigation must sooner or later result in the fruition of ones hopes, the production of some useful invention and the increase of the sum total of human conveniences. Those who have become benefactors of mankind by pushing to a successful end projects, at the outset of their career, deemed the vagaties of an over-heated imagination, have invariably met with fierce and decided opposition: but at last genius, surmounting every obstacle, presented to the doubting world a spinning jenny, a steam engine or a sewing machine, and a halo of glory ever after surrounded the name of the fortunate inventor. Merit never receives it meed of praise until an unwilling people are forced to yield it. These remarks have been applicable to all times and places-of late they seem to have more force than formerly, because of the many candidates for popular aphis saw-mill. The foundation is nearly com- plause. Our observations had rise in witnespleted, and the material for the superstructure | sing the successful experimental trial of a novelty which ere long will be found on all the farms and in all the gardens where its worth becomes known. How triffing a circumstance C. Passmore, of Pike township, was about produces the most astounding results. The leaving our town, one of his horses, which he falling of an apple made Newton's name as familiar-to the civilized world as household words (not Dickens'.) The accidental burnhis wagon. The Col. had to go home and ing of a shanty and roasting alive of a young porker, introduced and fostered in China, a taste for that delicious compound of fat and muscular fibre, if Elia's relation is to be credited. And the discovery of so insignificant a thing as a fulcrum enabled Archimedes to move the world out of position and advance the seasons four months, if we have not misread the ancient authors. A wallow on Market street, one of our most public roads, has long been an eye-sore to our community and a stench in their nostrils. To fill it would require a few loads of dirt and some manual labor. This would involve an outlay of money and be a work of time-perhaps of 15 or 20 minutes. Could this be done without subjecting men to labor under a boiling sun? Happy thought! Whilst some murmured, our Borough fathers, regardless of their complaints, kept their own councils, perfected their plans, removed the only obstacle by repealing the hog law and last week the experiment was tried, immediately in front of the council room, which demonstrated beyond peradventure, that side walks could be torn up and levelled without the expenditure of money, manual labor or those mechanical forces usually employed. So successful was the trial that we doubt not on farms the bar-shear and sub-soil ploughs will be abandoned-in gardens the spade will be thrown aside and this unique pulverizer and mover of the soil will be substituted. Our lack of mechanical knowldescription of this novelty. We can only say it requires no manager or overseer to direct it -the less it is interfered with the more thoroughly it does its work. Even a "self-setting keep it straight or set it in motion. Those who desire to avail themselves of it had better examine before purchasing. One dozen or more can be seen at any time upon our streets, in operation. It is called the "self-acting-non-expensive-quadrapedal-roadcleaner-ground-pulverizer-edible-root-raisergrub-exterminator-and-porcine-sod-turner." Long may it flourish, a monument of the skill and wisdom of Clearfield Borough.

> FEMALE SUFFRAGE IN KANSAS .- In the Constitution formed for Kansas, women are allowed to vote in school matters. They may vote for school officers, school taxes, and everything pertaining to the organization of the Common Schools, equally with men. Conferring this much of the elective franchise upon believe that females are allowed to vote in and, perhaps, wish to free themselves. school matters in Canada and Louisiana.

The express from Denver City arrived at Leavenworth on the 2d inst., with \$600 in gold, on consignment. The passengers also had a considerable amount in their hands. The accounts from the mines continue favora-

Mr. LATHAM'S nomination for Governor of California is regarded as a positive triumph over the Administration, he having been removed from the Collectorship of San Francisco. He is a follower of Judge Douglas.

About the hardest case of frost bitten wheat is related by the Detroit Tribune, of a farmer who sold tourteen acres of wheat the day after the June frost for \$65. The buyer afterwards refused \$400 for it.

When you have any thing to do, go ahead and do it. A man who has the option of two roads, either of which will take him to his journey's end, must not stand too long in considering which to take.

That is indeed a twofold knowledge which profits alike by the wisdom of the wise and the folly of the toolish. It borrows its security from the darkness, and its confidence from

the light. The expenditures of the United States for the fiscal year ending with June, exclusive | the People's County Convention.

MARRIED:

Persons visiting the city, are requested to call and examine for themselves. G. G. EVANS, Head Quarters.

439 Chestnut Street, Philadelphia, Pa. Branch Store, 45 Cornhill, Boston, Mass.

SPECIAL NOTICE TO BOOK BUYERS My attention has been called to statements made through the public journals, by a New York Gift Sto e, which are calculated to deceive; who even presume to advertise themselves as the originators of the Gift Book Enterprise, which was first successfully established, and I may say honarably conducted by myself. This concern, who are proclaiming themselves, "The Oldest in the business, are indebted to me, not only for their first ideas of conducting the business, but for stock to commence with, and a place to commence in. Their statement, that this is "The fifth year of their location

in New York," is also faise.

It has been thought, on account of the name connected with this New York Gift Store, that it was a branch of my Original Enterprise; but it is not so, and I wish it distinctly understood, that I am not in any way responsible for their deceptive advertisements, nor for the manner in which New York Gift concerns are conducted. And holding the position I do, as the Originator of the Gift Book Enterprise in the United States-having established it and brought it to its present high position, by constant labor, unwearied application, and large expenditure of money, I deem it my duty to the public and myself to expose these pre-tended "originators," who are attempting to im-pose upon the people. I would here publicly state that these parties have been referring, without authority or permission, to the largest and most widely known publishing house in the United States. I am in ormed by this firm, which is located in this city, that, not only have they never given permission to this New York Gift Store to refer to them, but they utterly disclaim any knowledge of their business or standing. The foregoing can be substantiated to the satisfaction of any person or persons, by the most incontrovertiany person or persons, by the most incontrovertiany person of persons.

JOHN IRVIN. He invites purchasers to give him a call before Curwensville, Pa., May 18, 1859.

SCROFULA, OR KING'S EVIL, is a constitutional disease, a taint, or corruption of the blood, by which this fluid becomes vitiated weak. benefit of the spring | and poor. Being in the circulation, it pervades business, which alone will amount to more than the whole body, and may burst out in disease on double the rent

A. T. SCHRYVER. any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, or disordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents "to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says, "I will visit

the iniquities of the fathers upon their children." It effects commence by deposition from the blood of corrupt and ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which. although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deceminates the human family has its origin directly in this scrofulous contamination, and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking contamination, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine and invigorate it by healthy food and exercise. Such a medicine we supply in Ayer's Compound Extract of Sarsaparille the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire. Rose. or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Bheumatism, Syphilitic and Mercurial Diseases, Propsy, Dyspensia, Debifity, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impuri-ty of the blood" is founded in truth, for scrofula is

health is impossible in contaminated constitutions. AYER'S CATHARTIC PILLS, for all the purpo ses of a family physic, are so composed that diswithstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human erganism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the inalid who is bowed down with pain or physical debitity is astonished to find his health or energy restored by a remedy at once so simple and inviting Not only do they cure the every-day complaints of every body, but also many formidable and dan-

a degeneration of the blood. The practical purpose

and virtue of the Sarsaparilla is to purify and re-

generate this vital fluid, without which sound

gerous diseases. The agent below named is pleased to furnish gratis my American Almanac. containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomach, Nausea, Indigestion. Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions AYER'S CHERRY PECTORAL. for the rapid cure of Coughs, Colds, Influenza, Hourseness,

Cronp. Bronchitis, Incepient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restor-ed from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidotes to employ for the distressing and dangerous affections of the pulmonary organs that are ineident to our climate. While many inferior reme dies thrust upon the community have failed and been discarded this has gained friends by every coarsest brogan; also, findings on hand; all the trial conferred benefits on the afficied they can
