## Latest from Europe.

The steamships North American and City of Baltimore brought advices from Liverpool to the 15th inst., five days later than previous intelligence. The most important news by this arrival is from China. The English and French Plenipotentiaries having arrived off the River Peiho, below Pekin, on the 17th of June, found that the fortifications had been rebuilt, and the entrance to the river barred with booms and stakes. On the 25th, no notice having been taken by the Celestial Government of their arrival, the Plenipotentiaries joined the squadron under Admiral Hope, and attempted to force a passage up the river to the capital, when batteries, which had been masked, were uncovered, and a deadly fire was opened upon the squadron, which was returned with spirit; but after a severe action the force retired, with a loss of three gunboats, and 464 killed and wounded. Among the killed were seven officers, and among the wounded seventeen. Admiral Hope among the latter. The French force consisted of only sixty, of whom fourteen were killed and wounded. This gross violation of treaty stipulations will most likely lead to another war. The American Embassador is said to have been quietly and peacefully admitted at Pekin-a fact which excites the ire of The Lowlon Times.

A feed-pipe easing in the forward funnel of the steamer Great Eastern had exploded, killing five firemen and dangerously wounding a large number, and committed sad havoc with the grand saloon and lower deck cabins, through which the funnel passed. The numerous guests on board the monster steamer had just risen from dinner and left the saloon, else the accident might have been vastly more disastrous. The performances of the steamer previous to the accident were entirely satisfactory, and it is stated that the ship can be repaired for \$25,000, and that the accident will not cause much, if any, delay in her departure for Portland. It was rumored that the Governments of France and England had agreed that a Congress on the Italian question had become necessary. It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all cases, ordinary medicines can do no good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted toiler upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial? Sold by druggists and dealers everywhere. "See

SCROFULA, OR KING'S EVIL, is a con-stitutional disease, a taint, or corruption of the blood, by which this fluid becomes vitiated weak, the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, or disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents "to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says. "I will visit the iniquities of the fathers upon their children."

It effects commence by deposition from the blood of corrupt and ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which gen ders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; conseuently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deceminates the human family has its origin directly in this scrofulous contamination, and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking contamination, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine and invigorate it by healthy food and exercise. Such a medicine we supply in

Ayer's Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where pre-vailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the clood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impuri-ty of the blood" is founded in truth, for scrofula is a degeneration of the blood. The practical purpose and virtue of the Sarsaparilla is to purify and recenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S CHERRY PECTORAL, for the rapid ure of Coughs, Colds, Influenza, Hoarscness, Croup, Bronchitis, Incepient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds n persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virues are known, the public no longer hesitate what antidotes to employ for the distressing and dangerous affections of the pulmonary organs that are inident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable ever to be forgotten.

Branch Store, 45 Cornhill, Boston, Mass. SPECIAL NOTICE TO BOOK BUYERS My attention has been called to statements made through the public journals, by a New York Gift Sto. e, which are calculated to deceive; who even presume to advertise themselves as the originators of the Gift Book Enterprise, which was first suc-cessfully established, and I may say honarably conducted by myself. This concern, who are pro-claiming themselves, "The Oldest in the business," are indebted to me, not only for their first ideas of conducting the business, but for stock to commence with, and a place to commence in. Their statement, that this is "The fifth year of their location

in New York," is also faise. It has been thought, on account of the name connected with this New York Gift Store, that it was a branch of my Original Enterprise; but it is not so, and I wish it distinctly understood, that I am not in any way responsible for their deceptive advertisements, nor for the manner in which New York Gift concerns are conducted. And holding the position I do, as the Originator of the Gift Book Enterprise in the United States—having established it and brought it to its present high po-sition, by constant labor, unwearied application, and large expenditure of money. I deem it my duty to the public and myself to expose these pretended "originators," who are attempting to impose upon the people. I would here publicly state that these parties have been referring, without authority or permission, to the largest and most widely known publishing house in the United States. I am informed by this firm, which is lo-Prepared by Dr. J. C. Ayer & Co , Lowell.
