#### THE JUDGESHIP.

As this is the last paper we will issue before the election, we wish to call attention to the importance of selecting a man who is competent in all respects to fill the office of, and will make a good Judge.

During the past week, many of the citizens of our county had an opportunity of seeing our Courts presided over by Hon. James Gamble, who is before the people as a candidate for the position. Against Judge Gamble, as a man, we have not a word to say. We do not, however, believe that he would make as prompt and efficient a Judge as is desirable. All will admit that he put in a faithful weekcommencing early on Monday and quitting late on Saturday night, having labored con stantly and industriously every day-and yet the amount of business disposed of, as will be seen by the proceedings in another column, is comparatively small, two civil and six Commonwealth cases only being tried-one of the former, it is true, being somewhat tedious. It appeared to us that he gave the lawyers too much time, that he permitted them to discuss points at too great length, and after having done so, that he displayed indecision in arriving at conclusions. This was so apparent that it became a matter of comment, and frequently was it remarked that "the new Judge is slow." The competitor of Judge Gamble, is Samuel Linn, Esq., of Bellefonte. He is known to our people as one of the best lawyers in the State, a safe counsellor, quick at catching points and arriving at conclusions, and an honest, faithful and persevering advocate. As the author of a legal work-"Linn's Analytical Index of Pennsylvania Cases"-he has received the commendation and praise of some of the most distinguished Jurists that the State can boast. His bitterest opponents in the district acknowledge that he occupies "a front position at the bar," and, we believe, it is a conceded fact that he is better qualified for the position than Judge Gamble. No one doubts that, if elected, he would make an active, prompt, indefatigable Judge, and that the business of the Courts would be transacted with the greatest dispatch that a fair and impartial administration of justice would permit; and parties would rest assured that the causes would not be permitted to accumulate to such an extent that a couple years would elapse before they could come up for trial.

## PEOPLE'S COUNTY MEETING.

Last Wednesday evening, one of the largest and most enthusiastic meetings which has for a long time convened in Clearfield Borough, was held by the People's Party in the Court House. The following named gentlemen were selected as officers of the meeting :

President-JAMES B. GRAHAM, Esq. Vice Presidents-James Gallaher, Hon. T. force is also to be sent from India immediate-B. Davis, Samuel Fulton, Jesse Broomall, ly. There was a statement from Paris that John W. Wright, Esq., James Irwin and Jonathan Hartshorn.

H. B. Swoope, Esq. stated the object of the having been, very ungenerously and unfairly. the night before, placed in a wrong position tax would reduce the revenues of the State \$300,000, he at once "brought up to the scratch" the gentlemen who had undertaken to present his views without knowing what they were, and after disposing of them, clearly and distinctly declared himself opposed to any legislation which would, directly or indirectly, increase the taxes, or reduce the revenue of the Commonwealth. He then proceeded to give his views upon the various topics involved in the canvass. So far as the slavery question is concerned, he held that whilst he was opposed to interfering with the institution in the States the defeat of Mr. Wallace in the conference, wherein it existed, he was also firmly opposed to its extension into the Territories-that he wished to see their soil tilled by free, white labor. He next gave his views on the tariff, taking strong ground for such an one as will fully and completely protect the laborers, mechanics, manufacturers and producers of our | such a state of feeling, is a matter of no conown country. He then referred to the naturalization question, stating that, al-

though differences of opinion might exist among the Opposition as to the length of time a foreigner should remain in this country before the elective franchise should be bestowed upon him, yet they all held that after a foreigner was naturalized he was entitled to the fullest protection of our Government, the world over. Having given his own views, he contended that he had a right to know those of his competitor, who had thus far remained "mum" on every question, except that of the

> We understand that some of the Democrats of this county are electioneering for Augustin Durbin something after this style :- That they do not expect him to be elected, but want to give him the party vote to show Cambria and Blair that they do not feel revengeful for and that they do not wish to cut a man on account of the peculiar sectarianism to which Mr. Durbin is said to adhere. This may be a fine stroke of policy on the part of the Democratic politicians of Clearfield, but whether Mr. Durbin will relish a support given under cern to us. One thing, however, we will say, if Mr. Durbin is the sort of man we have heard him represented, the Democracy will be heartily ashamed of him, should he happen to be elected, before his term would half expire. But we think they will be saved that mortification, as Mr. Hall will doubtless be elected. .....

There seems to be a mania for going up in a balloon. Prof. Coe and Mr. Cottman went up at Rome, N.Y., on the 29th. At a hight of two miles the balloon burst; but fortunately the netting converted the empty bag into a parathute, and the voyagers landed safely in a swamp. La Mountain has not been heard from. When last seen he was passing over the southeast corner of St.LawrenceCounty, on the verge of the great northern wilderness, about fifty miles from Watertown. The balloon was at an immense hight, and was going eastward with lightning speed. Later .- A dispatch has been received from La Mountain, dated Oct. 0, stating that he landed 300 miles north of Waterton, in the Canada Wilderness, and was brought out by Indian guides, in their canoes, having been four days without food. THE GOLD REGIONS .- Recent advices from Frazer river give accounts of the discovery of new and profitable diggins on Quesnel river, about three hundred miles above Fort ir this State, under which bank failures are Yale. A little daughter of Thomas J. Williams, of Ebensburg, whilst playing with other children in the grounds of he Union School, on the 26th, received a fall by which her left leg was broken. . . . A correspondent of the Johnstown Tribune gives an account of a young man named John Simons, who has been working at the steam saw mill of Darlington & Co., in White township, and who, getting on a spree, a week or two ago, called at a grog shop in Janesville, Clearfield county, swearing that he would either go from thence to camp meeting or to hell, but that he must have some more whiskey first. After he had swallowed six drinks, he became sick, and though medical aid was called in, he died in a couple days after. He was from the neighborhood of Harrisburg and was about 20 years of age. . . . The injuries received by Mr. erome Dawson, of Allegheny township, from a circular saw, which we noticed last week. are not as serious as was at first supposed, and it is now thought that his hand will be saved. BLAIR COUNTY .- Two horses were stolen from A. M'Allister, Esq., at Springfield farnace,on the night of the 24th Sept. . . . A little son of Mr. William Boring of Hollidaysburg, aged about 18 months, was so severely scalded by the upsetting of a coffee pot, on the 28th of Sept., that he died the Saturday following. The coffee pot was standing on the window. and the mother in attempting to lift it, missed her hold and upset the contents over the little unfortunate. . . . On the 24th, the wife of Mr. John Martin, who lives at Frankstown Ore Bank, was boiling pumpkins for pig feed, when a little daughter, aged about 18 months, in the absence of her mother went up to the kettle, which had been lifted off the fire to cool, and seeing some pieces floating on the the top, tried to eatch them. In doing so, she

lost her balance, fell into the scalding mass, and, although taken out immediately, was so severely burned that she died in a couple hours after the accident occured. . . . On the 26th, Alex. He also reviewed Mr. Buchanan's course, in a very amusing manner, but the applause was almost deafening when he alluded to the "bachelor President" receiving from the Keystone Club taking the bantling in his arms, and whilst danddling it np and down, singing :

"Hush my babe, lie still and slumber, Pierce and Douglas guard thy bed, Border Ruffians, without number,

Hover 'round thy woolly head.' When he had finished, the following resolution was offered and unanimously adopted : Resolved, That we have unbounded confi-Governor, in 1860. OSTETTER'S STOMACH BITTERS It is a fact that, at some period, every and bor of the human family is subject to discant disturbance of the bodily functions; but, within aid of a good tonic and the exercise of plan on mon sense, they may be able so to regulate the up tem as to secure permanent health. In order to a complish this desired object, the true course to part

sue is certainly that which will produce a patter state of things at the least hazard of vital streng's and life. For this purpose, Dr. Hostetter has n troduced to this country a preparation bearing as name, which is not a new medicine, but one the has been tried for years, giving satisfaction to a who have used it. The Bitters operate powerfally upon the stomach, bowels, and liver, restoring the a healthy and vigorous action, and thus, by simple process of strengthening nature, en-

ble the system to triumph over diseast. For the cure of Dyspepsia, Indigestion, Nauses, Flatulency, Loss of Appetite, or Billious complaints. arising from a morbid inaction of the Stomach et Bowels, producing Cramps, Pysentary Cholic, Chol era Morbus, &c., these Bitters have no equal.

Diarrhea, dysentery or flux, so generally con meted by new sattlers, and caused principally by the change of water and diet, will be speedily reg ulated by a brief use of this preparation. Dyspep sin, a disease which is probably more prevalen in all its various forms, than any other, and the cause of which may always be attributed to de rangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bit tors of some kind; then why not use an articly known to be infatlible? All nations have their Bitters, as a preventive of disease and strengther er of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation of anated, based upon scientific experiments which have tended to prove the value of this great pre

aration in the scale of medical science FEVER AND ACCE .- This trying and proveking discase, which fixes its relentless grasp on the be dy of man, reducing him to a mere shadow in a short time, and rendering him physically and men tally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTER? Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bilters are used as per directions. And as they nei-ther create nausea nor offend the palate, and ren der unnecessary any change of diet er interrap tion of ordinary pursuits but promote sound sleep and healty digestion, and the complaint is remeved as speedily as is consistent with the product

tion of a thorough and permanent cure. For Persons in Advanced Years, who are suffe ing from an enfectied constitution and infirm bedr these Bitters are invaluable as a restorative strength and vigor, and need only be tried to be appreciated. And to a mother while narsing the Bitters are indispensable, especially where thes
