

THE JOURNAL.

CLEARFIELD, PA., OCT. 26, 1859.

CLIPPINGS AND SCRIBBLINGS.

About—J. Frost, Esquire.
Requisite—over-coats and shawls, for several days last week.
On hand—the plan and specifications of the Centre meeting house.

On the 14th of January, on an average of years, is the coldest day in the year.
Circulating—counterfeit \$5 bills on the "Catasauqua Bank." Look out for them.

Formidable affair—the Chinese navy. It consists of two vessels, mounting ten guns.
Still in existence—a map of China, made a thousand years before the birth of Christ.

J. Edgar Thompson has been elected President of the Pacific Railroad Company.
Scarce—unhappy ladies, disinterested friends, common honesty, and first-rate butter.

Contradicted—the statement, that President Buchanan intends to prosecute Forney for libel.
Appointed—by Gov. Packer, Thursday November 24th, as a day of Thanksgiving in this State.

Mistaken—we were, about that chap Benton. He beats Boyer a "phew" votes, which elects him.
Walking wires—a "Professor" Price, in Tamaqua, Pa. He stretches the wires from house tops.

Wrong—the majority for County Surveyor, as given in our last. It should be 356 instead of 456.
Remember—the poorest education that teaches self-control, is better than the best that neglects it.

Hard to beat—that bunch of celery presented us by Dr. Hills. May he always have plenty of the "same sort."
Had his left eye shot out—a noted duelist in the South. He can take aim hereafter without the trouble of shutting it.

Fact—a man might as well try to sit still with a crooked pin under him as to run with the stick and not learn to love them.
The Governors of New York and Rhode Island, have appointed Thursday the 24th of November, as a day of Thanksgiving.

Asserted—that some of the villages in the West are so healthy that the folks have to shoot a man to start a burying ground.
On exhibition—the autographs of John Milton and his wife, recently bought in England for \$215, by a citizen of Philadelphia.

Recent advices from Nebraska, report the prevalence of a terrible malady among the Omaha Indians. Numbers are dying daily.
A grocer lately got painted two large T's on his chimney, one black and the other green, to intimate that he sold black and green tea.

Theodore Parker says that "a grain of corn is better than a diamond." Every barnyard fowl in the country would agree with him.
At the close of the horticultural exhibition at Louisville, some of the peaches which had been on exhibition were sold at \$1.50 apiece.

Easily obtained—a newsguy, now-a-days. Every boy has today a day for a few months, will give you one that will astonish all your friends.
Ten thousand cigars are on their way from Havana to Paris, for the private smoking of the Emperor. They cost three hundred dollars a thousand.

The Queen of England has received a petition, signed by 460 clergymen of the Established Church, praying for permission to revise the Liturgy.
Held a meeting—the "colored people of Canada, to consider the expediency of seeking a new home. They propose to emigrate to Jamaica, West Indies.

A preacher lately said in his sermon, "let women remember while putting on their profuse and expensive attire, how narrow are the gates of Paradise."
Not satisfied—La Mountain, with his last balloon trip. He is going try it again. The top of that Mountain will hit a stone some day and knock its brains out.

A singular reason is urged against building a Railroad in Northern Michigan; it is, "that the flies and mosquitoes will render it almost impracticable in summer."
A man who don't believe the world is growing better, says the time may come when the lion and the lamb shall lie down together, but if it does, the lamb will be inside of the lion.

The capacity of the Great Eastern is 20,000 bales, hence this vessel clearing once in each month would, in 1820, have carried our whole cotton crop, but would now carry but one-fourth of it.
A publisher of a newspaper out West, in the first issue of his journal, returns thanks to those who loaned him the pecuniary means, and gratitude to Heaven that there is no law in the State enforcing imprisonment for debt.

A popular writer says it is not the drinking but the getting sober, that is so terrible in a drunkard's life. Some persons, influenced probably by this important consideration, seem to have deliberately resolved never to get sober.
If you have any sore or painful disease, purchase a bottle of Dr. Wall's Galvanic Oil. Spencer's Mills, Bridgeport, a mile west of Curwensville, where every person at all interested in lumbering, should go and see for himself. With 4 horse power, fifteen to twenty thousand beautiful shingles can be made in 42 hours, more perfect than can possibly be done by hand. Any kind of wood will answer, so it is sound, and presented to the saw as to cut lengthwise, or with the grain of the wood. The shingle is sawed, planed and finished at one operation. There is no humming about this machine. All that is required is a visit to it to convince every intelligent man of its utility as a great labor-saving machine, and one that must eventually take the place of all and every other known methods of making shingles. Parties who have timber can with one of these machines make more money than by any other way of preparing it for market. Men in other locations, less favored for the business, have in the short space of three months paid all expenses for a mill and right to use. \$20 per day can be cleared with all ease. Shingles from 14 to 28 or 30 inches long, of any desired breadth or thickness, as well as barrel heading, staves, &c., can be made on the mill by any person, at first trial. For further information respecting the terms for machines and rights, please call on John G. McCormick, Bridgeport, or address JOHN HEATH, Proprietor, Pittsburgh.

There is a new cause of trouble in the domestic affairs of Tippecanoe county, Indiana. There is a surplus of \$18,000 in the treasury! and there is a great deal of discussion and diversity of opinion as to what ought to be done with it. It is very doubtful if any other country has a similar affliction.

A novel case was tried in Baltimore on the 14th inst. Two men, cousins, and both named Augustus Alback, were arraigned, charged with voting on each other's naturalization papers. It turned out that both had procured their papers in 1852, on the same day, from the same court, and presenting them in succession, the similarity of the names and dates led to their arrest. One voted, and the other was arrested in the act. They were both honorably discharged.

It is a common observation that there are more sufferers from debility among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all cases, ordinary medicines can do no good. What is required is just such a tonic as will invigorate the system, and restore to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted toiler upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regeneration in the Bitters, and prefer it to more pretensions, but less efficacious medicines. Which it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial? Sold by druggists and dealers everywhere. See advertisement in another column.

HOTTESTER'S STOMACH BITTERS. It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, it is possible to regulate the system, and to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural and healthy condition of the system, and a vigorous and healthy life. Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. It is a simple and powerful agent upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease. It is a powerful agent upon the system, and thus, by the simple process of strengthening nature, enable the system to triumph over disease. SPECIAL NOTICE TO BOOK BUYERS. My attention has been called to statements made through the public journals, by a New York Gift Store, which are calculated to deceive; who even presume to criticize themselves as originators of the Gift Book Enterprise, which was first successfully established, and I may say honorably conducted by myself. This concern, who are proclaiming themselves, "the oldest in the business," are indebted to me, not only for the original idea of conducting the business, but for stock to commence with, and a place to commence in. Their statement, that this is "the fifth year of their location in New York," is also false. The business, having been established in this city, that not only have they never given permission to this New York Gift Store to use their name, but they utterly disclaim any knowledge of their business, and are unwilling to be associated with them. I would here publicly state that these parties have been referring, without authority or permission, to the largest and most widely known publishing house in the United States. I am informed by this firm, which is located in this city, that not only have they never given permission to this New York Gift Store to use their name, but they utterly disclaim any knowledge of their business, and are unwilling to be associated with them.
