EPISCOPAL SERVICE.

Rt. Rev. Samuel Bowman, Bishop of the Diocese, will preach in the Episcopal church, Clearfield, on Saturday evening the 19th at 61 o'clock, and on Sunday the 20th inst. at 11 o'clock A. M., and 61 o'clock P. M. The right of confirmation will be administered on Sunday at 11 o'clock A. M. [Nov. 2.

The "Latest News from Harper's Ferry" can be ascertained by consulting our column of new advertisements.

The post office at Bald Hills, this county, which was discontinued some time ago, has been re-established and Alexander Livingston appointed post master.

We see that Merrell & Bigler, on Second Street, have received a large stock of Stoves, Hardware, Coal Oil Lamps, and a general variety of articles in their line of business, all of which they are ready to sell on the most advantageous terms.

EATING SALOON .- Our tall young friend, A. C. Flanigan, gives notice in another column that he is still on hand at his Saloon on Secand Street, prepared to supply customers with Oysters and other articles in his line, either at retail or by the quantity.

A protracted meeting has been in progress for about two weeks in the Lutheran church in this place, and quite a number of persons have been converted. The lively interest and part that are being taken in this revival by past been killing each other. members of the other christian denominations here, cannot be too highly commended.

STEAM SAW-MILL BURNED .- The steam sawmill situated in Burnside township, Centre county, formerly owned by Irwin & Hyman, but latterly the property of Judge Leonard of Clearfield borough, was destroyed by fire on Friday the 28th October. The fire originated about the botler while the workmen were absent at breakfast.

SUBGICAL OPERATION .- We see by the Harrisburg Telegraph that, on the 1st instant, Dr. Geo. Dock, assisted by Dr. Egle, removed a large schirrous tumor from the breast of Mrs. Eliza Welsh, who was then at the United ing five dollars from one lover, to pay the Cler. States Hotel. Chloroform was administered, and whilst under its effects, the operation was performed. Mrs. Welsh resides at Bloom's Bridge in this county, and her friends will be gratified to learn that she is doing well.

TYRONE & CLEARFIELD RAILROAD .- We underetand that Wm. B. Foster, Esq., Vice President, and H. J. Lombært, Esq., Auditor of the Pennsylvania Railroad Company, have been elected Directors of the above road, in place of Jacob Burley and D. I. Pruner, resigned. The object of this change is evident- heads. ly to give the Pennsylvania company a better opportunity of pushing the road to an early completion as far as Philipsburg, for which purpose it has agreed to advance \$200,000. It is needless to again refer to the immense advantages that would be derived by this section of country from the construction of this road-these are fully understood by every one who has given the least attention to the subject. The exact condition of the road and the concerning which but few, if any, except the Board, know anything whatever. No report, informing the stockholders of the amount of money that has been collected, how it has been expended, whether economically or extravagantly, or how far the road has progressed, has for a long time been published. In saying this, we wish it to be distinctly understood that we do not intimate that anything amiss has been done by those who have had control of the affairs of the company-on the contrary, we know them to be honest and efficient business men. Still, it seems to us, they should keep the stockholders at least, if not the public, informed of the financial condition and the prospects of the road, which would not only draw attention to the project, but would be calculated to inspire confidence in the public, a matter that is of no little importance to a railroad company. We trust, therefore, that the new Board of Directors will let the stockholders and the public have, as soon as possible, proper information on this | the floor and expired in agony. subject. The experience and knowledge of the two new Directors, in all that relates to building railroads, is such that we teel certain that, with no more than ordinary obstacles to overcome, the work will be completed, and

Gov. Packer has pardoned Fred. Thompson, a boy, convicted of arson in the Crawford county Courts. The jury found a verdict in opposition to the charge of the Court, by casting lots, emphatically gambling away the liberty of an innocent boy! The petition for his pardon being signed by the whole of the Meadville Bar, officers of the Court and County officers, the Governor did a simple act of justice to granting the same.

The "Whisky Insurrection" in this State, sixty-five years ago, was a far more formidable attempt to outrage the government than the recent one at Harper's Ferry. A number of the insurgents were arrested, and two were convicted of treason and sentenced to death; but both were pardoned by President Washlagton, and there has never been an attempt at insurrection since then in Pennsylvania.

Luther Preston, late postmaster at Fillmore, Minnesota, was sentenced, last week, by the U. S. District Court, to fifteen years imprisonment, for robbing the mails. The discovery of this villany resulted from robbing the mail of a letter containing two \$1000 drafts, forwarded by a party in Troy, N.Y., in May last, to Wm. S. Judd, of Fairbault, Minnesota.

We are glad to see that our friend Dr. Brower has again taken hold of the Montour Ameri-Cia, which he had quitted some months ago. he is a clever fellow and good editor.

Common sense rules the mass of the people, whatever the misnamed and misanthrope philosopher may say to the contrary. The masses have already ratified the adgment of a physician, concerning the virtues of Hostetter's Bitters, as may be seen in the immense quantities of this medicine that are annu ally sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhœa, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. As a consequence of these properties, the inalid who is bowed down with pain or physical debility is astonished to find his health or energy re-

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidotes to employ for the distressing and dangerous affections of the pulmonary organs that are ineident to our climate. Walle many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afficieted they can never forget, and produced cures too numerous and too remarkable ever to be forgotten.

I OSTETTER'S STOMACH BITTERS.
It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, ena-

ble the system to triumph over disease. For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or Bilious complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentary, Cholic, Chol-

Diarrhœa, dysentery or flux, so generally conracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dysper sia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.-This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTER'S. Offirther, none of the above-stated diseases can be evatracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create ausea nor offend the palate, and ren-der unnecessa any change of diet or interrupder unnecessa any change of diet or interruption of ordinary in the sound sleep and healty digestion into some polarit is removed as speedily as is cones in the production of a thorough and persons at cure.

Branch Store, 45 Cornhill, Boston. Mass. SPECIAL NOTICE TO BOOK BUYERS My attention has been called to statements made through the public journals, by a New York Gift Sto e, which are calculated to deceive; who even presume to advertise themselves as the originators of the Gift Book Enterprise, which was first successfully established, and I may say honarably conducted by myself. This concern, who are proclaiming themselves, "The Oldest in the business" are indebted to me, not only for their first ideas of conducting the business, but for stock to commence with, and a place to commence in. Their statement, that this is "The fifth year of their location

in New York," is also faise. It has been thought, on account of the name connected with this New York Gift Store, that it was a branch of my Original Enterprise; but it is not so, and I wish it distinctly understood, that I am not in any way responsible for their deceptive advertisements, nor for the manner in which New York Gift concerns are conducted. And holding the position I do, as the Originator of the Gift Book Enterprise in the United States-having established it and brought it to its present high position, by constant labor, unwearied application, and large expenditure of money. I deem it my duty to the public and myseif to expose these pre-tended originators," who are attempting to im-tended originators," who are attempting to im-tended originators, the public beautiful to the public pose upon the people.
