CLEARFIELD, PA., NOV. 30, 1850.

WHAT THEY INTEND TO DO. It seems to be pretty generally conceded by

men of all parties, the way things now look, that the Democracy will meet with a most signal defeat in the approaching Presidential contest. This the Democratic politicians know and feel, and it is not surprising, therefore, to see them casting about to find some means of averting the impending disaster. It the tone of their leading presses can be taken as an index, it is doubtless the intention of the leaders of that party to again raise the cry of "dissolution," with the hope of frightening the masses to come to their aid. Already these patriotic gentlemen move about with wellfeigned uneasiness; their countenances drawn out to an excruciating length, their eyes rolling wildly and fitfully in their sockets; and, in seffi-confidential tones, telling their acquaintances that danger is near at hand that the American Union, that delicate and fragile piece of crockery which they love so ardently, will certainly be broken and smashed to pieces, and all its valuable contents, including the treasury pap on which they are now luxuriating, will be spilled out and lost, if "them 'orrid Black Republicans' get hold of the affairs of the nation in 1860-that, with such a prospect before them, it is the duty of all good citizens to "come to the rescue," and assist in retaining those who now so tenderly and carefully watch over and protect the brittle ware, which, they assert, is in much greater hazard at this time than it has been since the organization of the government. Some persons may possibly believe them sincere: we do not. It is mere pretence-sheer gamelectioneering trick of designing men. If it were not, would it always be got up just before a Presidential election? Might it not beparty? Who ever heard of any other party threaten to "dissolve the Union?" Does not the threat come from the Southern fire-eaters, who act and vote with, and control the Democratic party? We leave intelligent nien to reflect upon, and answer these questions for themselves. We leave it to them to decide how much credence should be given to the statements of the disunion shrickers-to say, if the permanency of the Union is endangered, whether it is not the fault of those who lead the party which they call Democratic. Our object in this article was simply to impress on our readers the fact that the Locofoco leaders are preparing to again raise the bug-bear cry of "dissolution," with the hope of scaring enough people into the support of their candidates to insure their success at the coming Presidential election.

DEMOCRATIC QUARTERLY REVIEW .- We have been favored with the first number of this periodical, just commenced at Washington City under the editorial control of Hon. Thomas B. Florence. Its political views are of the most thorough pro-slavery democratic stamp, and it will doubtless be regarded as the exponent of the real principles of the party. It contains several interesting sketches and notices of men and events, a review of the San Juan Question, an article on the Two Years' Amendment to the Constitution of Massachusetts, the Outbreak at Harper's Ferry, &c., &c. It contains nearly 200 pages, and is neatly printed on good paper. Price \$3 a year.

We find that there is here and there a self-styled Democratic editor who has foolhardiness enough to still assert that old John Brown had "the aid, counsel and concurrence " of most, and perhaps all the leading Black " Republicans of the country," in his plan of insurrection at Harper's Ferry. We pity the poor, miserable, debased creature who is given to such bold, obvious and willful lying as this. He must be farther gone into the service of the old gentleman with boofs and horns, than we thought any one would venture 'n this boasted christian land of ours.

THE . PLANTIC MONTHLY, under the control of the new coblishers, Ticknor & Fields, Boston, Mass., sustants the well deserved reputa-tion it has gained to its itself. All the wri-ters who here ofore continued their produc-tions, will be retained; and effort will be made to render it of reasonable periodicals the country can afford. The best \$3 a year, for a single copy. For \$10,05copies will be sent, the subscribers to pay the postage. Clergyman, Teachers and Postmasters will receive the work for \$2 a year.

THE AMERICAN FREEMASON for December has been received at this office. It contains its usual variety, all of an entertaining and instructive character. The publisher designs issuing it hereafter every Monday, in parts of and eisewhere, bound by horof men in Ohio 32 pages each, and will give at least eight paof Home and Foreign Masonic News. Those who desire it, can, however, get it in onthly parts-composed of the four weekly copy covered as heretofore. Terms-single J. F. B. a year; ten copies for \$20. SUMMARY OF NEWS.

More Excitement .- On Tuesday night, the 22d instant, about 9 o'clock, a tremendous excitement was caused by the firing of a gun, at Charlestown, Virginia. Women and children were greatly frightened; shutters were closed and lights extinguished. A sentinel had mistaken a cow for a man-challenged her, and the cowspaying no attention to the challenge, the sentinel fired upon her. Again, late at night the residents of the village were startled by the reports of three guns. A sentinel came rushing into camp and reported that he had challenged three men, who, instead of halting, fired upon him. A search was set on foot, but no "three men" could be found. It was evident, however, that the "scare" was the work of the soldiers, who take immense quantities of ardent spirits down to keep their chivalrous spirits up. Major-General Taliaterro has been directed to take command of all the forces. All is now aniet. John Brown is represented as having "greatly changed during the last several days, becoming quite repentant." It is not stated, however, of what he is repentant. Four companies of artillery are quartered, in the Court-House, and Governor Wise has ordered 500 additional troops to be bresent at the execution of Brown on Friday next, 2d of December.

By the last overland mail we learn that the celebrated pioneer and explorer, Christopher Carson, died at Taos, New-Mexico, where he resided as Indian Agent. Carson was born in Madison co., Ky., at the close of 1809. His father, shortly after that removed to Missouri. where Kit, when 15, was apprenticed to a saddler-he followed that business two years, at the end of which he joined a trapping expedition, and a trapper he remained, until his famaliarity with the great far West rendered him invaluable as a guide to explorers of the Plains, For eight years he acted as hunter at Bent's Fort. When Col. Fremont engaged in his expedition, Carson accompanied him, and was ever after his steadfast companion. In 1847 he received the rank of Lieutenant in the Rifle corps, United States army. His latest and most remarkable exploit on the Plains was enacted in 1853, when he conducted a drove of 6,000 sheep safely to California. But now he has gone on his last and greatest journey.

EUROPE .- By the steamer Circassian, at St. John's on the 23d, we have foreign advices to the 12th instant, five days later than those by mon and humbug. This threat of "dissolving | the Canada. The treaties had been signed at the Union," is nothing more nor less than an | Zurich. Austria, it was said, had agreed to take 102,000,000 francs from France instead of 104,000,000 demanded. His hallncination is quite harmless howny, following the example of other States of Central Italy, has conferred the Regency upon Prince Carignan; but the King of Sardinia, under the pressure of France, refused to grant Carignan permission to accept the Regency. It is reported that the Sultan of Morocco has empowered his brother to grant the demands of Spain. It was feared that there would be trouble between Russia and Japan, owing to the murder of three Russians by the Japanese.

> We have later advices from Mexico. Minister McLane arrived at Vera Gruz on the 21st. The report that Gen. Marquez had pronounced in favor of Santa Anna is denied. Marquez says he is using the money he seized upon and took from the conducta to save the country from the Yankees. He promises to return it. Doblado had been defeated at Guanajuata with heavy loss. Cobos had captured Oajaca, and the Liberals there had disbanded. It is reported that the French will soon blockade Vera Cruz, and that Miramon has proposed to make a simultaneous attack upon the city.

> From Texas we learn that the Legislature has authorized the Governor to call out all the roops necessary for the protection of the frontier. Captain Ford had been appointed commander of the troops, and had started out after Cortinas. The Brownsville affair had caused great excitement, and volunteers were rapidly organizing. Deputy-Sheriff Campbell had been released by Cortinas. Brownsville, on the 19th, was still closely besieged.

> Another weak shepherd appears in the peron of the Rev. Mr. Minor, of Killingly, Ct., who was attacked some time since and nearly killed by Othaniel Russell, a returned Californian, who charged Minor with too great intimacy with Mrs. Russell. A terrible Prairie Fire swept over 15 miles of Jasper county, Iowa, recently. The Newton Press states that it destroyed one man's stable, stacks, and two horses; the orchard first passing across his shoulders dislocated one and nursery of Mr. Newell; the stabling, stacks and 300 bushels of corn belonging to John Houk; the barns and other property of A. PENNSYLVANIA ITEMS. PREPARED FOR THE "RAPTSMAN'S JOURNAL." Someaser County .- On Sunday, the 30th of October, two men named respectively Henry Pritts and Eli Weimer, living together in Milford township, left home for the purpose, as stated, of hunting hoop-poles. About noon Pritts returned alone, alleging that Weimer had strayed from him in the woods. Several days elapsed, and Weimer not returning search was made for him in the woods, but he could not be found. On the following Sunday, a general search was made by the citizens, and about noon the dead body of Weimer was found in the woods some two or three miles from his residence, with a builet hole through it. A gun which he had taken with him on leaving home, was found on the body, adjusted in a manner to convey the idea that he had shot himself; but as a post mortem examination disclosed the fact that the ball had entered his back, the Coroner's jury decided that he had been shot by some one to them unknown. Suspicion pointed to Pritts, and he was accordngly arrested, as was also the wife of the deceased. Upon examination, sufficient evidence was obtained to warrant the detention of Pritts as the murderer, and he is now in jail awaiting trial for the crime. Since the commitment of Pritts, the wife of Weimer has made a confession, in which she says that Pritts told her he had killed her husband. His object seems to have been that he might marry the widow, as he has several times proposed to do, as well before as since the disappearance of Weimer. The deceased was aged about 27 years, his wife, (a smart, good looking German woman,) is about the same age, while Pritts is between 55 and 60 years old. They were all of rather low repute in the community. The trial of Pritts will come off at the February term of the Somerset Court. Hon. John R. Edie has been employed for the

He resided in the vicinity of Martinsburg, and leaves a wife and children. . . . Bears are said to be numerous in Blair courty, and so daring that they venture into the settlements in quest of food. He succeeded in remounting and returning home, but has been unable to do anything since.

CLARION COUNTY .- A man named Joseph Morrison was so much injured a few days since, by being caught by the rope attached to the bull wheel on the saw mill of Mr. Baker, at the mouth of Little Toby, that his life is despaired of. BURNING MINE IN SCHUYLKILL CO.

This burning mine was first ignited in the winter of 1838. One of the watchmen placed a light near a prop, which caught fire, and soon all the woodwork was in flames. From the wood the fire was communicated to the coal, and since then has been burning incessantly. How much coal has been consumed in this score of years can only be conjectured but to the company. By order of WM CAMPBELL. Capt. certainly many thousands of tons have been necessary to feed the devouring element. A vein underneath that which is burning is now worked. Several times the fire has been communicated to this vein, but it has always been extinguished by filling the mine with water. At present there are no signs of fire in the lower vein, and the miners work without any difficulty or apparent fear. We cannot but think, however, that the labor of digging coal near six hundred feet below the earth's surface, with a fire of twenty years' standing covering acres of ground, above their heads, was not the most agreeable occupation in the world.

Corwin vs. FLOYD .- During the administration of President Fillmore, Mr. Corwin, Secretary of the Treasury, received an anonymous letter warning him that the Sub-Treasury at Charleston, S. C., would be robbed. The Secretary telegraphed to the Sub-Treasurer at Charleston, with instructions, and the room or vault containing the public money was not only strengthened, but a guard was set, &c. No attempt was made at robbery, probably from the fact that precantionary measures were taken. The anonymous letter to Secretary Floyd, giving him warning as to an attack on Harper's Ferry, was well written and appeared truthful; yet not the slightest notice was taken of it, and one of the largest armories in the country was taken and held for twenty-four hours by some half-dozen Abolitionists! Secretary Floyd was certainly guilty of dereliction of duty in this matter, and it may be that Congress will ask him for an explanation.

LATEST NEWS FROM HARPER'S FERRY. - Brown, the leader of the Insurrection, found guilty of Mardee and Treason in the First degree. - The above named insurrection caused a great deal of gas to be let off by leading politicians and the political press of this great country, and in fact, the majority of the people of all parties, were more or less excited on reading the first account of the insurrection-some of the papers trying to make political capital out of the affair and others making light of the matter. But if it had been an Italian strike for Freedom sgainst their lawful sovereign, led on by Mazzina; or Garibaldi the Press of this country, with but one exception, would call meetings and pass resotheir so called patriotic work; but amidst all this inconsistency there is one man that is not the lesst interested in the fate of Brown or his companions.
