It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonte and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to purtle will you fight or run?" "Ah, faith," re- sue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, ena-

ble the system to triumph over disease. For the cure of Dyspepsia, Indigestion, Nausea, Flatulency. Loss of Appetite. or Bilious complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentary, Ch die, Cholera Morbus. &c., these Bitters have no equal.

Diarrhea dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspep sia, a disease which is probably more prevalent, in all its various forms. than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured out fail by using HOSTETTER'S STOMACH pelled to agree to a trace before the impudent BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science

FEVER AND AGUE. This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTER'S. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interrup tion of ordinary pursuits, but promote sound sleep and healty digestion, and the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled consitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system Ladies should by all means try this remedy for all cases of debility, and, before o doing, should ask their physician, who, if he is acquainted with the virtue of the Stemach Bitters, will recommend their use in all cases of weakness

SCROFULA, OR KING'S EVIL, is a constitutional disease, a taint, or corruption of the blood, by which this fluid becomes vitiated weak. and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks. nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, or disordered or unhealthy food, impure air, fifth and fifthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says. "I will visit

the iniquities of the fathers upon their children. It effects commence by deposition from the blood f corrupt and alourous matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the system Most of the consumption which deceminates the human family has its origin directly in this scrofulous contamination, and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs.

arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking contamination. and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine and invigorate it by health v food and exercise. Such a medicine we supply in Ayer's Compound Extract of Sursaparilla

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrotula, but also those other affections which arise from it, such as Eruptive and Skin Diseases. St. Anthony's Fire. Rose. or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils. Tumors, Tetter and Salt Kheum. Scald Head. Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility. and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impure ty of the blood" is founded in truth, for scrofula is a degeneration of the blood. The practical purpose and virtue of the Sarsaparilla is to purify and regenerate this vital fluid, without which sound

health is impossible in contaminated constitutions. AYER'S CATHARTIC PILLS, for all the purpo ses of a family physic, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human erganism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the inalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac. containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache, arising from disordered Stomach.
