JOHN BROWN IS DEAD! He was hung, in accordance with the sentence, on last Friday, surrounded by the military of Virginia, Gov. Wise, and many of the chivalric citizens of that renowned State. No attempt at rescue was made, and everything passed off to the satisfaction of the Virginians, no doubt ; and now that the mistaken and erring old man is dead, we suppose the people of the Old Dominion will breathe freer and sleep sounder than they have since the time the insurrection began. Slavery and John Brown were foes. After the murder of his sons in Kansas, it is said he took an awful oath that while life remained his hand should be raised against it, and that he would fight it to the death. Although goaded to such a course by domestic calamities brought upon him by the slavery propagandists, what else could he expect than unrelenting hatred when he fell into the hands of that power ? He knew no limitations in his warfare on slavery-why should slavery be lenient to him, defeated and a captive ? It is near the General's staff. a question whether slavery could have spared the life of John Brown without virtually confessing the iniquity of its existence. Death was the least he could expect-and he met it undauntedly and heroically. We wish it to be distinctly understood that we are no apologist of Brown's course. His raid was wrong and inexcusable-the direct consequences la- now being adjusted, and the military order mentable and pernicious. If slavery is an evil-and even the candid and intelligent men of the South admit that it is-there is a fit and an unfit mode of combating it. No one, when in a Slave State, should attempt to annul by his acts the laws and fixed polity of that State. No one, we think, is justified in entering a A slight grasping of the hands and twitching Southern State to incite the slaves to insur- of the muscles was visible, and then all was rection, even if there was a certainty of freeing them. If the South is ever to be rid of slavery, let it be done, through the force of minutes. It was then cut down and placed in enlightened public sentiment, in a peaceful the coffin, and conveyed under a military esand constitutional manner, and let the South herself do it ! How to remove the evil, is a train at four o'clock, to be delivered to Mrs. problem the South alone should solve-we of Brown, who would convey it north for interthe North have no business to interfere with ment. The Governor of South Carolina, in his message delivered a few days since, says: If, him about four hours, when she was escorted burned; and on the alternoon of the 29th, as I solemnly believe, we can no longer live in peace and harmony in the Union, we can form a confederacy, with the ability to protect itself against any enemy, and command the respect and admiration of the world. The election of a Republican President, he says, will settle the question of their safety in the Union. In accordance with his recommendation, resolutions were introduced into the Legislature, on the 80th Nov., that South Carolina is ready to enter, with other Southern States, into the formation of a Southern Confederation; and that official information be given of the State arsenal, arms, ammunition, number of men enrolled in the State Militia, the style of their arms, &c. EXECUTION OF JOHN BROWN.

Last Friday, Dec. 2d, was the day set apart for the execution of old John Brown, at Charlestown, Virginia. At an early hour the town was in more than usual stir, even for the stir- engaged at her household duties, suddenly ring times that have fallen upon that neighborhood. Soon the movements of the military drew all the citizens of the place and all whilst removing some car-wheels at the coal others who had been able to gain admittance to the town to the vicinity of the place assigned for the execution.

The prisoner was brought out of jail at eleven o'clock. Before leaving he bid adieu to all his fellow-prisoners, and was very affection- already been received, and it is expected that ate to all except Cook. He charged Cook with having deceived and misled him in relation to the support he was to receive from the of location, &c. . . A little girl four years slaves. He said he was led by him to believe they were rife for insurrection, but he had denied the charge and made but little reply to left alone in the house, and while playing by was ready, when his arms were pinioned, and but a few minutes. . . On the 19th inst., some he walked to the door, apparently calm and sacriligious scoundrel entered the Evangelical cheerful. He wore a black slouch hat and the same clothes worn during his trial. At the door of the jail an open wagon, with a pine box in which was a fine oak coffin, was waiting for him. He looked around and spoke to several persons whom he recognized, and walking down the steps, was assisted to enter the wagon, and took his seat on the box containing his cofiin, along with Hiller Avis. He looked with interest on the fine military display, but made no remark. The wagon moved on as soon as he had taken his seat, flanked with two files of riflemen in close order.

On reaching the field the military had already full possession, and pickets were stationed at various points. The citizens were kept back at the point of the bayonet from taking any position except that assigned them-near-Through the determined persistence of Dr. Rawlings, of Frank Leslie's paper, the order excluding the press was partially rescinded, and the reporters were assigned a position

The prisoner walked up the steps firmly, and was the first man on the gallows. Jailer Avis and Sheriff Campbell stood by his side, and after shaking hands and bidding an affectionate adieu, he thanked them for their kindness. He then put the cap over his face and the rope around his neck. Mr. Avis then asked him to step forward on the trap. He replied, "You must lead me for I cannot see." The rope given, the soldier's marched and countermarched, and took their position as if an enemy was in sight. Nearly ten minutes was thus occupied, the prisoner standing meanwhile. Mr. Avis inquired if he was not tired. Brown replied, "No; but don't keep me waiting longer than necessary."

At fifteen minutes past eleven the trap fell.

That is to say, the performance is to come off this week. There is to be positively no postponement on account of the weather. SCROFULA, OR KING'S EVIL, is a con stitutional disease, a taint, or corruption of the blood, by which this fluid becomes vitiated weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks. nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living. or disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infaction. Whatever be its origin, it is hereditary in the constitution, descending from parents "to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says. "I will visit

the iniquities of the fathers upon thair children." It effects commence by deposition from the blood f corrupt and ulcerous matter, which, in the lungs, iver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, erupions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from . scrofulous complaints, but they have far less power to withstand the attacks of other diseases ; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deceminates the human family has its origin directly in this scrofulous con tamination . and many destructive diseases of the iver, kidneys, brain, and indeed, of all the organs. rise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their ns are invaded by this lurking contamination. nd their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy ood and exercise. Such a medicine we supply in

Ayer's Compound Extract of Sarsman the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrotala, but also those ther affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose. or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The practical purpose and virtue of the Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S CATHARTIC PILLS. for all the purp ses of a family physic, are so composed that dis-ease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every ortion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the inalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting Not only do they cure the every-day complaints of every body, but also many formidable and dangerons diseases. The agent below named is pleased to furnish gratis my American Almanae, con-taining certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomach, Nauxea, Indigestion. Pain in and Morbid Inaction of the Bowels, Flatuleucy. Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
