

NEW-LIGHT DEMOCRACY. "The Democracy" is the same everywhere...

Washington Union. "The Democrats of the South in the present canvass cannot rely on the old ground of defence and excuse for Slavery..."

"The Democracy" is national. It is the same in Maine and Massachusetts that it is in Virginia and Carolina...

"We rejoice in our candidates as national—in our principles as national—the same everywhere..."

"Make the laboring man the slave of one man instead of the slave of society, and he would be better off..."

"The platform on which we have placed our candidates is a sectional thing. It is broad enough to cover, and does cover, the whole Union..."

"Free society is the same in the free and in the slave States..."

"Free society is a monstrous abortion, and Slavery the beautiful, healthy, and natural being which they are trying to adopt..."

"The Slaves are governed far better than the Free laborers of the North..."

"I trust the day will come when the principles of Democracy, as understood and practiced at the South, will prevail over the country..."

"Men are not born entitled to equal rights. It would be nearer the truth to say that some were born with saddles on their backs..."

"Look at the Slaves in your own workshops! They are driven to the polls at the beck of their masters..."

"In all social systems there must be a class to do the mean duties, to perform the drudgery of life..."

"The man who lives by daily labor, and scarcely lives at that, and has to put out his labor in the market and take the best he can get for it..."

"Your Slaves are while, of your own Race. Your Slaves do not vote—yours do vote!"

RUSSELL'S IMPROVED FLEXIBLE HARROW, Patented, January 17th, 1859.

"We need an improvement in Harrows," is a remark not unfrequently heard among farmers. Among the few improvements which have heretofore been made in this important and useful, we might say indispensable implement of husbandry, it would seem that none of them has fully met the wants of the Agriculturist. Some are too heavy, some too complicated, and costly, and all are liable to the objection that they are only adapted to certain kinds of ground, for while it is easy to get up a harrow that will work well on smooth, clear and level ground, it is not so easy to find one that will answer a good purpose in new ground, among steep hills, and undulating surface, but when you get one of the latter class, you are rest assured that it will also give satisfaction on a smooth surface.

The undersigned confidently believe that this object is fully attained in this improvement, and would call the attention of Practical and Scientific agriculturists to the following important features which characterize it. First, its simplicity, secondly, its strength and durability, and lastly its adaptability to any and all kinds of surface. The following named practical Farmers, of Clearfield county, who have used it this season testify to it.

We the undersigned Farmers of Penn township, Clearfield county, and State of Pennsylvania, having used Russell's Improved Flexible Harrow, have no hesitation in saying that it has given us great satisfaction and that from its simplicity and cheapness it should speedily come into general use.

George Fullerton, Benj. Wrigglesworth, John A. Murphy, E. W. Brooks, Thos. Dougherty, John W. Herrick, Wm. A. Moore, Samuel Derrick, Joseph G. Russell.

The "Scientific American," a paper with which the scientific world is well acquainted speaks thus in reference to it: "The harrow is one of the most important agricultural implements, as much depends upon the top pulverizing or dressing of the soil, both before and after the seed is sown, for the success of the future crop." After describing it, it continues: "This combination harrow is so simple, that it is superior to all the other harrows. It can be made cheap, strong and durable, and it is well adapted for harrowing either well cleared or rough ground."

The undersigned have purchased the right to make, sell, use, and transfer their right to do the same, within the county of Clearfield, and are now prepared to furnish the article to all who wish to purchase, on reasonable terms. They will also sell individual rights to make and use the same. MERRELL & BIGLER, Clearfield, Pa., October 21, 1860.
