Ledger, of Nov. 2d says :- " A newly invented grain huller, which was patented in September last, by Messrs. Reed & Crans, of Clearfield County, has been successfully tried in this city. It differs from the machine hitherto in use in this city, that instead of the hull being removed by the machine, it is taken off by attrition, the grains being rubbed against one another. The grain is run through a hopper, over a seive into a concave, horizontally placed, the one now in use being six inches in diameter. In this concave is a constantly diminishing screws into the worm of which the grain is forced, and the pressure removes the hull without breaking the seed, the former and latter being carried off at different openings. The capacity of the new huller is about 80 bushels of buckwheat and 75 of rice the hour, the latter being hulled equally as clean and well as the former."

THE CLEARFIELD FAIR.

who was present at our Agricultural Fair, speaks of it in the following terms :--

"The first Clearfield county Fair, held near the borough last week proved a complete success. Nearly five thousand persons were in attendance. Some ten hundred dollars were taken for admission, this with six hundred and fifty dollars donated by the whole-hearted citizens of Clearfield and three hundred paid in on life membership, very nearly liquidated the debt incurred in preparing the grounds, which were fenced and provided with necessary buildings, seats, &c., for the accommodation of the quantity and quality not surprassed by any county fair west of the Allegheny. The arrangement of the grounds and the order kept there, was highly creditable to the managers. The ladies department was plentifully supplied with all that could reasonably be required to constitute a first class fair-the paintings, needle-work, jellies, preserves, domestic wines, &c., could not be surpassed. The merchants did their part in furnishing samples of goods of all varieties merely for display and the mechanics were equal to all other classes in articles worthy of their good name for skill in their various callings. The music discoursed by the Curwensville brass band proved a valuable accession to the occasion. The ladies discharged their dutles faithfully and although the weather most of the time was extremely inclement [they remained faithful to the end. The address by Hon. George R. Barrett was appropriate and added greatly to the exalted character of the orator, while it induced many to join the society who had before been only idle spectators.

"Clearfield is the place to hold a fair-the managers understand their business well-they employ the printers and pay them liberally. They hospitably receive and entertain strangers and friends. There the people go forward musicians were paid-liberal premiums awarded and the fair grounds open day and night. Strangers and citizens seemed to regret that DERRY HOUSE, FRONT ST., MARIETTA,

CTA gentleman in Texas who bought a flock of sheep, two years ago, for \$900, has since sold \$500 worth of wool from them, and now his flock is worth \$3,000, making a profit of \$2,600 on his investment in two years.

The wife of a wealthy merchant prince of New York wore a dress at the great Academy of Music Ball, the three flounces of which alone, cost a thousand dollars each. The lace used upon the dress was only two hundred and fifty dollars a yard.

TTLate statistics show that five million persons are supported in England by cotton ; that thirty million spindles are employed in the production of the yarns; and that the capital absorbed exceeds \$850,000,000. Four-fitths of the cotton consumed in England-800.0 10,000 pounds-is American.

CF Among the curiosities exhibited at the Mechanics' Fair in Richmond, Va., were a doll which has been-played with by five generations, deposited by Mrs. G. Powell-a diamond ring 300 years old, deposited by Mrs. A. P. Allena book 224 years old, deposited by Mrs. Benj. Col. Alexander, of the Clarion Democrat, Davis-and last, but not least, the cradle in

which Henry Clay was rocked !

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do but little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his Celebra-ted 'Bitters.' The weak and nervous denizen of the counting house, the exhausted toiler upon the shop board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the 'Bitters,' and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical people. The articles on exhibition were in in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the mo t terrible forms of disease. Who would not give it a trial? Sold by druggists and dealers everywhere ¶ See advertisement in another column of this paper.
