VERY LIKELY.—A fellow was arrested for stealing ducks, and after a description of them, the counsel for the prisoner said, "Why they can't be such a rare breed, for I've some like them in my own yard." "Very likely," said the complainant, "I've lost a good many ducks lately."

THE PATRIMONY OF ST. PETER .- Of the prov-THE PATRIMONY OF ST. PETER.—Of the provinces which remain to the Pope, Rome and Camarca have 326,504 inhabitants; Civita Vecchia, 20,701; Velletria 62.012, and Frosinone 163,569—a total of 560,867 inhabitants. The Piedmontese have deprived him of the Marches, Umbria, and the province of Viterbo. The population of the Marches is 924,055, of Umbria 472,689, and of Viterbo 129,372.—Thus, 1,255,019 inhabitants have been withdrawn from the temporal away of the Pope. drawn from the temporal sway of the Pope.

A Southern Pastime.—A desperate fight recently occurred in Gates, N. C., between two men named Davis and Jackson, about some hogs. Davis and his wife armed themselves the guns, axes and knives and presented themselves at Jackson's house, where a general fight ensued, in which both men, women and children participated. They shot until their ammunition gave out and then closed in with axes, knives and gun-barrels. During the shooting a son of Jackson's, a mere boy, was killed by a son of Davis, also a lad. Seven of the party were dangerously wounded, one of the women having received a broken arm, and, It is said, fifty buckshot! From all accounts they fought as long as they could, and quit with mutual consent. The surviving parties have been arrested and placed in the county iail to await their trial.

HOSTETTER'S STOM-ACH BITTERS.—The proprietors and Manufacturers of Hostetter's Celebrated Stomach Bitters can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times and its manifest steady increase in times and its manifest steady increase in times. its manifest steady increase in times past, it is evident that during the coming year the consump-tion will reach near one million bottles. This im-mense amount could never have been sold but for the rare medicinal properties contained in the pre-paration, and the sanction of the most prominent paration, and the sanction of the most prominent. physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself is destined to be as enduring as time itself

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the 'Bitters' are a certain cure for the Dys pepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature. send to regions where fever and ague and various of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harrassing that many riods when their cares are so harrassing that many of them sink under the trial. The relation of mo ther and child is so absorbingly tender, that the mother, especially if she be young, is apt to for-get her own health in the extreme anxiety for her infant. Should the period for maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength. increase of bodily strength.

All those persons, to whom we have particular-ly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, in-digestion, loss of appetite, and all diseases or de-rangements of the stomach, superanuated inval-ids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bit-ters a trial.

Caution.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, Stomach Bitters' blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label. Frepared and sold by Hostetter & Smith, Pittsburg, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

USSELL'S IMPROVED FLEXIBLE HARROW, Patented, January 17th, 1860.

"We need an improvement in Harrows," is a re mark not unfrequently heard among farmers. Among the few improvements which have hereto-fore been made in this important and useful, we might say indispensable implement of husbandry, it would seem that none of them has fully met the wants of the Agriculturist. Some are too heavy, some too complicated and costly, and all are liable to the objection that they are only adapted to certain kinds of ground, for while it is easy to get up a harrow that will work well on smooth clear and level ground, it is not so easy to find one that will answer a good purpose in new ground, among stumps or on a hilly and undulating surface, but when you get one of the latter class, you may rest assured that it will also give satisfaction on

smooth surface. The undersigned confidently believe that this object is fully attained in this improvement, and would call the attention of Practical and Scientific agriculturists to the following important feane agriculturists to the following important fea-tures which characterize it. First, its simplicity; secondly, its strength and durability, and lastly its adaptedness to any and all kinds of surface. The following named practical Farmers of Clear-field county, who have used it this season thus testify to it.

We the undersigned farmers of Penn township, Clearfield county, and State of Pennsylvania, having used Russell's Improved Flexible Harrow, have no hesitation in saying that it has given entire satisfaction and that from its simplicity and cheapness it should speedly come into general use. The "Scientific American," a paper with which
the scientific world is well acquainted speaks thus
in reference to it. "The harrow is one of the most
important agricultural implements, as much depends upon the top pulverizing or dressing of the
soil, both before and after the seed is sown, for the
success of the future crop." After describing it,
it continues: "This combination harrow is so simple, that it is superflows to extend this description.

It can be made cheap, strong and durable, and it is well adapted for flarrowing either well cleared or rough ground. The undersigned have purchased the right to make, sell, use, and transfer their right to do the same, within the county of Clearfield, and are now prepared to furnish the article to all who wish to purchase, on reasonable terms. They will also sell individual rights to make and use the same. MERRELL & BIGLER. Clearfield, Pa. October 24, 1850.
