

THE JOURNAL.

CLEARFIELD, PA., DEC. 5, 1860.

COURT.—The January Term of our Courts commences on the second Monday, the 14th day. That will be a good time for our friends to call and pay up.

We are indebted to our young friend Henry C. Carter, formerly of this place, but now a resident of Missouri, for several late papers printed in that State—Union papers at that.

THANKSGIVING DAY was generally observed in our Borough. Divine services were held in the Episcopal, Lutheran, and Presbyterian churches, and many of the places of business were closed.

BROKE AN ARM.—Mrs. Wm. Morgan, of this Borough, whilst coming out of the house on last Friday morning, slipped on the steps and fell, breaking one of her arms between the wrist and elbow.

IN PROGRESS.—A protracted meeting has been in progress at the Lutheran church in this place since last Thursday evening. The resident pastor has been assisted in his labors by the Rev. Lloyd Knight of Hollidaysburg.

OUR RAILROAD.—We understand that the extensive trestle-work to connect the Tyrone & Clearfield Railroad with the Pennsylvania Road at Tyrone, is being pushed rapidly forward. As soon as it is completed the work of laying the track to Philipsburg will be commenced and urged on vigorously.

CORRECTION.—In our notice of the opening of the Clearfield County Bank last week, a mistake was made in stating that State stock had been deposited for the whole amount of notes issued, less 5 per cent., &c. The reverse is the case, the amount of notes being 5 per cent. less than the amount of stock deposited with the Auditor General.

THAT "STRANGE AFFAIR."—If it will in the least gratify "A," the correspondent of the *Clearfield Republican*, we have no objection to tell him that we received from Mr. Moore himself our information concerning the horse left at his house in Karthaus township. And we will add that we can see no great difference in the material facts set forth in his communication, and as stated in our item the week previous. We are not aware that there is anything particularly offensive in what we said, unless "A" does not like our allusion to the suspicion that it was stolen property. As he "converted" with the stranger, and found him "a very intelligent man," and a "perfect gentleman," perhaps he gained some information, not known to others, which induces "A" to look upon him so favorably. "A" fellow feeling," it is said, "makes us wondrous kind, indeed," sometimes.

LEGISLATIVE NEWS.—As the time is rapidly approaching when our State Legislature meets, and as this session will be an important one, those who wish to keep themselves posted in regard to the doings of that body should procure a paper from the State capital, as it is entirely out of the question for country papers to give more of the proceedings than such parts as have a local interest, and a mere reference to matters of a general nature. There is no paper that gives as full and correct reports as the *Harrisburg Telegraph*, which is, aside from this, a spirited and ably conducted sheet, giving early and accurate foreign and domestic news, and political intelligence. It is published daily at \$4 per annum, and is sent twice a week during the session of the Legislature, and once a week the balance of the year, at the following rates:—Single copy \$2; seven copies \$12; or ten copies for \$15.

ATTEMPT TO BREAK JAIL.—Between 11 and 12 o'clock on Monday night, the attention of Mr. George Richards, keeper of the jail in this place, was attracted by an unusual noise in that part of the prison in which John Cathcart, under sentence of death for the murder of his wife, and John Stoddard, for breach of the peace, were confined, and upon entering found that they had forced open the iron door of their cell with a couple of iron bars which they had pried off the wall, and then, heating the bars in the stove fire, had nearly burned through two of the heavy oak planks with which the rooms are lined. After putting out the fire, the jailer handcuffed them and kept a strict watch till morning, when the room was repaired, and means adopted to prevent the escape of the prisoners. The jail is a miserable concern, and it is only surprising that the jailer can manage to keep prisoners in it at all, without the assistance of watchmen.

A SEVERE CASE OF DIPHTHERIA CURED.—The St. Louis, Missouri, *Republican*, of the 22d Nov., relates that Felix Scully, 27 years of age, was conveyed to the City Hospital, while suffering from a violent attack of diphtheria. The disease yielded readily to the local application of a strong solution of nitrate of silver, mild mercurial cathartics with quinine and a blister to the nape of the neck. On the 14th, the man, thinking he was beyond danger, left his bed undressed and walked, with bare feet, on a cold uncarpeted floor, for an hour, until forced by his nurse to bed. During the following night the symptoms became intensely aggravated, the tonsils were again covered with a thick coating, and the breathing became difficult. The same treatment was resorted to and continued until the evening of the 15th, when he was found to be on the verge of suffocation, and his whole appearance indicated that life could not be prolonged more than a few moments. Medicine had failed, and the only hope—a shadowy one—was to open the windpipe below the larynx. This Dr. Conry did as soon as the instruments and appliances could be got ready. In the operation, he was assisted by Drs. Hodgen and Thompson. When the opening was made into the windpipe, there was an immense gush of mucus, mixed with shreds of the false membrane, which was blocking up the trachea and larynx. A silver tube was at once placed in the opening through which the mucus and blood continued to escape, until now the patient's recovery is placed beyond a doubt.

It is stated that a man in Montreal who held the patent right for making paper out of straw, has sold out for \$800,000.

CLIPPINGS AND SCRIBBLINGS.

Not necessarily mad—a dentist, because he shows his teeth.

The difference—a hunter bags his game; a coquette sacks hers.

Motto for an anti-temperance association—"A little more grape."

Asserts—a wag, that all the Secession strikers belong to the Demo-crazy.

The democrats have not elected a single member to the Minnesota Legislature.

Still prevails—much excitement at the Secession headquarters in this Borough.

Fact—some people think that a piano is more necessary in a family than meat and potatoes.

Believes—Slobkins, in humbugging people out of their dollars; as it is neither begging nor stealing.

Provoking—to dream that you are worth a million of dollars and upon waking up find yourself an editor.

Sold for \$51,000—the Tyrone and Lock Haven Railroad, at the Philadelphia Exchange on the 28th November.

Gone over—an independent Methodist Church in Louisville, Kentucky, to the Episcopalians, church and all.

Gives notice—the Governor of Virginia, that nine Bell and six Breckinridge electors were chosen by that State.

Sure remedy—extravagant expenditures, for hard times and a tight money market. If that's so, keep the "shiners" moving.

Threaten—some persons in South Carolina, to tar and feather Mr. Breckinridge if he comes there to make Union speeches.

From a town in Mississippi of only four hundred inhabitants, twenty-five persons were sent to the lunatic asylum in one year.

Remember—if you would talk much, you should particularly endeavor to talk well; he always speaks too much who speaks ill.

Declare—a number of Southern clerks at Washington, that they will not hold office under Lincoln. We should think they wouldn't.

South Carolina is still enrolling minute men. Prentice says, "Such minute men will never effect anything unless they have sixty seconds apiece."

A Democratic paper says the key note of Republican music is "dark-key." An exchange retorts that the key note of "Democratic" music is "whisk-key."

Thinks it probable—Dr. Lankaster of England, that the cessation of the plague in Europe may be owing to the introduction of the potato as an article of food.

Prevailing—diphtheria, in Steubenville, Ohio. Since the 1st of January, 1860, about two hundred children have died, and probably one-fourth that number of adults.

A writer asks through the *Farmer's Department of the Dollar Newspaper* if any one can inform a poor man of the best way to start a little nursery. Certainly—get married.

A romantic French chemist burned the body of his friend, extracted from it the iron that was contained in the blood, and had it made into a finger ring, which he wore in memory of his friend.

A Dr. G. W. Graham, of Philadelphia, after refusing to attend a poor man unless he was first paid \$25 in advance, added cataplasms and administered an overdose of morphia, causing the poor man's death, a few days since.

A train of cars were thrown off the track and precipitated into the Lehigh river, by the breaking of a rail, on the 29th Nov. Mrs. Farren and sister of Beaver Meadow, two Misses Smith of Mauch Chunk, and Robert Nichols, the conductor, were drowned.

The *Williamsport Daily Times* speaks of their new Court house thus: "The dome looks very well, but Miss Justice has the appearance of a badly scared woman in her night dress, and reminds one of the pictures of a runaway slave, sometimes seen in a Southern advertisement."

Probably the oldest member of the Masonic order in the United States, at least in New England, is Ebenezer Mower, a member of the Morning Star Lodge of Worcester. He is now over one hundred years of age, was initiated February 18, 1704, and has thus been a Mason nearly sixty-seven years.

Progressing—the revolution in Mexico, and is evidently approaching a crisis. All parties were preparing for a change of government. Miramon's declaration of his inability to defend the capital created considerable excitement. The last accounts state that the Constitutionalists had captured Tacubaya and Cuajalajara. It was believed that the capital would surrender without a struggle.

Rich—the idea that exists among the Southern slaves, that the Republican party are all "negroes." How did they get that idea? Not from Republican speakers or papers; as they have none there. Who, then, is responsible for the excitement in the South? What party advocates Secession? Is it the Republican party? Will every intelligent, peaceable, Union-loving citizen answer these questions for himself, and decide who are the creators of the present agitation.

The West Tennessee *Whig* estimates the loss suffered by the South in the depreciation of Slave property, owing to the current agitation, principally occasioned by the Secessionists, at \$75,000,000. It says the difference in the value of slave property, between sales made last spring, either in Tennessee or elsewhere, is "certainly not less than 25 per cent., some say 33, some say 50 per cent." The *Whig* remarks that this loss is more than sufficient to cover the value of every fugitive slave escaped since the organization of the government—and yet the Secessionists have been excusing their mad policy, principally by talking of the loss of slaves by flight to free soil.

Europe.—The City of Baltimore arrived at New York on the 27th, with advices to the 17th Nov. The Piedmontese were still pushing on the siege of Gaeta with vigor. Francis II. has with him between 13,000 and 15,000 troops, and refuses to leave. Gen. Bosco had gone to Gaeta to take command of the Royal troops. Garibaldi has received the appointment of General in the Sardinian army. His farewell address to his army is published. He urges the countrymen to be watchful, and hold themselves in readiness for great events next Spring, when he expects to see an Italian army of 1,000,000 men. The new Italian army is to comprise 177 regiments of infantry, cavalry, and artillery, and 54 battalions of Bersaglieri.

The *Arabic*, which left Liverpool on the 17th, and Queenstown on the 18th, arrived at Halifax on Tuesday evening. The Prince of Wales had reached England. The fleet had been detained by bad weather, and had only a week's provisions left. The latest advices report business at London as nearly suspended, in consequence of the high rate of money. Cotton has declined in readiness for great events next Spring, when he expects to see an Italian army of 1,000,000 men. The new Italian army is to comprise 177 regiments of infantry, cavalry, and artillery, and 54 battalions of Bersaglieri.
