A young lady, when told to exercise for health, said she would jump at an offer, and PHYSICIAN AND SURGEON. run her own risk.

It seems no more than right that men should seize time by the forelock, for the rude old fellow, sooner or later, pulls all their hair out.

"John, you have been drunk until you are only half of the John you used to be." "Oh! well, then, I suppose I am a demi-john," said he, complacently.

NOT A VERY PLEASANT LOCALITY .-- A missionary residing at Karadine, Ceylon, a place famous for venomous reptiles, says that he has killed within a short time twenty-six cobra di capellos and twenty-two pudsran snakes. The bite of the former is certain death.

GREAT FALL OF SNOW .- The depth of snow in New Hampshire at the present time is said to be almost unparalleled. Measurements made of the quantity fallen up to the present time show that in all there has been about seventy inches. Traveling is greatly impeded. In western New York also there have been very heavy falls of snow.

It is a singular fact that Indiana has had four Governors since the 1st of October. Gov. Willard died on the 3d of that month, when Lieut. Gov. Hammond became Governor. He served till January 14th, when Gov. Lane was inaugurated. Gov. Lane served two days, when he was elected to the United States Senate and was superceded by Lieut. Gov. Morton.

An Indian squaw, roaming around the garrison at Fort Yuma, discovered twenty dollars worth of postage stamps in sheets in the officers' quarters, and a happy thought struck her. Shortly after she created quite a commetion by appearing on the parade ground stuck all over with the stamps, regardless of dignity and decency. The officer found that his postage stamps intended for the mail, had been appropriated to the fe-maie.

DR. GEORGE BENNETT, a naturalist who has lately published an account of his twenty-two years' residence in Australia, gives a description of the grandest of all Australian birds, the Jabirn, or gigantic crane. It grows to be five feet high, and is so rare that the Doctor had seen but four skins of the bird during his residence there. It is very graceful, has large and brilliant eyes, a beautiful metallic brilliancy of plumage, and is easily domesticated.

THOSE FORCED .- The Boston Journal learns that a business firm in that city has recently received \$2000 worth of merchandise from a trader in Charleston, who writes that he was actually obliged to remove it surreptitiously from his store in order not to excite suspicion. He had been assessed \$1000 for the support of the military, and fearing other like impositions he had determined to pay his indebtednesi with his goods and transfer what he could to a State where property was respected.

THE TRIBUNE FOR 1861.—PROSPEC-I TUS .- The XXth Volume of the Weekly Tri bune commenced with the issue of Sept. 1. ing the past year The Tribune has been obliged to devote quite a large proportion of its space to pol-ities, but we shall soon be able to forego Political discussions almost entirely, for months if not for years, and devote nearly all our columns to subjects of less intense, but more abiding, interest. Among these, we mean to pay especial attention to
I. Education.—The whole subject of Education

both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of The Tribune in its behalf during the year 1861.

II. AGRICULTURE.—We have been compelled to restrict our elucidations of this great interest throughout 1860 and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, de-monstration, is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention.

111. MANUFACTURES, &c.—We hail every in vention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The progress of Mining, Iron-Making, Steel-Making, Cloth-Weaving, &c., in our country and the world, shall be watched and repor-

ted by us with an earnest and active sympathy. IV. FOREIGN AFFAIRS.—We employ the best cor-respondents in London, Paris, Turin, Berlin, and other European Capitols, to transmit us early and accurate advices of the great changes there silently but certainly preparing. In spite of the pressure of Domestic Politics, our News from the Old World is now varied and ample; but we shall have to render it more perfect during the event-

ful year just before us. V. Home News.—We employ regular paid cor-respondents in California, at the Isthmus of Darien, in the Rocky Mountain gold region, or wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious cor respondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of useful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last." and print a better and better paper from year to year, as our means are steadily enlarged through the generous co-operation of our many well-wishers, we solicit, and shall labor to de serve, a continuance of public favor.
