POPULATION OF THE TERRITORIES. Nebraska, 28,893. New Mexico, 93,024. Utah, 50,000. Dakotah, 4,839. Washington, 11,624. District of Columbia, 75,321.

Total population, 27,482,924. 3,999,353. 234. Total free population of all States and Territories of the United States, 27,612,624. Slave population, 3,999,353.

RECAPITULATION. Total free population of all States and Territories of the United States, 27,612,624. Slave population, 3,999,353. It will be seen on examination of the foregoing table, that Pennsylvania loses two members in its present representation, and that the free States gain six members, and the Slave States consequently lose that number.

In the electoral college of 1864 the North will cast 188 votes against 114 by South. Should the next Presidential contest be conducted on the same issues as the last, it will be observed that the free States can elect a President without the support of either one of the great leading States—New York, Pennsylvania, or Ohio. The united opposition of Pennsylvania, New Jersey and Oregon, to the other free States, would still leave the latter 153—one more than is requisite for a choice.

The four leading States are North of Mason and Dixon's line, viz: New York, Pennsylvania, Ohio and Illinois. Virginia and Indiana having each eleven members of Congress, rank next. South Carolina under the new apportionment will have four members of Congress, two less than last year—a rather small community to take upon itself "a separate and distinct position among the nations of the earth." The Cotton States, which have passed ordinances of secession, have only twenty-seven of the two hundred and thirty-four members who compose the National House of Representatives.
