THE RAFTSMAN'S JOURNAL,

THE JOURNAL.

BANKEUPTCY P

CLEARFIELD, PA., MARCH 13, 1861.

REMOVAL .-- On the 1st of April. the "Raftsman's Journal" office will be removed to the second sto-ry of Graham's new brick building. on Market street, nearly opposite the "Mansion House."

Look Out .- Most of our subscribers are prompt paying ones; but we have a few who are tardy r indifferent in this respect. "After rafting" the names of good subscribers only will be retained on our list, and orders for new subscriptions will have to be accompanied by the Cash.

INJURED .- We have been informed that Foster Davis, of Fergurson township, had his leg mashed, one day week before last, by a timber stick falling on it, in consequence of the chain breaking.

A. M. HILLS desires to notify his friends and patrons that he will be in his office in Clearfield, (opposite the Clearfield House,) until after the June Court, with the exception of the second week in May. Persons desiring his services will do well to call before that February 27th, 1861-6t. time.

BARN BURNT .- On the afternoon of the 5th inst., the barn of Mr. Thomas Dougherty, in Penn township, was destroyed by fire. Mr. D. had taken his horses out to do some hauling to the River, and cannot conjecture how the fire originated. A quantity of grain was burned with the building. The loss will not exceed \$200 or \$300, as the barn was a rather Broderick. poor one.

MAS KILLED .- On last Friday, the 9th inst., Mr. Gould Wilson, of Huston township, was instantly kiled whilst putting logs into Sinnemahoning creek, near his home. It seems the logs were pilled up, and as he was in the act of walking by three of them rolled off the mle, and passing over him, caused his death. He was about 30 years of age, and leaves a wife and several children to mourn his prema- | a child from Baltimore, Md. ture end.

ACCIDENT .- We learn that on last Thursday, the 7th inst., Mr. Thomas II. Forcey, of Grahamton, this county, whilst attempting to "snub" a raft at Moore's landing, was in some manner caught by the rope and thrown with such violence as to render him senseless for a considereable length of time, and severely injured his legs. He was taken to Moore's house and restoratives and remedies applied, which had the effect of restoring consciousness and alleviating his injuries.

THE WEATHER, ETC .- The air has become quite mild again, and, from present indications, will have some rain in a few days. The river is low and will require a good deal of celebrated under the stars and stripes." rain to make a rafting stage. Some little work is going on, on the river banks, in the way of loading shingles and sawed fumber; but, persons generally, feel somewhat tardy about running timber at this time, on account of the tightness of money matters. All beleve, however, that, by the time there is water enough to run, money will become more plenty, and that timber will command remunerating prices, in the markets below.

CHANAN'S POLICY !

WASHINGTON, MARCH 11TH, 1861.

MAJOR ANDERSON-THE CABINET-FORT SUMTER. An official letter from Major Anderson, received on Saturday, says he had only fifteen days subsistence and wood on hand. The question has therefore arisen with the Administration whother reinforcements shall be attempted, or the fort abandoned. The latter course, it is thought, will be adopted, from inevitable necessity, by the advice of Lieut. General Scott.

MEETING OF THE CABINET.

The Administration has not yet determined its policy concerning Fort Sumter, although it was discussed in Cabinet on Saturday night and yesterday, (Sunday). Major Anderson must either be reinforced or withdrawn ; the must either be reinforced or withdrawn; the first proposition involves a war. Mr. Bu-chanan left this complication purposely in its present position.

REPORTED EVACUATION OF FORT SUMTER. The latest advices are that Fort Sumter willse evacuated by the United States forces. The question is wholly a military one, and must be decided on military ground.

We are not enabled to judge, at this time, of the truth of the report, and therefore feel disposed to await further advices. There is one thing certain, if Mr. Lincoln withdraws Major Anderson from his present position, it will be for the most weighty reasons. As Mr. Holt admits, the responsibility for such a ourse would rest on the previous administration rather than on the present. Buchanan permitted the South Carolinians to go on in building fortifications around the harbor, without molestation, for more than five months. If he had exercised his authority at the proper time, Fort Sumter would now be prepared to withstand a protracted siege, while to reinforce it at the present will certainly involve a great amount of bloodshed. The question of reinforcement, therefore, is a much graver one now than it was several months ago, when it could have been accomplished without serious opposition. It appears that Gen. Scott now opposes the movement as earnestly as he advocated it last winter, and if Mr. Lincoln has resolved on the course suggested by the Washington advices, we presume it is through the persuasion of that eminent and patriotic

military chieftain.

TUS.—The XXth Volume of the Weekly Tri-bune commenced with the issue of Sept. I. During the past year The Tribune has been obliged to devote quite a large proportion of its space to pol-itics, but we shall soon be able to forego Political discussions almost entirely, for months if not for years, and devote nearly all our columns to subjects of less intense, but more abiding, interest. Among these, we mean to pay especial attention to EDUCATION .- The whole subject of Education. both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of The Tribune in its behalf during the year 1861. II. AGRICULTURE .- We have been compelled to restrict our elucidations of this great interest throughout 1860, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, de-monstration, is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention. III. MANUFACTURES. &C .-- We hall every invention or enterprise whereby American Capital and Labor are altracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The progress of Mining, Iron-Ma-king, Steel-Making, Cloth-Weaving, &c., in our country and the world, shall be watched and reported by us with an earnest and active sympathy. IV. FOREIGS AFFAIRS. —We employ the best cor-respondents in London, Paris, Turin, Berlin, and other European Capitols, to transmit us early and accurate advices of the great changes there silently but certainly preparing. In spite of the pressure of Domostic Politics, our News from the Old World is now varied and ample; but we shall have to render it more perfect during the eventful year just before uz. V. HOME NEWS .- We employ regular paid cor-respondents in California, at the 1sthmus of Darien, in the Rocky Mountein gold region, or wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious cor respondents of the Associated Press, from our exrespondents of the Associated Press, from our ex-changes, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of useful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from the last, " and print a better and better paper from year to year, as cur means are steadily enlarged through the generous co-operation of our many well-wishers, we solicit, and shall labor to de serve, a continuance of public favor.

THE LUMBER TRADE .- The Lock Haven Watchman, of March 7th, says :

"Some few raits have arrived at this place on their way to market, but we have learned of no sales being made, consequently we cannot give the price of lumber. Holders are asking from 8 to 10 cents per cubic foot for good white pine. From below we learn that the mills have commenced running on full time, and that the lumber business opens briskly.23

The above indicates a good price; but, we presume, that prices will depend a great deal on the amount of timber that will reach its destination, and the state of the money market at that time.

A WAIL FROM FLORIDA .- The Pensacola Oberrer already raises a piteous wail for Florida. Governor Perry, according to the Observer, has treated a certain gallant Company by the They have, it seems, been in "active service" since the 12th of January, without relief, withot arms, and with nothing to est but salt pork and hard biseuit, which they had stolen from 'ncle Sam's soldiers. And sixty Manard rithey which they have been long waiting for, have not been complied with, the issue of bills came at last, but Gov. Perry went right away and gave them to a rival company. "If they had disbanded at once," says the Observer, every right-thinking person would have sustained their action." If they had staid at ome and not banded at all, every right-thinking person would have called them sensible cen. But the most piteous wail of the Obserer is as follows :

"Florida will soon be called upon to turnish er quota of men for the regular army of the | tion of Independence, "there must be no pulouthern Confederacy. This quota has been at down at 1,000 men. With an empty treasy, we cannot imagine how she can enlist, quip and arm this number. If our State is inkrupt at this early stage of the action, we think the sooner she sells out the better. If the State Government cannot be carried on for want of funds. let Florida be divided between our sister States of Georgia and Alabama, by the line of the Chattahooche river. The sooner this is done the better, for to this it must ome at last.72
