REMOVAL .- On the 1st of April, the "Raftsman's Journal" office will be removed to the second sto-ry of Graham's new brick building, on Market street, nearly opposite the "Mansion House."

LOOK OUT .- Most of our subscribers are prompt paying ones; but we have a few who are tardy indifferent in this respect. "After rafting" the names of good subscribers only will be retained on our list, and orders for new subscriptions will have to be accompanied by the Cash.

INJURED .- We have been informed that Foster Davis, of Fergurson township, had his leg mashed, one day week before last, by a timber stick falling on it, in consequence of the chain breaking.

A. M. Hills desires to notify his friends and patrons that he will be in his office in Clearfield, (opposite the Clearfield House,) until after the June Court, with the exception of the second week in May. Persons desiring his services will do well to call before that February 27th, 1861-6t.

BARN BURNT .- On the afternoon of the 5th inst., the barn of Mr. Thomas Dougherty, in Penn township, was destroyed by fire. Mr. D. to the River, and cannot conjecture how the fire originated. A quantity of grain was burned with the building. The loss will not exceed \$200 or \$300, as the barn was a rather

MAN KILLED .- On last Friday, the 9th inst., Mr. Gould Wilson, of Huston township, was instantly kiled whilst putting logs into Sinnemahoning creek, near his home. It seems the logs were pilled up, and as he was in the act of walking by three of them rolled off the nde, and passing over him, caused his death. He was about 30 years of age, and leaves a wife and several children to mourn his prema-

Accident .- We learn that on last Thursday, the 7th inst., Mr. Thomas H. Forcey, of Grahamton, this county, whilst attempting to "snub" a raft at Moore's landing, was in some manner caught by the rope and thrown with such violence as to render him senseless for a considereable length of time, and severely injured his legs. He was taken to Moore's house and restoratives and remedies applied, which had the effect of restoring consciousness and alleviating his injuries.

THE WEATHER, ETC .- The air has become quite mild again, and, from present indicaons, will have some rain in a few days. The river is low and will require a good deal of celebrated under the stars and stripes." rain to make a rafting stage. Some little work is going on, on the river banks, in the way of loading shingles and sawed lumber; but, persons generally, feel somewhat tardy about ranning timber at this time, on account of the tightness of money matters. All beleve, however, that, by the time there is water enough to run, money will become more plenty, and that timber will command remunerating prices, in the markets below.

THE LUMBER TRADE .- The Lock Haven Watchman, of March 7th, says:

"Some few rafts have arrived at this place on their way to market, but we have learned of no sales being made, consequently we cannot give the price of lumber. Holders are asking from 8 to 10 cents per cubic foot for good white pine. From below we learn that he mills have commenced running on full ime, and that the lumber business opens

The above indicates a good price; but, to presume, that prices will depend a great deal on the amount of timber that will reach its destination, and the state of the money market at that time.

A WAIL FROM FLORIDA .- The Pensacola Obreer already raises a piteous wail for Florida. Governor Perry, according to the Observer, has treated a certain gallant Company by the ame of the Rifle Rangers, most shamefully. They have, it seems, been in "active service" since the 12th of January, without relief, withot arms, and with nothing to est but salt pork and hard biscuit, which they had stolen from acle Sam's soldiers. And sixty Manard ritles which they have been long waiting for, came at last, but Gov. Perry went right away and gave them to a rival company. "If they had dishanded at once," says the Observer, every right-thinking person would have suslained their action." If they had staid at home and not banded at all, every right-thinking person would have called them sensible men. But the most piteous wail of the Obser-

er is as follows: "Florida will soon be called upon to turnish er quota of men for the regular army of the Southern Confederacy. This quota has been bat down at 1,000 men. With an empty treas-Ty, we cannot imagine how she can enlist, redly we shall all hang separately." quip and arm this number. If our State is ankrupt at this early stage of the action, we think the sooner she sells out the better. If he State Government cannot be carried on for want of funds, let Florida be divided between our sister States of Georgia and Alabama, by the line of the Chattahooche river. The soon-"This is done the better, for to this it must ome at last."

LATEST FROM WASHINGTON.

The aim of the South-to keep all the Evacuation of Sumter! Little the't of-the ashes of a smoked | EFFECT OF DELAYING REINFORCEMENTS!

Stated-that five printers occupy the CONSEQUENCES OF PRESIDENT BU-CHANAN'S POLICY!

WASHINGTON, MARCH 11TH, 1861.

MAJOR ANDERSON-THE CABINET-PORT SUMTER. An official letter from Major Anderson, received on Saturday, says he had only fifteen days subsistence and wood on hand. The question has therefore arisen with the Administration whother reinforcements shall be attempted, or the fort abandoned. The latter course, it is thought, will be adopted, from inevitable necessity, by the advice of Lieut. General Scott.

MEETING OF THE CABINET. The Administration has not yet determined its policy concerning Fort Sumter, although it was discussed in Cabinet on Saturday night and yesterday, (Sunday). Major Anderson must either be reinforced or withdrawn; the first proposition involves a war. Mr. Buchanan left this complication purposely in its present position.

REPORTED EVACUATION OF FORT SUMTER. The latest advices are that Fort Sumter will be evacuated by the United States forces. The question is wholly a military one, and must be decided on military ground.

We are not enabled to judge, at this time, of the truth of the report, and therefore feel lisposed to await further advices. There is one thing certain, if Mr. Lincoln withdraws Major Anderson from his present position, it will be for the most weighty reasons. As Mr. Holt admits, the responsibility for such a course would rest on the previous administration rather than on the present. Buchanan permitted the South Carolinians to go on in building fortifications around the harbor, without molestation, for more than five months. If he had exercised his authority at the proper time, Fort Sumter would now be prepared to withstand a protracted siege, while to reinforce it at the present will certainly involve a great amount of bloodshed. The question of one now than it was several months ago, when it could have been accomplished without serious opposition. It appears that Gen. Scott now opposes the movement as earnestly as he advocated it last winter, and if Mr. Lincoln has resolved on the course suggested by the Washington advices, we presume it is through the persuasion of that eminent and patriotic military chieftain.

REVERENCE FOR THE OLD FLAG. -There was an affecting scene at San Antonio, Texas, as the United States troops marched out of the city, which is thus described by The Alamo Express: "A large concourse of citizens had ollected to bid the troops of war good-by, and when the two companies, under the command of Major Smith and Captain King, marched out with colors flying and band playing the national airs, and the old ballet-riddled and war-stained banner of the 8th Regiment floating in the breeze, there was a most proto and sensation among the people; strong men wept. We have never seen so much feeling evinced on any occasion. The people cheered the troops all along the streets, and many followed them to the head of the San Pedro, where they encamped."

She will be thoroughly RF Proposed-in Boston, to erect a statue armed, and take her place for the protection to Major Anderson, and that it shall be done of the coast. The Bonita was captured some with the cent coin of the country, contributed time since on the coast of Africa as a slaver by the people wherever there is any love of and taken to Charleston, but there being no United States Court, she was brought to Savannah, and has been there since.

Office in Shaw's New Row, Clearfield. Sep. 15. THITHE TRIBUNE FOR 1861.-PROSPEC-IL TUS .- The XXth Volume of the Weekly Triune commenced with the issue of Sept. 1. During the past year The Tribune has been obliged to levote quite a large proportion of its space to polities, but we shall soon be able to forego Political discussions almost entirely, for months if not for years, and devote nearly all our columns to subects of less intense, but more abiding, interest. A-nong these, we mean to pay especial attention to I. Education.—The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve

that the cause of Education shall receive an impetus from the exertions of The Tribune in its behalf during the year 1861. II. AGRICULTURE .- We have been compelled to estrict our elucidations of this great interest throughout 1800, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, demonstration, is calculated to render the reward of labor devoted to cultivation more ample or more

certain, shall receive prompt and full attention. III. MANUFACTURES, &c .- We hail every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more couvenient, more remunerating markets to the Farm-Fresh Arrival of Goods, at SWAN AND HARTSHORN'S. The Laborer. The progress of Mining, Iron-Making, Steel-Making, Cloth-Weaving, &c., in our country and the world, shall be watched and reported by us with an earnest and active sympathy. IV. FOREIGN AFFAIRS .- We employ the best cor-

respondents in London, Paris, Turin, Berlin, and other European Capitols, to transmit us early and accurate advices of the great changes there silently but certainly preparing. In spite of the pres-sure of Domestic Politics, our News from the Old World is now varied and ample; but we shall have to render it more perfect during the eventful year just before us. V. Home News .- We employ regular paid cor-

respondents in California, at the Isthmus of Darien, in the Rocky Mountein gold region, or wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious cor respondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We sim to print the cheapest general newspaper, with the fullest and most authentic summary of useful latelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as cur means are steadily enlarged through the generous co-operation of our many well-wishers, we solicit, and shall labor to do serve, a continuance of public favor.
