THE WEATHER, ETC .- Considerable quantities of rain fell on Monday, and the river is again up to a raiting stage. Several rafts have started down stream, and we presume, November. others will follow to-day.

TAKE NOTICE .- Persons having envelopes with the old stamps, are requested to call on the Postmaster at Rockton, and exchange them for new ones within six days from the publishing of this notice-otherwise the hold-D. E. BRUBAKER. er will lose them. Oct. 10, 1861.

THE LARGEST YIELD.-Mr. Wm. L. Rishel of Lawrence township has informed us, that last spring he planted fuo California potatoes, and upon digging them on last Monday a-week, the product was one bushel and a half. This bests Mr. Westover, who obtained one bushel and 17 potatoes from three which he planted. As we beat our friend Scull, of the Somerset Herald, on a timothy stalk, we would be glad to hear from him now on potatoes.

CORRESPONDENCE OF THE "JOURNAL." 2 CAMP KALORAMA NEAR WASHINGTON, !

Sept. 28th, 1861. FRIEND Row :- Not having observed in any copies of the Raftsman's Journal a letter from this camp, I thought perhaps one from here might be interesting to some of your readers. I believe that none of the Clearfield boys prior to this, have encomped here. At present M'-Knight's Regiment, in connection with several other Regiments, occupy what is called Camp Kalorama. This camp is situated about two miles from the capital on what is designated Kalorama or Georgetown Heights: which command a good view of both Washington and Georgetown. This place must for-merly have been magnificently beautiful. The whole vicinity around was prior to any encampment here, a pretty grove of cedars, and time, have somewhat despoiled it of its former all you !" beauty, and nought else is left at present save the hill itself-the trees having been appropriated to the use of the soldier, the wood for has been encamped here for about three weeks. they mean to peddle lead this time." On last Friday we moved our quarters from one part of the camp to another, which gave us some idea of "pulling up stakes" and marat present under marching orders, and seem Regiment but lately came into Camp Tennally. I think they arrived on last Wednesday. Capt. Irvin's company are with a few exceptions, all well, and seem to be ready to meet the enemy at any time. At Camp Tennally there is erected one fort and mounted with eleven guns of large calibre, and another in

should think that they would make excellent winter quarters for the soldiers. About noon to-day, M'Knight's Regiment received orders to march in one hour for 5th street wharf. Accordingly, we struck our tents and started, all being in somewhat of a dilemma as to what use could possibly be made of us, without being armed or uniformed. Some of the more unruly members among us, who had been engaged while here, at sundry times in divers improper ways, came to the conclusion that as a punishment for our sins, we were to be placed to digging trenches or throwing up forts, but our fears were somewhat calmed, by having the order countermanded before we had quite reached the place designated in the order, and we were obliged to turn back to "Kalorama." So here we are, with orders to be armed and uniformed by Monday at 10 o'clock, and hold ourselves in readiness to march at a moments] notice. The boys belonging to this Regiment from Clearfield, are all well. Yours &c., C. & A.

CAMP CROSSMAN, Oct. 4, 1861. FRIEND Row .- We arrived here (Huntingdon) safe, and were quartered in the Court House. We had rather an unpleasant trip, having rained most of the time; but we soon dried our clothes at the warm stoves. On Sunday afternoon we had preaching in the Court House, by a soldier. A great many persons were present from the town. On Tuesday we started for camp, where we are now quartered. We have tents, and the soft side of a pine board for a bed. We like camp life and enjoy ourselves well. Some of the boys were unwell, but are getting better. The there are parts of three companies, and in the other between 800 and 900 men. The location is a pleasant one, on the side of a hill. We have an excellent spring of water in camp. We drill morning and evening, and during the day we are engaged in fitting up our campsuch as draining, grubbing, and moving fences. Excuse my hasty note, as I have nothing but a pine board lying on the ground for a Yours, J. W. O.

A Mupple.-A divorce case in the Supreme been informed by her busband that the case would not come on till the second week of the term, and that, consequently, she had made will destroy it .- [Leader, St. Louis, Mo. no preparations for her defence. The Court, on this, ordered the decree of divorce to be Mricken from the docket. The husband, however, had taken time by the forelock, and married another lady in a different part of the remains to be seen how the new wife will compromise with the first one.

How Scott's LIFE WAS SAVED .- The follow-Boston Journal :- "One of the soldiers in the ship is worthy of her name. Vermont regiment to which private Scott, the soldier sentenced to be shot for sleeping upon fore, it was decided to pardon him, but the placed before him a large covered dishecution, but getting no reply, and fearing that left—had no appetite. Almself after dark to the encampment, to There are now over 30,000 German soldiers inike sure that all was right."

RUNNING OF THE PBNSACOLA DRY DOCK .ching. Several of us visited "Camp Tennally" a few days since. This Camp is situated about three miles from here. We found the Washington Cadets generally well. They are Gen. Brag (rebel) some time since attempted harbor, for the purpose of sinking it in the been thoroughly tested in this community, an to feel impatient for the word to start. We channel, and thereby preventing vessels from are highly approved. TRY THEM. also visited the "Buck-tail" Regiment. This entering. Col. Brown sent him word to desist, and the dock remained unmolested for some days; but afterwards observing boats with their former intent, Col. Brown determined to frustrate their designs by burning it, and accordingly he selected Lieut. A. A. Shipley for the perilous enterprise. Just after tattoo on the night of the 2d September, process of erection. If we are obliged to stay Lieut. Shipley, with a crew of ten picked men, left Fort Pickens for the purpose stated, in this section of country during the winter, (which I hope we will not) by roofing the forts, having previously provided himself with combustible material and two 8-inch columbiad shells. At 10 o'clock he approached the dock, and after a little reconnoitering mounted it, followed by two of his men. He found the machinery in good order, with kindling and wood in the furnace, and everything ready for the rebels to execute their designs the following night. Lieut. S. had-his inflammable materials carried to the engine room, and placed the shells in one of the boiler flues. He then ordered his men into the boat, and set fire to the pile, and in an instant a bright sheet of flame shot up. He now got into the boat, and a few vigorous stroke brought him into the stream; but before they were 25 yards away the shells exploded, filing the air with fragments of the boiler and burning timbers. At 111 p. m. they again landed safely at Fort Pickens, having gallantly accomplished the object of their errant. This dock had cost the Government over one In the basement of Merrell & Bigler's building by million of dollars.

THE WONDERS OF THE MICROSCOPE .- We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the paludal miasm and determining its character. Of its effects we in this section have abundant evidence in the Fever and Ague which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of water from decayed and decaying vegitation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blood of Ague subjects. camp here is divided in two parts-in ours They are 13,000 times less than visible to the naked eye, but have distinct character and form. He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other fermentative posions, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce themselves with great rapidity like yeast in moistened flour, so that the slightest quantity impregnates the whole mass. Yeast through a powerful magnifier is seen to Court at York county, Me., was attended last be a forest of vegetation which grows, blosweek with an awkward result. It seems that a soms and goes to seed in a short time. Miparty, residing in South Berwick, obtained a asm is not so distinctly vegitable but has more decree of divorce from his spouse on the third the appearance of animal life, although its day of the term. On the fifth day the spouse motions cannot be perfectly distinguished. made her appearance, and stated that she had What the Doctor claims to have settled is that it is organic substance and he has further found and embodied in his "Ague Cure" what

"UNION" FOREVER .- There is a little township on the borders of Washington county. The highest vote ever cast in the district was FURS. for Ladies' Misses' 330. Yet Union township (so it is called,) and Children's Wear. State, on the day he got his decree. It now has sent out one hundred and eighty men in defence of their country. They enlisted in various companies, in squads of about twenty, and are all privates-the township not furnishing a single officer. All honor to the banner ing anecdote is told of the President by the township of old Washington. "Union" town-

NEW-YORK TRIBUNE-NEW VOLUME On the seventh of September, 1861, THE NEW-YORK WEEKLY TRIBUNE communiced the twenty-first year of its existence; the THE DAI-LY TRIBUNE being some months older and THE SEMI-WEEKLY TRIBUNE somewhat younger. For more than twenty years, this journal has la-bored in what its conductors have felt to be the cause of Humanity, Justice and Freedom, endeavoring to meliorate the condition of the oppressed and unfortunate, to honor and encourage useful exertion in whatever sphere, and, to promote by all means the moral, intellectual and material advancement of our country. It has aimed to be right rather than popular, and to espouse and commend to-day the truth that others may not be willing to accept till to-morrow. In parsuing this course, mistakes have doubtless been made and faults committed; but, having in all things incited our readers to think and judge for them selves rather than adopt blindly our own or oth-1 00 ers' conclusions, we believe we may fairly claim 1 00 for this journal the credit of having qualified its 2 00 readers to detect and expose even its own errors. Te develop the minds of the young by the most general, thorough and practical Education, and to encourage and stimulate Productive Industry, newspaper Diploma through free grants of Public Lands to actual settlers and cultivators, as also through the protection of immature or peculiarly exposed branches from too powerful foreign competition, are among the aims to which this journal has adhered through good and evil report, and which it steadfastly commends to American patriotism and

philanthropy.

As to the Civil War now devastating our country, we hold it to have originated in a Rebellion more wanton, wicked, inexcusable, then was ever before known-a Rebellion in the interest of the few against the many—a Rebellion designed to raise higher the walls of caste and tighten the chains of oppression. Having done all we could without a surrender of vital principle to avoid this War, and witnessed the forbearance, meekness, and long-saffering with which the Federal Government sought to avert its horrors, we hold it our clear duty, with that of every other citizen. to stand by the nation and its fairly chosen rulers, and to second with all our energies their ef forts to uphold the Union, the Constitution, and the supremacy of the laws. And, though the Rehaving valuable properties, discretionary premi-ums may be recommended by the Committee, and that the unanimous, carnest efforts of loyal hearts and hands will insure its overthrow. But on all questions affecting the objects, the scope, and duration of this most extraordinary contest, we defer to those whom the American People have clothed with authority, holding unity of purpose and of action indispensable in so grave on emer-

1 00 gency. In a crisis like the present, our columns must be largely engrossed with the current history of the War for the Union, and with elucidations of the War for the Union, and with crucidations of its more striking incidents. We shall not, however, remit that attention to Literature, to Foreign Affairs, to Agricultural Progress, to Crops, Markets, &c., which has already, we trust, won for THE TRIBUNE an honorable position among its cotemporaries. Our main object is and shall be to produce a comprehensive newspaper, from which a careful reader may glean a vivid and faithful history of the times, not merely in the do-main of Action but in that of Opinion also. As our facilities for acquiring information increase with years, we trust that an improvement in the contents of our journal is perceptible, and that, in the variety and fulness of intelligence afforded, we may still hope to 'make each day a critic on the last." In this hope, we solicit a continuance of the generous measure of patronage hitherto accorded to our journal.
