ILLUSTRATED SCIENTIFIC AMERI-CAN.-THE BEST MECHANICAL PAPER IN THE WORLD .- SEVENTEENTH YEAR .- VOLUME VI-NEW SERIES.

A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information. and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for

its columns. To the Mechanics and Manufacturens.-No person engaged in any of the mechanical or manufacturing pursuits should think of . doing without" the SCIENTIFIC AMERICAN. It costs but four cents per week ; every number contains from six to ten engravings of new machines and inven-tions, which are not found in any other publica tion. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision

TO THE INVENTOR .- The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number con-tains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week ; thus giving a correct history of the progress of inventions in this coun-We are also receiving, every week, the best try. scientific journals of Great Britain, France and fermany; thus placing in our posessinn all that s transpiring in mechanical science and lart in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

CHEMISTS, ARCHITECTS, WILL, WRIGHTS, AND FAR-MERS — The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked ; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and far-mers are interested will be found discussed in the Scientific American ; most of the improvements in agricultural impliments being illustrated in its columns.

TERMS :- To mail subscribers : \$2 a year, or \$! for six months. \$1 pays for one complete volume of 416 pages ; two volumes comprise one year. The volumes commence on the 1st of January and July. Specimen copies will be sent gratis to any

The improvement has steadily progressed.

Sugar is an important article of diet, and an aid to digestion. Though the use of sugar as an article of food seems mainly to supply the carbon used in breathing, yet it undoubtedly contributes also to the production of fat, for during the severe labor of gathering the sugar crop in the West Indies, in spite of the great exertion and fatigue, it is said that every negro on the plantation, every animal, even the dogs, will fatten.

The gold regions lately opened in Vancouver's Island are very valuable. The mining Cheap "holes" are described as shining with gold. NEW-YORK TRIBUNE-NEW VOLUME On the seventh of September, 1861, THE NEW-YORK WEEKLY TRIBUNE commenced the twenty-first year of its existence; the THE DAI-LY TRIBUNE being some months older and THE SEMI-WEEKLY TRIBUNE somewhat younger. For more than twenty years, this journal has labored in what its conductors have felt to be the cause of Humanity, Justice and Freedom, endeav-oring to meliorate the condition of the oppressed and unfortunate, to honor and encourage useful exertion in whatever sphere, and, to promote by all means the moral, intellectual and material advancement of our country. It has aimed to be right rather than popular, and to espouse and commend to-day the truth that others may not be willing to accept till to-morrow. In pursuing this course, mistakes have doubtless been made and faults committed ; but, having in all things incited our readers to think and judge for themselves rather than adopt blindly our own or others' conclusions, we believe we may fairly claim for this journal the credit of having qualified its readers to detect and expose even its own errors. To develop the minds of the young by the most general, thorough and practical Education, and to encourage and stimulate Productive Industry, through free grants of Public Lands to actual settlers and cultivators, as also through the protection of immature or peculiarly exposed branches rom too powerful foreign competition, are among the aims to which this journal has adhered through good and evil report, and which it steadfastly commends to American patriotism and philanthropy.

As to the Civil War now devastating our country, we hold it to have originated in a Rebellion more wanton, wicked, inexcusable, then was ever before known-a Rebellion in the interest of the few against the many-a Rebellion designed to raise higher the walls of easte and tighten the chains of oppression. Having done all we could without a surrender of vital principle to avoid this War and witnessed the forbearance, meek ness, and long-suffering with which the Federal Government sought to avert its horrors, we hold it our clear duty, with that of every other citizen to stand by the nation and its fairly chosen ru lers, and to second with all our energies their ef forts to uphold the Union, the Constitution, and the supremacy of the laws. And, though the Rebellion has become, through usurpation, deception, terroism, and spoilation, fearfully strong, we believe the American Republic far stronger, and that the unanimous, earnest efforts of loyal hearts and hands will insure its overthrow. But on all questions affecting the objects, the scope, and duration of this most extraordinary contest, we defer to those whom the American People have clothed with authority, holding unity of purpose and of action indispensable in so grave an emergency

In a crisis like the present, our columns must be largely engrossed with the current history of the War for the Union, and with elucidations of its more striking incidents. We shall not, however, remit that attention to Literature, to Foreign Affairs, to Agricultural Progress, to Crops, Markets, &c., which has already, we trust, won for THE TRIBUNE an honorable position among its cotemporaries. Our main object is and shall be to produce a comprehensive newspaper, from which a careful reader may glean a vivid and faithful history of the times, not merely in the domain of Action but in that of Opinion also. As our facilities for acquiring information increase with years, we trust that an improvement in the contents of our journal is perceptible, and that, in the variety and fulness of intelligence afforded, we may still hope to ' make each day a critic on the last." In this hope, we solicit a continu ance of the generous measure of patronage hitherto accorded to our journal.

MAY 26, 1860 .- This is the case of acute rhenm: tism treated with propylamine, the first of those which I called your attention at our last clinic She is still very comfortable, and is now taking

three gratns thrice daily. In this case it has seemed to be followed by very satistactory results. The second case to while your attention was called at our last lecture, has also continued to do well. I will now bring a fore you a very characteristic case of acute a matism, and if the result b esatisfactory.

as good jurymen, we shall justly render our ee. in favoi of propylamine

He is a seaman, æt. 25, who was admitted a fes days ago. Has had occasional rhoumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later the joints of the upper extremities. These joints are all stullan tense and tender. His tongue is furred; his stin at present, dry, though there has been much sweet His pulse is full and strong, and about 10 He has now used propylamine twenty-four loars This gentlemen is what may be called a scriptly typical case of acute rheumatism.
