THE WEATHER was quite winterish on Saturday and Sunday. Several inches of snow and sleet fell, but it has all disappeared.

Moved to Morrisdale-our triend Geo. Richards. Read his advertisement in another column. We would advise our friends to call with George when they get into that .. neck of the woods.

USSEATED LANUS - We this week publish the list of Unscated Lands, which are to be sold for the taxes on the 2d Monday in June ; consequently, a lack of our usual variety of reading matter. We will endeavor to make amends next week.

Horss BURNT .- We learn t at the house of John Geathart of Bradford township, was bunt to the ground, with nearly all its contents, ou Friday the 28th March. The fire originated in the root, by sparks failing on it from the chimney, in which the soot had previously caught fire. Mr. Gearnart's loss is estimated at from 1,500 to 2,000 dollars.

CONRAD HOUSE, PHILIPSDURG .- This house is now kep, by J. H. Galer and A. J. Grist. Jim is one of the cleverest fellows we know of, and will, no doubt, keep a most excellent house. Persons from this county are requested to give the house a call, when they visit Philipsburg, as we feel persuaded that they will property cared for by Jim.

NEW STORE .- We observe that the Reizen stein Bro's are opening a Clothing Store in the room formerly occupied by R. Snaw, adjoining the "Mansion House." They appear to be good business men, and, no doubt, will keep on hand an excellent stock of clothing, and that they will sell at prices to suit the times. Call and examine their stock.

ANOTHER WAR MAP .- This week we publish, on our four h page, another war map, which no doubt will be of some interest to many of our readers. on account of the active operations now being carried forward in the West. Island No. 10 is not named in the map. It is where the Kentucky and Tenne save line strikes | can citizens cannot do, and one thing which I | of the board,

expected a serious disturbance that might | W. M. MCULLOUGH, Attorney at Law, Clear- | SALT-a good article, and very cheap at the probably and in bloodshed. We expected to | W. field, Pa. Office, with L. J. Crans, Esq., | S store of WM. F. IRWIN. Clearfield. find the Opera House crowded with rowdies, and that the lecturer would find it convenient not to attempt to speak. Our astonishment was great, therefore, on entering Mr. Pike's temple, to find the house nearly filled with an intelligent, weil behaved and respectable andience, about one fourth of whom were ladies. There was a premeditated design to prevent Mr. Philips from lecturing. It was participated in by many respectable citizens, but the task was committed to degraded hands, that many who were anxious to have the lecture interfered with, became ashamed of the affair before the lecture was half over. The indecency of the mob destroyed the intended purpose. The lecture was delivered and nobody hurt. We make no report of Mr. | cash by Philips' speech, and shall only add that his calinness of manner and moderate opinions surprised a great many who expected to hear

er a disunionist, satisfied that slavery has already received its death-blow, and has only to Which they are prepared to dispose of for cash at "turn over and die." His efforts now, he said, are directed to the prevention of compromises, which in his opinion, would only tend to prolong the contest between the intellectual democracy of the North and the aristocracy of the South. That is his lecture in a nutshell."

organ of that city, reports the principal porion of Mr. Philips' speeh, from which report we take the following extracts :

... After Mr. Philips had been speaking some time, he said : . We are entering upon the great struggle which no people have ever avoided-a struggle between the few and the many-a struggle between aristocracy and democracy. The North represents a democracy, founded on industry, brains and money; the South an aristocracy, founded on slave laboran aristocracy whose right hand is negro slawery and whose left is the ignorant white man. "At this point a heavy boulder was thrown from the third tier of boxes. It struck a few feet from the speaker. It came crashing among the foot-lights like a common shot. Simultane-usly with the boulder came a couple of eggs, that burst like bombs, dispensing a perfinne more pot at than tragrant. One of these oderous mussiles struck the speaker. When the tumfilt had somewhat subsided, the speaker resumed his discourse : Allow me dae word more. I do not know what that fellow-man meant who sent that stone, but I meant no insult to the nonslave-holding white man of the South. PROSPECTUS OF THE CONTINEN. TAL MONTHLY .- There are periods in the world's history marked by extraordinary and violent crises, sudden as the breaking forth of a volcano, or the barsting of a storm on the landmarks of generations. They call out fresh new men for expounders. This Continent has lately been convulsed by an upheaving so sudden and terrible that the relations of al men and all classes to each other are violently disturbed, and people look about for the elements with which to sway the storm and direct the whirlwind. Just at present, we do not know what all this is to bring forth ; but we do know that great results must flow from such extraordinary commotions.

ILLUSTRATED SCIENTIFIC AMERI-CAN.-THE BEST MECHASICAL PAPER IN THE WORLD.-SEVENTEENTH YEAR.-VOLUME VI-NEW SERIES.

A new volume of this widely circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten riginal engravings of new inventions and discoveries, all of which are prepared expressly for ts col mns.

To THE MECHANICS AND MANUFACTURERS -- No person engaged in any of the mechanical or manafacturing pursuits should think of doing without" the SCIENTIFIC AMERICAN. It costs but four cents per week ; every number contains from six to ten engravings of new machines and inventions, which are not found in any other publica tion. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To THE INVENTOR -- The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week ; thus giving a correct history of the progress of inventions in this country. We are also receiving every week, the best scientific journals of Great Britain, France and Germany ; thus placing in our posession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to ur renders.

CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FAR-MERS -The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked ; all the new invenions and discoveries appertaining to these pursuits being published from week to week. Useful corner of Broad and Chestnut Sts. Phil'a, and sold and practical information pertaining to the interes's of millwrights and mill owners will be found published in the Scientific American, which in formation they can not possibly obtain from any other source. Subjects in which planters and farners are interested will be found discussed in the cientific American ; most of the improvements agricultural impliments being Blustrated in is columns.

FOCSD DEAD -A correspondent informs us, a woman was found dead on the road, in Knox township, near the month of Pott's Ran on Clearfield Creek, on Sunticy evening the 23d of March. An inquest was summoned by W. McKee, Esq. Alter ascertaining the facis, the Jury returned that ther death was caused be some disease unknown." During the investigation it was ascertained that she was a Mrs. Hiley, who had been on a visit to J. M. Chase's, and that she had left Mr. C's, some three or four hours previous to her being discovered in the road dead, in apparent good health. She was about 52 years of age.

THE LUMBER TR. BE .- The Phil's Press says. Although the time has hardly yet arrived for the eneming of the humber business, there are signs of reviving life on the whatves above Willow street. In several places railway tracks here been laid from the Borth Pennsylvania Railroad across Bolaware avenue to the extreme ends of the piers, for the shipment of Lehigh coal. These tracks being laid at right angles with the avenue, do not interfere with der guests comfortable. Charges moderate. the travel on it. The whart at Noble street is being widened about fifteen feet. The stock of lumber on hand appears small at present Some statements having been made that a geats of the English Government were engaged in buying up all the white oak timber they could find, at fabricos prices, we made inquity on the subject amongst the humber dealers, and found they knew mothing of the matter. A gentleman, who had recently returned from Canada, informed us that a large quantity of white oak had been out there for English account. Our lumber dealers have little to do with white oak, except in the shape of ship knees. The best timber comes from Pennsylvania and Delaware. Next to the florida five oak and teak wood it is the best article for ship building."

PHILIPS MOZEED IN CINCIN VATI.

At a juncture so solemn and so important, there is a special need that the intellectual force of the country should be active and efficient. It is a time for great minds to speak their thoughts bold March 6, 1862. ly, and to take position as the advance guard. To this end, there is a special want unsupplied. It is that of an Independent Magazine, which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented

tizanship, or influenced by fear, favor or the hope of reward, which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface, and which can not be laid aside or neglected.

To meet this want, the undersigned have commeneod, under the editorial charge of Charles G. Leland, the publication of a new Magazine, devoted to niterature and National Policy.

In Politics, it will advocate, with all the force at its command, measures best adapted to preserve the oneness and integrity of these United States. It will never yield to the idea of any disruption of this Republic, penceably or otherwise; and it contrary, in the town papers, the pravious week, will discuss with honesty and impartiality what must be done to save it. In this department, some of the most eminent statesmen of the time will contribute regularly to its pages.

In Literature, it will be sustained by the beat writers and ablest thinkers of this country.

Among its attractions will be presented, in an early number, a New Serial of American Life." by Richard Kimball, Esq. the very popular author of "The Revelations of Wall Street," "St. Leger," &c. A series of papers by Hon Horace Greely. embodying the distinguished author's observations

on the growth and development of the Great West. A series of articles by the author of "Through the Cotton States," containing the resuit of an extended tour in the seashore Slave States, just prior to the breaking out of the war. and presenting a startling and truthful picture of the real condition of that region. No pains will be spared to render the literary attractions of the CONTINENTAL both brilliant and substantial The lyrical or descriptive talents of the most eminent iterati have been promised to its pages; and nothing will be admitted which will not be distinguished by marked energy originality, and solid strength. Avoiding every influence or association partaking of clique or coterie, it will be open to all contributions of real merit, even from writers differing materially in their views ; the only limitations required being that of devotion to the Union, and the only standard of acceptance

that of intrinsic excellence. The Editorial Department will embrace, in ad-

dition to vigorous and fearless comments on the events of the times, genial gossip with the reader on all current topics, and also devote abundant space to those racy specimens of American wit and humor, without which there can be no perfect exposition of our national character Among these who will contribute regularly to this department may be mentioned the name of Charles F. Browne (Artemus Ward), from whom we shall present in the March number, the first of an entirely new and original series of "Sketches of Western Life " The CONTINENTEL will be liberal and progressive, without yielding to chimeras and hopes bexond the grasp of the age ; and it will endeavor

to reflect the feelings and interests of the American people, and to illustrate both their serious and humorous peculiarities. In short, no pains will be spared to make it the Representative Magazine of the time.
