**DIED.**—We learn that Thomas Ravenhill, a member of the 84th Penna. regiment, died in the Hospital in Philadelphia, one day last week, from the effects of a wound in the thigh which he received in the battle at Winchester.

**THE WEATHER, ETC.**—Rain commenced falling in this region on Sunday night, and did not cease until Monday evening, and in consequence the river was unusually high on Tuesday. No rafts are running now, and we presume there are but few on our streams which are likely to be run the present season.

**THE LADY'S BOOK.**—Godley for May is to hand. It contains a beautiful double colored fashion plate, a steel plate illustrating the "Merry month of May," a design for a cottage, etc.—in all, 74 engravings in this number. Godley is always ahead of all other magazines in the way of illustrations. No lady should be without it. Price, three dollars a year.

**THE WOUNDED.**—Wm. H. Stott, who is in the St. Joseph's Hospital in Philadelphia, informs us, that he is in good health, and that his wound is healing as fast as could be expected. He also says, that John R. Carr and William Lozier are on the mend; but that John Albert seems to be on a stand, and that his wound is very painful. It is to be hoped that these brave boys may speedily recover.

**ON FERLOUGH.**—We stated in the Telegraph that our friend D. P. Bible of Philipsburg, Adjutant of the 51st Penna. regiment, was in Harrisburg on Saturday last, en route for home, where he will spend a few days among his friends, having been furloughed on account of sickness. The 51st has already distinguished itself in battle, and its bayonet charge at Newbern, N. C., was one of the most brilliant performances of the war. May its future operations be crowned with still greater honors.

**BRADY TOWNSHIP, April 19, 1862.**  
**MR. ROW.**—On Sunday night the 18th, several persons went to the sugar camp of Mr. Alex. Shea in this township, and boiled down two kettles of syrup (which had been left in the camp on Saturday evening by Mr. S.) and carried off the product. This was certainly a very bold move, as the camp is in sight of Mr. Shea's residence. Such scoundrels deserve to be severely punished for their temerity. If successful in eluding detection, they are likely to become as expert in acts of rascality as the southern rebels, with whom it is supposed they sympathize.  
Yours, Unopposed

**HOW TO BANISH RATS.**—A correspondent of Gardner's Monthly says, "I tried the effect of introducing into the entrance of their holes, runs or hiding places, a small piece of chloride of lime or bleaching powder, wrapped in calico, and thrown loose by the spoonful into the drain from the house. This drove them away for a twelve month, when they returned to it. They were again treated in the same manner, with a like effect. The cure was most complete. I presume it was the chloride gas which did not agree with their olfactory organs."

**A LITERARY CURIOSITY.**—A friend sends us the following copy of an advertisement, which he found sticking up in a blacksmith shop in an adjoining county. It is certainly a very rare specimen of orthography:

**PUBLIC SALE** will be sold at public Vendue on Tuesday 18th of March at the superer goge Township will be sold as follows one horse too Two yearn Colts Bith hats of young Cathells one milk cow Eight shots one Broath will wagin and Bet Blows and baris wintmill horse Gers portais and a variety of other Articles too numerous to mention Sale to Commence at 1 o'clock A M of said Day when dew Attenlin and a good Credit will be Given.

**FROM MARIETTA.**—The Mariettian says that on Friday afternoon, the 18th, the Susquehanna was unusually high and still rising, and the water was "over the bank at many places along the town, and great danger is manifest from what, it is feared, will be the greatest freshet for a number of years. The shore is lined with timber and board rafts, and all the ropes that could be obtained have been brought into use. The prices paid for timber during the past week have been very encouraging, ranging from 8 to 11 cents for pine, and 10 to 12 cents for oak. Our town is filled with merchants awaiting the abatement of the flood, when the lumber will soon change owners; at present the buyers "hold off," for a more safe condition of the river.

**LOCAL ITEMS.**—On the subject of furnishing local items for the press the editor of an Eastern paper makes the following sensible remark: "Almost every member of a community where a newspaper is established, can do much to make the local department what it should be, by contributions of fresh items, which may be gathered in each locality and communicated with little trouble. They who neglect this duty, so useful to editors and desirable to the public, are responsible, in part at least, for a meagre supply of domestic news in their journals."

**WE HOPE** our friends throughout the county will profit by this remark, and furnish us with the local occurrences of their neighborhoods. Give the facts—time, place, name and circumstances—and we will put the item in proper shape. The writers name must accompany the communication as a guarantee of its correctness—leaving us to judge of its merit.

**NOR BELIEVERS.**—It is stated that the Emperor Napoleon has resolved not to recognize the bastard government of the southern slaveholders—or in other words, he declines to regard them as belligerents, and will treat them hereafter only as rebels and outlaws, or as pirates. England will probably pursue the same course.

**BEAUREGARD,** it is said, is suffering from a sore throat. He isn't the only rebel that is beginning to feel bad about the neck.

**QUERY.**—When will Floyd understand his true position? When he gets the hang of it.

Received by Tuesday Evening's Mail.

From Gen. Burnside's Department.

We have Newbern dates to the 18th. Fort Macon is thoroughly cut off, and it being ascertained that the supply of provisions is short, it was thought that no attack would be made on the fort, but that the besieging party would wait to starve them out. Slight expectations prevailed that the rebels would attack Newbern, and fortifications being built for its protection. A little skirmish took place about a week since near Beaufort. Capt. Schofield of the 8th Connecticut regiment and four other officers were wounded. Gen. Burnside made a short visit to Beaufort.

Com. Foote commenced the bombardment of Port Wright, several days since, and firing is kept up briskly on both sides. Deserter from the enemy say their batteries mount about 40 guns, and that 60 more are being put in position. Gen. Bragg is in command. The rebel force is about 6,000, and four gunboats in the river. The high water prevents the operation of our land forces with the fleet.

A dispatch from Madison, Wisconsin, dated April 21, states that the Executive Department had received the startling announcement of the death of Gov. Louis P. Harvey. He was drowned at Savannah, Tennessee, on Saturday night, while stepping from one boat to another. The body had not been recovered.

Gen. Banks has informed the War Department, of the flight of Jackson from the Shannandoah Valley, by the way of the mountains from Harrisonburg towards Staunardville and Orange Court House on Gordonsville.

Every house in Columbus is surrounded by water. Mount City is entirely submerged, and the water is running into the lower stories of the hospitals and dwellings.

Pennsylvania Hospital.  
(From Official Hospital Reports.)  
MAY 19, 1860.—Ellen S., et. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks, and subsequently from a relapse for four more. She has been well since then till last Saturday, while engaged in house cleaning, she took cold, had pain in her back, felt cold, but had no decided chill. Two days later her ankles began to swell, which was followed by swelling of the knee joints and of the hands. She has dull pains in her shoulders, and her knees are very tender, and under the least exertion she is affected, but the right is the most so. There is a case of acute rheumatism, or as it is now fashionably called, rheumatic fever. It is a well marked typical case. We will not mention the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now is to call your attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. A. W. Stewart, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 200 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose giving it another trial. I must confess I am always incredulous as to the worth of new remedies, which are touted as specifics; but this comes to me recommended so highly, that we are bound to give it a trial.

**SAME CASE FOUR DAYS LATER!**  
MAY 25, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and who was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at night). The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her former attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly of their natural size. Flammation, which had previously seemed very successful; but gentlemen we must wait a little while before we can give a decided opinion as to what is to be the result.

**THREE DAYS LATER!**  
MAY 28, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains three daily.

In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called, under the name of acute rheumatism, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisfactory, we will give you a good prescription, which shall be given you in favor of propylamine.

He is a seaman, et. 26, who was admitted a few days ago. He has occasional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later the joints of the upper extremities. These joints are now very tender and tender. His tongue is furred; his skin at present dry, though there has been much sweating. His pulse is full and strong, and about 90. He has not used propylamine twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe arthralgia pain, beginning in the lower joints, and extending to the upper joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism.

I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy, and to let you see the result to you this typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case in a future clinic.

**THE RESULT—A FAVORABLE VERDICT.**  
JUNE 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case. It may be remarked that a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about as you see. I do not hesitate to say that the case was as severe a case of acute rheumatism as you ever witnessed, as this man has been, and without being prepared to decide positively as to the value of the remedy we have used, I feel bound to state that in the case in which we have tried the Elixir of Propylamine, the patients have gained their health much earlier than under the treatment ordinarily pursued. I wish, gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is a reporter after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from distinguished doctors and rejoicing patients.

**A SURETY CURE, AN EFFECTUAL CURE, THE SAME RESULT IN EVERY CASE.** Wm. F. Irwin, wherever tried. WHAT IT HAS DONE, IT WILL DO AGAIN.
