THE RAFTSMAN'S JOURNAL.

CLEARFIELD, JULY 9, 1862.

Fugatives report that Jeff Davis had been heard to say "that he would make the streets of the city run with blood, before he would surrender Richmond."

The Secretary of the Treasury received notice from Maryland that her quota of the War tax is ready. This is the second state in the Union that has met this obligation, Pennsylvania led off.

Amsterdam is, almost as much as Venice, a city of the sea. Fifty canals, from six to ten rods in width, and from seven to nine feet deep, run through the city. These canals are crossed by over three hundred bridges.

The following conversation took place on the receipt of the news of the evacuation of Pres't Judge-Hon. Samuel Linn, Bellefonte. As'te. Judges-Hon. J. D. Thompson, Curwensville Hon. James Bloom, Forrest Corinth 7 "What do you think of Gen. Halleck's First Epistle to the Corinthians ?"

Precocious Pupil-Please Miss, what is the meaning of suberbs? Governess-(who is extensively crinolined;) The outskirts of a place, my dear. Pupil (seizing Miss J. by the dress;) Then, Miss Jones, are these your auberbs 7

A tutor lecturing a young man for irregu-lar conduct, added with earnestness : "The report of your vices will bring your father's gray hairs in sorrow to the grave." "I beg your pardon, sir," replied the incorrigible, "the old cuss wears a wig."

Seven years ago, parties at New Bedford purchased 2,600 barrels of whale oil at 56 cents per gallon, and stored it for speculation. Recently, 2000 barrels were sold for 47 cents per gallon. At one time it commanded 82 cents, and the loss on it is over \$40,000.

During last week the enormous amount of one million four hundred and thirteen thousaud four hundred and eighty-four bushels of grain and thirty-five thousand four hundred and thirty-two barrels of flour, were shipped from New York for Europe, the most of it going to Europe.

The Louisville Journal thinks that if any rebel cotton is successfully concealed on the approach of the Union armies, it will have to be hidden in the bosoms of the women. We guess that our inquisitive troops will be very apt to find even that precious treasure there if they once get their hand in.

A spunky secesh girl is the author of the following cutting lines on "honest old Abe :'

"Jeff. Davis rides a white horse-Abe Lincoln rides a mule ; Jeff. Davis is a gentleman, And Lincoln is a fule."

She concludes by saying that she "will be for Jeff. Davis till Tenicee River freezes over and then be for him and scratch his name on the ice."

VULCANITE BASE FOR ARTIFICIAL TEETH.

Attention is especially called to this article, as a substitute for gold in inserting teeth. Many per-sons who have tr rd all kinds of metalic bases prefer this, and in those cases where it is applicable, it will in a great measure become a substitute for gold, silver or platina. Its chief advantages are, cheapness, lightness and perfect adoption to the mouth; it having a soft fieshy feel to the parts of the mouth with which it comes in contact.

A. M. Hills is prepared to put up teeth on the Vulcanite Base, with Goodyear's Patent Gum, which is the only reliable preparation, and can only be had through their regular agents.

Dr. Hills will always be found in his office on Friday and Saturday, unless notice appears to the contrary, in the town papers, the previous week.

Pennsylvania Hoapital. (FROM OFFICIAL HOSPITAL RSPORTS.) MAY 19, 1860.-Ellen S., mt. 28, single, never was very strong. Two years ago she had an at-tack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been welt since then till last Saturday; while engaged in house cleaning, she took cold, had pain in her back, felt cold, but had no decided chill. Two days later her ankles began to swell which was follow. ed by swelling of the knee joints and of the hands. She has dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is the most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well marked typical case. We will carefully watch the ase, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now is to call your attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylancing. Dr. Awenarius of St. Petersburg, recommends it in the highest terms having derived great benefit from its use in 250 cases which came under his care. Various commondatory testimonials respecting it have appeared in our journals, and I propose giving it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vanated as specifics ; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER ! MAY 23, 1860 .- I will now exhibit to you the patient for whom I preshribed Propylamine, and who was then laboring under an attack of acute rheumatism. She has steadily taken it in deses of three grains, every two hours. (intermitting it at night). The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more. Judging from her other

attack. (The patient now walked into the room The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly of their natural size. Thus far our experiment would have seemed very successful; but gentlemen we must wait a little while before we can give a do-

THREE DAYS LATER !!

Max 26, 1850 .- This is the case of acute rhonmatism treated with propylamine, the first of these to which I called your attention at our last clinic. She is still very comfortable, and is now taking three gratns thrice doily.

In this case it has seemed to be followed by very satistactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring . fore you a very characteristic case of acute a matism, and if the result b esatisfactory.

s good jurymen. we shall justly render our weren favor of propylamine.

He is a scaman mt. 26, who was admitted a few days ago. Has had occasional rheumatic pains, but not so as to keep his bed, until eight days ago The pains began in his right knee, subsequently affected the left knee, and later the joints of the uppor extremities. These joints are all swollen, tense and tender. His tongue is furred; his skin at present, dry, though there has been much sweat-

ing. His pulse is full and strong, and about 90 He has now used propylamine twenty-four hours. This gentlemen is what may be called a strictly ypical case of acute rheumatism. There was exposure to cold and wet, and this exposure is folowed by a feeling of coldness. severe articular

pain, beginning. as it usually does, in the lower joints There is fever and the profuse sweating, so generally attendant on acute rheumatism. I did not bring this patient before you with the

intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it than which there could not be a fairer opportunity for testing the medicine in question. We are therefore, avoiding the use of all other medicines. even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case in a future clinic.

THE RESULT .- A FAVORABLE VERDICT

JUNE 9, 1860 .- The next of our canvalescents is the case of acute rhoumatism before you at our clinie of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about as you I do not hesitate to say that I have never seen see. as severe a case of acute rheumatism so soon restor-

ed to health as this man has been, and without be ing prepared to decide positively as to the value of the remedy we have used. I feel bound to state that in the cases in which we have tried the chloride of Propylamine, the patients have gained their health much earlier than under the treatment ordinarily pursued. I wish, gentlemen, you would your

selves try it, and report the results. For a full report of which the above is a cen lensed extract, see the Philadelphia Medicaland Surgical Reporter. It is a report after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.
