NEW-YORK TRIBUNE-NEW VOLUME-On the seventh of September, 1861, THE NEW-YORK WEEKLY TRIBUNE commenced the twenty first year of its existence; the THE DAI-LY TRIBUNE being some months older and THE SEMI WEEKLY TRIBUNE somewhat younger. For more than twenty years, this journal has la-bored it what its conductors have felt to be the cause of Il imanity, Justice and Freedom, endeav-oring 5 meliorate the condition of the oppressed and unfortunate, to honor and encourage useful Cashmeres, exert on in whatever sphere, and, to promote by all means the moral, intellectual and material advancement of our country. It has aimed to be right rather than popular, and to espouse and commend to-day the truth that others may not be willing to accept till to-morrow. In pursuing this course, mistakes have doubtless been made and faults committed; but, having in all things incited our readers to think and judge for themselves rather than adopt blindly our own or others' conclusions, we believe we may fairly claim for this journal the credit of having qualified its readers to detect and expose even its own errors. To develop 'he minds of the young by the most general, thorough and practical Education, and to encourage and stimulate ?roductive Industry, through free grants of Public Lands to actual settlers and cultivators, as also through the protection of immature or peculiarly exposed branches from too powerful foreign competition, are among the aims to which this journal has adhered through good and evil report, and which itstead-fastly commends to American patriotism and philanthropy.

As to the Civil War now devastating our coun try, we hold it to have originated in a Rebellion more wanton. wicked, inexcusable, then was ev er before known-a Rebellion in the interest of the few against the many-a Rebellion designed to raise higher the walls of caste and tighten the chains of oppression. Having done all we could without a surrender of vital principle to avoid this War and witnessed the forbearance, meek ness, and long-suffering with which the Federal Government sought to avert its horrors, we hold it our clear duty, with that of every other citizen to stand by the nation and its fairly chosen ru lers, and to second with all our energies their ef forts to uphold the Union, the Constitution, and the supremacy of the laws. And, though the Rebellion has become, through usurpation, deception, terroism, and spoilation, fearfully strong, we be lieve the American Republic far stronger, and that the unanimous, earnest efforts of loyal hearts and hands will insure its overthrow. But on all questions affecting the objects, the scope, and duration of this most extraordinary contest, we defer to those whom the American People have clothed with authority, holding unity of purpose and of action indispensable in so grave an emer-

In a crisis like the present, our columns must be largely engrossed with the current history of the War for the Union, and with elucidations of its more striking incidents. We shall not, how-ever, remit that attention to Literature, to Forever, remit that attention to Literature, to For-eign Affairs, to Agricultural Progress, to Crops. Markets, &c.. which has already, we trust, won for THE TRIBUNE an honorable position among its cotemporaries. Our main object is and shall be to produce a comprehensive newspaper, from which a careful reader may glean a vivid and faithful history of the times, not merely in the do-main of Action but in that of Opinion also. As our facilities for acquiring information increase with years, we trust that an improvement in the contents of our journal is perceptible, and that contents of our journal is perceptible, and that, in the variety and fulness of intelligence afforded, we may still hope to 'make each day a critic on the last." In this hope, we solicit a continu ance of the generous measure of patronage hith-erto accorded to our journal.

LINDSEY'S

BLOOD SEARCHER. In renewing of my acquaintance with the many

friends of my medicine, I deem it proper to cau-tion them and the public, generally, against the use of an article prepared and sold by a man calling himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it LINDSEY'S IMPROVED BLOOD SEARCHER,

and states that it is made from my recipe, and, as if to carry out a regular game of "Stop Thief," he tells the public that "there is a counterfeit in the market," to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve months knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquaint-ed with mine who were induced from the above statements to give his a trial The consequence was disappointment to them and injury to me, as they would at once pronounce Lindsey's Blood Scarcher a humbug, without knowing that mine

Pen: sylvania Hoapital. (FROM OFFICIAL HOSPITAL RAPORTS May 19, 1860.-Ellen S. at. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks, and subsequently from a relapse for four more. She has been well since then till last Saturday; while engaged in house cleaning, she took cold had pain in her back. felt cold, but had no decided chill. Two days later her ankles began to swell which was followed by swelling of the knee joints and of the hands. She has dull pain in her shoulders, and her knuck les are very tender, red and painful; both hands are affected, but the right is the most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well marked typical case. We will carefully watch the ease, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now is to call your attention to a remedy which has recently been recommended in the treatment of rheunatism. I mean propylamine. Dr. Awenarius of St. Petersburg, recommends it in the highest terms having derived great benefit from its use in 250 eases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose giving it another trial. I must confess 1 am always incredulous as to the worth of new remedies, which are vaunted as specifics; but this comes to us recommended so

SAME CASE FOUR DAYS LATER ! May 23, 1860 .- I will now exhibit to you the patient for whom I preshribed Propylamine, and who was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains, every two hours, (intermitting it at night). The day after you saw her. I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly of their natural size. Thus far our experiment would have seemed very successful; but gentlemen we must wait a little while before we can give a de-cided opinion as to what is to be the result.

highly, that we are bound to give it a trial.

THREE DAYS LATER !!

May 26, 1860 .- This is the case of acute rhenmaed with propylamine, the first of those to which I called your attention at our lust clinic. She is still very comfortable, and is now taking

She is still very comfortable, and is now taking three gratus thrice daily.

In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring? e fore you a very characteristic case of acute rheumatism, and if the result be satisfactory. I think as good jurymen, we shall justly render our verin favor of propylamine. He is a seaman, æt. 26, who was admitted a few

days ago. Has had occasional rheumatic pains but not so as to keep his bed, until eight days ago The pains began in his right knee, subsequently affected the left knee, and later the joints of the upper extremities.* These joints are all swollentense and tender. His tongue is furred; his skin at present, dry, though there has been much sweat ing. His pulse is full and strong, and about 90 He has now used propylamine tweuty-four hours.

This gentlemen is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of columess, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating,

so generally attendant on acute rheumatism I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines. even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case in a future clinic.

THE RESULT .- A FAVORABLE VERDICT. JUNE 9, 1860 .- The next of our canvalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case. and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The ratient has got along very nicely, and is now able to walk about as you see. see. I do not hesitate to say that I have never seen as severe a case of acute rheumatism so soon restor-ed to health as this man has been, and without being prepared to decide positively as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the chloride of Propylamine, the patients have gained their health much earlier than under the treatment ordinarily pursued. I wish, gentlemen, you would your

selves try it, and report the results.

For a full report of which the above is a cen densed extract, see the Philadelphia Medicaland Surgical Reporter. It is a report after a fair trial by the best medical authority in this country, and makes it unnecessary tolgive numerous certificates from astonished doctors and rejoicing patients.

A SPEEDY CURE, AN EFFECTUAL CURE, THE SAME RESULT IN EVERY CASE, WHENEVER TRIED, WHEREVER TRIED. WHAT IT HAS DONE, IT WILL DO AGAIN.
