JAY COOKE, Subscription Agent. ILLUSTRATED SCIENTIFIC AMERI-CAN.—THE BEST MECHANICAL PAPER IN THE

WORLD.—EIGHTEENTH YEAR.—VOLUME VIII-NEW A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and dis-coveries, all of which are prepared expressly for

its columns. To THE MECHANICS AND MANUFACTURERS .- NO person engaged in any of the mechanical or manafacturing pursuits should think of doing without" the Scientific American. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which are not found in any other publica-

To THE INVESTOR.—The Scientific American is indispensible to every inventor, as it not only con tains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week; thus giving a correct history of the progress of inventions in this country. We are also receiving every week, the best scientific journals of Great Britain, France and Germany; thus placing in our posessinn all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application. Messrs. Monn & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for ad

vising inventors as to their patentability. CHEMISTS, ARCHITECTS. WILLWRIGHTS, AND FARmens -The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in
