THE NEW-YORK TRIBUNE-1863 -THE NEW-YORK TRIPC'E, first issued in 1841. now in its twenty-second year, has obtained both a larger and a more widely diffused circulation than any other newspaper ever published in A-merica. Though it has suffered, in common with other journals, from the volunteering and depar-ture of tens of thousands of its patrons to serve in the War for the Union, its circulation on this 6th

of December, 1862, is as follows: Daily, 50,125; Semi-Weekly, 17,250; Waekly, 148,000; Aggregate, 215,375. Preeminently a journal of News and of Literature, The Tribune has political convictions, which are well characterized by the single word KEPUBLICAN. It is Republican in its hearty adhesion to the great truth that . God has made of one blood all nations of men"-Republican in its assertion of the equal and inalienable rights of all men to "life, liber-ty, and the pursuit of happiness"-Republican in its steadfast, earnest, defiant hostility to every scheme and effort of the Slave Power, from the Annexation of Texas to the great Rebellion to Annexation of Texas to the great Rebellion to grasp the empire of the New World and wield the resources of our country for its own aggran-dizement-Republican in its antagonism to the aristocrats and despots of the Old World, who fondly hail in the perils and calamities suddenly thrust upon us by their American counterpart the overthrow and ruin of the Model Republic-Republican in its hope and trust, its faith and ef-fort that this attocions. Reheallion must result in fort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed be "one and inseparable" henceforth and forever.

THE TRIBUNE devotes attention in calmer times. and to some extent in these, to Education. Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well being of mankind ; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our distracted, bleeding country. We believe that not otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular peru-sal of our columns. And we earnestly solicit the cooperation of all friends of the National cause, which we regard and uphold as that of Universal Humanity, to aid us in extending its c reulation.

and violent crises, sudden as the breaking forth of a volcano, or the bursting of a storm on the ocean. These crises weep away in a moment the landmarks of generations. They call out tresh talent, and give to the old new direction. It is then that new ideas are born. new theories developed. Such periods demand fresh exponents, and new men for expounders.

This Continent has lately been convulsed by an upheaving so sudden and terrible that the re-lations of all men and all classes to each other are violently disturbed, and people look about for the elements with which to sway the storm and di-rect the whirlwind. Just at present, we do not know what all this is to bring forth ; but we do know that great results must flow from such extraordinary commotions.

At a juncture so solemn and so important, there is a special need that the intellectual force of the country should be active and efficient. It is a time for great minds to speak their thoughts bold ly, and to take position as the advance guard. To this end, there is a special want unsupplied. It is that of an Independent Magazine. which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented to the country, in a tone no way tempered by par-tizanship, or influenced by fear, favor or the hope of reward , which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface and which can not be laid aside or neglected.

To meet this want, the undersigned have com-menced, under the editorial charge of Charles G. Leland, the publication of a new Magazine, devoted to Literature and National Policy. In Politics, it will advocate, with all the force

atfits command, measures best adapted to preserve the openess and integrity of these United States. It will never yield to the idea of any disruption of this Republic, peaceably or otherwise; and it will discuss with honesty and impartiality what must be done to save it. In this department, some of the most eminent statesmen of the time will con-tribute resplay to its passes. Goods Goods Goods

Avoiding every influence or as-Goods sociation partaking of elique or coterie, it will be Goods open to all contributions of real merit, even from writers differing materially in their views; the only limitations required being that of devotion to the Union, and the only standard of acceptance Goods Goods Goods Goods that of intrinsic excellence.

The Editorial Department will embrace, in ad-Goads dition to vigorous and fearless comments on the Goads events of the times, genial gossip with the reader Goads on all current topics, and also devote abundant Goods space to those racy specimens of American wit and humor, without which there can be no perfect ex-Goods Goods position of our national character Among those who will contribute regularly to this department may be mentioned the name of Charles F. BLOOD SEARCHER. In renewing of my acquaintance with the many friends of my medicine, 1 deem it proper to caution them and the public, generally, against the use of an article prepared and sold by a man call-ing himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it

LINDSEY'S IMPROVED BLOOD SEARCHER. and states that it is made from my recipe, and, as if to carry out a regular game of "Stop Thief," he tells the public that "there is a counterfeit in the market," to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve months, knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial The consequence was disappointment to them and injury to me. as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mine was the

LLUSTRATED SCIENTIFIC AMERI-CAN.—THE BEST MECHANICAL PAPER IN THE

WORLD .- EIGHTEENTH YEAR .- VOLUME VIII -- NEW

A new volume of this widely-circulated paper

commences on the first of January. It is pub-lished weekly, and every number contains sixteen pages of useful information, and from five to ten

original engravings of new inventions and dis-

coveries, all of which are prepared expressly for

its columns. To the Mechanics and Manufacturers.-No

person engaged in any of the mechanical or man-ufacturing pursuits should think of 'doing with-out' the SCIENTIFIC AMERICAN. It costs but four

cents per week : every number contains from six

to ten engravings of new machines and inven-tions, which are not found in any other publica-

To THE INVENTOR.-The Scientific American is

indispensible to every inventor, as it not only con-

tains illustrated descriptions of nearly all the best

inventions as they come out, but each number con-tains an Official List of the Claims of all the Pat-

ents issued from the United States Patent Office

during the previous week ; thus giving a correct

history of the progress of inventions in this coun-try. We are also receiving every week, the best

scientific journals of Great Britain, France and

Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to trans-

fer to our columns copious extracts from these

journals of whatever we may deem of interest to

our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new in-ventions, is furnished free on application. Messrs. Muxx & Co have acted as Patent Solicitors for

more than Seventeen years, in connection with the publication of the Scientific American, and

they refer to 20,000 patentees for whom they have done business. No charge is made for examining

sketches and models of new inventions and for ad

CHEMISTS, ABCHITECTS, WILLWRIGHTS, AND FAR-

wers -The Scientific American will be found a

most useful journal to them. All the new discov-

eries in the science of chemistry are given in its columns, and the interests of the architect and

carpenter are not everlooked ; all the new inven-

tions and discoveries appertaining to these pur-suits being published from week to week. Useful

suits being published from week to week. Useful and practical information pertaining to the inter-ests of millwrights and mill owners will be found published in the Scientific American, which in-formation they can not possibly obtain from any other source. Subjects in which planters and far-mers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in its columns.

TERMS :-- To mail suffectibers : \$3 a year, or One Dollar for four months. The volumes com-

mence on the first of January and July. Speci-
