BUGGIES FOR SALE.—One Jenny Lind top Buggy and one open buggy, both new for sale at the store of September 17, 1862. Curwensville.

THE NEW-YORK TRIBUNE—1863.—
THE NEW-YORK TRIBUNE—1863.—
now in its twenty-second year, has obtained both a larger and a more widely diffused circulation than any other newspaper ever published in A-merica. Though it has suffered, in common with other journals, from the volunteering and depar-ture of tens of thousands of its patrons to serve in the War for the Union, its circulation on this 6th

of December, 1862, is as follows:
Daily, 50.125; Semi-Weekly, 17,250; Weekly.
148,000; Aggregate, 215,375. Preeminently a journal of News and of Literature, The Tribune has political convictions, which are well characterized by the single word REPUBLICAN. It is Republican in its hearty adhesion to the great truth that "God has made of one blood all nations of men"—Republican in its assertion of the equal and inalienable rights of all men to "life, liberty, and the pursuit of happiness"-Republican in its stendfast, carnest, defiant hostility to every scheme and effort of the Slave Power, from the Annexation of Texas to the great Rebellion to grasp the empire of the New World and wield the resources of our country for its own aggrandizement-Republican in its antagonism to the dizement—Republican in its antagonism to the aristocrats and despots of the Old World, who fondly hail in the perils and calamities suddenly thrust upon us by their American counterpart the overthrow and ruin of the Model Republic—Republican in its hope and trust, its faith and effort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed be one and inseparable henceforth and forever.

The Tarana devotes attention in calmer times.

THE TRIBUNE devotes attention in calmer times. and to some extent in these, to Education, Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well being of mankind; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our distracted, bleeding country. We believe that not otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular peru-\*sal of our columns. And we earnestly solicit the cooperation of all friends of the National cause, which we regard and uphold as that of Universal Humanity, to aid us in extending its e-reulation.

PROSPECTUS OF THE CONTINENOld Gold and Silver will be taken in exchange for goods at NAUGLE'S.
All goods warranted as represented, or the me n the world's history marked by extraordinary and violent crises, sudden as the breaking forth of a volcano, or the bursting of a storm on the

ocean. These crises sweep away in a moment the landmarks of generations. They call out fresh talent, and give to the old new direction. It is then that new ideas are born, new theories developed. Such periods demand fresh exponents, and new men for expounders.

This Continent has lately been convulsed by an upheaving so sudden and terrible that the relations of all men and all classes to each other are violently disturbed, and people look about for the elements with which to sway the storm and direct the whirlwind. Just at present, we do not know what all this is to bring forth; but we do know that great results must flow from such extraordinary commotions.

At a juncture so solemn and so important, there is a special need that the intellectual force of the country should be active and efficient. time for great minds to speak their thoughts bold ly, and to take position as the advance guard. To this end, there is a special want unsupplied. that of an Independent Magazine, which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented to the country, in a tone no way tempered by par tizanship, or influenced by fear, favor or the hop of reward, which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface, and which

can not be laid aside or neglected. To meet this want, the undersigned have commenced, under the editorial charge of Charles G. Leland, the publication of a new Magazine, devot-

ed to Literature and National Policy.
In Politics, it will advocate, with all the force atlits command, measures best adapted to preserve the oneness and integrity of these United States. It will never yield to the idea of any disruption of this Republic, peaceably or otherwise; and it will discuss with honesty and impurtiality what must be done to save it. In this department, some

of the most eminent statesmen of the time will contribute regularly to its pages.

In Literature, it will be sustained by the best writers and ablest thinkers of this country.

Among its attractions will be presented, in an early number, a 'New Serial of American Life," by Richard Kimball, Esq., the very popular author of "The Revelations of Wall Street," "St. Legert" &c. A series of papers by Hon, Horace Greely, embodying the distinguished author's observations on the growth and development of the Grea, West. A series of articles by the author of "Through the Cotton States," containing the result of an extended tour in the seashore Slave States, just prior to the breaking out of the war. and presenting a startling and truthful picture of the real condition of that region. No pains will be spared to render the literary attractions of the Continental both brilliant and substantial The lyrical or descriptive talents of the most eminent Goods literati have been promised to its pages; and Goods nothing will be admitted which will not be distinguished by marked energy originality, and solid strength. Avoiding every influence or association partaking of clique or coterie, it will be open to all contributions of real merit, even from writers differing materially in their views; the

only limitations required being that of devotion to the Union, and the only standard of acceptance that of intrinsic excellence. The Editorial Department will embrace, in addition to vigorous and fearless comments on the events of the times, genial gossip with the reader Goods on all current topics, and also devote abundant Goods space to those racy specimens of American wit and Goods humer, without which there can be no perfect exposition of our national character Among those who will contribute regularly to this department may be mentioned the name of Charles F. Browne (Artemus Ward), from whom we shall present in the March number, the first of an entirely new and

original series of "Sketches of Western Life" The CONTINENTEL will be liberal and progres sive, without yielding to chimeras and he sive, without yielding to chimeras and hopes be-yend the grasp of the age; and it will endeavor Goods to reflect the feelings and interests of the Ameri-Goods can people, and to illustrate both their serious and humorous peculiarities. In short no pains will

be spared to make it the Representative Magazine of the time. ## LINDSEY'S

BLOOD SEARCHER. In renewing of my acquaintance with the many friends of my medicine, I deem it proper to caution them and the public, generally, against the use of an article prepared and sold by a man call-ing himself "Goo. H. Keyser, Pittsbury, Pa.," who

has the impudence to call it LINDSEY'S IMPROVED BLOOD SEARCHER. and states that it is made from my recipe, and, as if to carry out a regular game of "Stop Thief," he tells the public that "there is a counterfeit in the market." to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Log Cured," &c. I allowed him to proceed in this way for nearly twelve months, knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial. The consequence was disappointment to them and injury to me, as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mone

JOHN GUELICH ILLUSTRATED SCIENTIFIC AMERI-A CAN.—THE BEST MECHANICAL PAPER IN THE WORLD.—EIGHTEENTH YEAR.—VOLUME VIII.—NEW

A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for

its columns.

To the Mechanics and Manufacturers.—No person engaged in any of the mechanical or man-ufacturing pursuits should think of "doing with-out" the Scientific American. It costs but four cents per week; every number contains from six to ten engravings of new machines and inven-tions, which are not found in any other publica-

To THE INVENTOR .- The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our posessinn all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new in-ventions, is furnished free on application. Messrs. Mrss & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability .

CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FAR-MERS -The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenterare not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which in-formation they can not possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in

TERMS :- To mail subscribers : \$3 a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the

Western and Canadian money or Post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each years' subscription to prepay post-age. MUNN & CO., Publishers, 37 Park Row, N. Y.
