PROSPECTUS OF THE CONTINEN-TAL MONTHLY.—There are periods for goods at n the world's history marked by extraordinary All goods w ent crises, sudden as the breaking forth of a volcano, or the bursting of a storm on the ocean. These crises weep away in a moment the landmarks of generations. They call out fresh talent, and give to the old new direction. It is then that new ideas are born, new theories developed. Such periods demand fresh exponents, and

new men for expounders.

This Continent has lately been convulsed by an upheaving so sudden and terrible that the relations of all men and all classes to each other are violently disturbed, and people look about for the elements with which to sway the storm and direct the whirlwind. Just at present, we do not know what all this is to bring forth; but we do know that great results must flow from such ex-

is a special need that the intellectual force of the country should be active and efficient. It is a time for great minds to speak their thoughts bold ly, and to take position as the advance guard. To this end, there is a special want unsupplied. It is that 6f an Independent Magazine, which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented to the country, in a tone no way tempered by partizanship, or influenced by fear, favor or the hope of reward, which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface, and which

can not be laid aside or neglected.

To meet this want, the undersigned have com menced, under the editorial charge of Charles G. In Politics, it will advocate, with all the force

LINDSEY'S

BLOOD SEARCHER. In renewing of my acquaintance with the many friends of my medicine, I deem it proper to caution them and the public, generally, against the use of an article prepared and sold by a man calling himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it

LINDSEY'S IMPROVED BLOOD SEARCHER, and states that it is made from my recipe, and, as if to carry out a regular game of 'Stop Thief," he tells the public that "there is a counterfeit in the market," to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve months knowing that those who had either used or sold my article would have nothing to do with his. but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial The consequence was disappointment to them and injury to me, as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mine was the

Remember the shop is on Market street, Clear-field, and nearly opposite the "Old Jew Store." December 4, 1851 JOHN GUELICH. LLUSTRATED SCIENTIFIC AMERI-CAN. THE BEST MECHANICAL PAPER IN THE

WORLD.—EIGHTEENTH YEAR.—VOLUME VIII—NEW A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for

its columns. TO THE MECHANICS AND MANUFACTURERS,-No person engaged in any of the mechanical or man-ufacturing pursuits should think of 'doing with-out' the Scientific American. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which are not found in any other publica

TO THE INVENTOR .- The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number con-tains an Official List of the Claims of all the Pat-ents issued from the United States Patent Office during the previous week; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain. France and Germany; thus placing in our posessinn all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application. Messrs. Munn & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FARmens -The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pur-suits being published from week to week. Useful and practical information pertaining to the inter-ests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and far-mers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in
