now in its twenty-second year, has obtained both a larger and a more widely diffused circulation than any other newspaper ever published in America. Though it has suffered, in common with other journals, from the volunteering and depar-ture of tens of thousands of its patrons to serve in the War for the Union, its circulation on this 6th

Daily, 50,125; Semi-Weekly, 17,250; Weekly, 148,000; Aggregate, 215,375. Preeminently a journal of News and of Literature, The Tribune has political convictions, which are well characterized by the single word REPUBLICAN. It is Republican in its hearty adhesion to the great truth that "God has made of one blood all nations of men"—Republican in its assertion of the equal and inalienable rights of all men to "life, liber-ty, and the pursuit of happiness"—Republican in its steadfast, carnest, defiant hostility to every scheme and effort of the Slave Power, from the Annexation of Texas to the great Rebellion to grasp the empire of the New World and wield the resources of our country for its own aggrandizement-Republican in its antagonism to the aristocrats and despots of the Old World. fondly hail in the perils and calamities suddenly thrust upon us by their American counterpart the overthrow and ruin of the Model Republic— Republican in its hope and trust, its faith and effort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed be "one and inseparable" henceforth and forever.

THE TRIBUNE devotes attention in calmer times, and to some extent in these, to Education. Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well being of mankind; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our distracted, bleeding country. We believe that not otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular peru-sal of our columns. And we carnestly solicit the cooperation of all friends of the National cause, which we regard and uphold as that of Universal Humanity, to aid us in extending its e reulation.

PROSPECTUS OF THE CONTINEN-TAL MONTHLY.—There are periods an the world's history marked by extraordinary and violent crises, sudden as the breaking forth of a volcano, or the bursting of a storm on the ocean. These crises weep away in a moment the landmarks of generations. They call out fresh talent, and give to the old new direction. It is then that new ideas are born, new theories developed. Such periods demand fresh exponents, and

new men for expounders.

This Continent has lately been convulsed by an up heaving so sudden and terrible that the relations of all men and all classes to each other are violently disturbed, and people look about for the elements with which to sway the storm and direct the whirlwind. Just at present, we do not know what all this is to bring forth; but we do know that great results must flow from such ex-

traordinary commetions. At a juncture so solemn and so important, there is a special need that the intellectual force of the country should be active and efficient. It is a time for great minds to speak their thoughts bold ly. and to take position as the advance guard. To this end, there is a special want unsupplied. It is that of an Independent Magazine, which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented to the country, in a tone no way tempered by par-tizanship, or influenced by fear, favor or the hope of reward, which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface, and which

can not be laid aside or neglected. To meet this want, the undersigned have commenced, under the editorial charge of Charles (). Leland, the publication of a new Magazine, devet-

ed to Literature and National Policy.
In Politics, it will advocate, with all the force athits command, measures best adapted to preserve the oneness and integrity of these United States. It will never yield to the idea of any disruption of this Republic, peaceably or otherwise; and it will discuss with honesty and impartiality what must be done to save it. In this department, some of the most eminent statesmen of the time will contribute regularly to its pages.

In Literature, it will be sustained by the best

writers and ablest thinkers of this country.

Among its attractions will be presented, in an early number, a 'New Serial of American Life," by Richard Kimball, Esq., the very popular author of "The Revelations of Wall Street," "St. Legert" &c. A series of papers by Hon. Horace Greely, embodying the distinguished author's observations on the growth and development of the Grea. West. A series of articles by the author of "Through the Cotton States," containing the re-sult of an extended tour in the seashore Slave States, just prior to the breaking out of the war. and presenting a startling and truthful picture o the real condition of that region. No pains will be spared to render the literary attractions of the CONTINENTAL both brilliant and substantial The lyrical or descriptive talents of the most eminent Goods literati have been promised to its pages; and Goods nothing will be admitted which will not be distinguished by marked energy originality, and solid strength. Avoiding every influence or as-sociation partaking of clique or coterie, it will be open to all contributions of real merit, even from writers differing materially in their views; the only limitations required being that of devotion to the Union, and the only standard of acceptance

that of intrinsic excellence. The Editorial Department will embrace, in addition to vigorous and fearless comments on the events of the times, genial gossip with the reader on all current topics, and also devote abundant space to those racy specimens of American wit and humor, without which there can be no perfect exposition of our national character Among those who will contribute regularly to this department may be mentioned the name of Charles F. Browne (Artemus Ward), from whom we shall present in the March number, the first of an entirely new and

original series of "Sketches of Western Life The Continental will be liberal and progresyend the grasp of the age; and it will endeavor to reflect the feelings and interests of the Ameri-can people, and to illustrate both their serious and humorous peculiarities. In short, no pains will be spared to make it the Representative Magazine

BLOOD SEARCHER. In renewing of my acquaintance with the many friends of my medicine, I deem it proper to caution them and the public generally, against the use of an article prepared and sold by a man call-ing himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it

LINDSEY'S IMPROVED BLOOD SEARCHER, and states that it is made from my recipe, and, as if to carry out a regular game of 'Stop Thief,'
he tells the public that "there is a counterfeit in
the market," to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve menths knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial The consequence was disappointment to them and injury to me, as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mene

I LUSTRATED SCIENTIFIC AMERI-CAN.—THE BEST MECHANICAL PAPER IN THE WORLD, -EIGHTEENTH YEAR .- VOLUME VIII-NEW

A new volume of this widely circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and dis-

coveries, all of which are prepared expressly for its columns. TO THE MECHANICS AND MANUFACTURERS -- NO person engaged in any of the mechanical or man-ufacturing pursuits should think of doing with out" the Scientific AMERICAN. It costs but four cents per week ; every number contains from six to ten engravings of new machines and inven-tions, which are not found in any other publica

To THE INVENTOR -The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number con-tains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week; thus giving a correct history of the progress of inventions in this coun-try. We are also receiving every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these fer to our common coprons extracts from these journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application. Messrs. Munn & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for ad-

vising inventors as to their patentability. CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FAR-MERS -The Scientific American will be found a most useful journal to them. All the new discovcries in the science of chemistry are given in its columns, and the interests of the architect and carpenterare not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in
