BLOOD SEARCHER.

In renewing of my acquaintance with the many friends of my medicine. I deem it proper to caution them and the public, generally, against the use of an article prepared and sold by a man calling himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it

LINDSEY'S IMPROVED BLOOD SEARCHER, and states that it is made from my recipe, and, as if to carry out a regular game of 'Stop Thief,' he tells the public that "there is a counterfeit in the market," to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"—"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve months, knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial. The consequence was disappointment to them and injury to me. as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mine ONLY GENUINE BLOOD SEARCHER.

ILLUSTRATED SCIENTIFIC AMERI-CAN.—THE DEST MECHANICAL PAPER IN THE WORLD.—EIGHTEENTH YEAR.—VOLUME VIII—NEW

SERIES. A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and dis-coveries, all of which are prepared expressly for

its columns.

To the Mechanics and Manchacturers,-No erson engaged in any of the mechanical or manufacturing pursuits should think of 'doing without' the Scientific American. It costs but four cents per week; every number contains from six to ten engravings of new machines and inven-tions, which are not found in any other publica-

To the Inventor —The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number con-tains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week; thus giving a correct history of the progress of inventions in this coun-We are also receiving, every week, the best ientific journals of Great Britain, France and Germany; thus placing in our posession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers. A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application. Messrs. Munn & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FAR-MERS -The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the inter-ests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural impliments being illustrated in

FRIENDS AND RELATIVES OF THE HOLLOWAY'S PILLS AND OINTMENT.
All who have Friends and Relatives in the Ar

my and Navy should take especial care that they be amply supplied with these Pills and Ointment and where the brave Soldiers and Sailors have neglected to provide themselves with them, no bet ter present can be sent them by their Friends. They have been proved to be the Soldier's neverfailing friend in the hour of need Coughs and Colds Affecting Troops,

Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are at tached to each Pot or Box. Sick Headache and Want of Appetite, Incidental to Boldiers.
These feelings which so sadden us usually arise

from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholes some, thus disturbing the healthful action of the Liver and Stomach. These organs must be relieved, if you desire to be well. The Palls taken according to the printes, instructions, will quickly produce a healthy action in both Liver and Stonich, and as a natural consequence, a clear head and good appetite.

Weakness or Debility Induced by Over Fatigue Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength Nover let the Bowels be either confined or unduly acted upon. It may seem strange, that Holloway's Pills should be recom-mended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the Liver and Stomach, and thus remove all the aerid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength fol-low as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this medicine.

Volunteers, Attention !- Indiscretions of Youth. Sores and Ulcers, Blotches and Swellings, can with certainty be radically cured, if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner, they dry up in one part to break out in another. Whereas this Cintment will remove the humors from the system, and leave the Patient a healthy and vigorous man. It will require a little perseverance in bad cases to insure a lasting cure.

For Wounds either occasioned by the Bayonet, Sabre, or the Bullet, Sores or Bruises, To which every Soldier or Sailor are liable, there are no medicines so safe, sure, and convenient, as Holloway's Pills and Ointment. The poor wounds ed and almost dying sufferer might have his wounddressed immediately, if he would only provide himself with this matchlessOintment, which should be thrust into the wound and smeared all around it then covered with a piece of linen from his knapsack and compressed with a handkerchief. Taking, night and morning, 6 or 8 Phis, to cool the system and prevent inflammation.

THE NEW-YORK TRIBUNE-1863. THE NEW-YORK TRIBUNE, first issued in 1841

now in its twenty-second year. has obtained both a larger and a more widely diffused circulation then any other newspaper ever published in A-merica. Though it has suffered, in common with other journals, from the volunteering and departure of tens of thousands of its patrons to serve in the War for the Union, its circulation on this 6th of December, 1852, is as follows:

Daily, 50,125; Semi-Weekly, 17,250; Weekly, 148,000; Aggregate, 215,375. Preeminently a journal of News and of Literature. The Tribune has political convictions which are well characterized by the single word Republican. This Republican in its hearty adhesion to the great truth that "God has made of one blood all nations of men" - Republican in its assertion of the equal and instituable rights of all men to "life, liber-ty, and the pursuit of happiness"—Republican in its steadfast, earnest, defant hostility to every scheme and effort of the Slave Power, from the Annexation of Texas to the great Rebellion to grasp the empire of the New World and wield the resources of our country for its own aggran-dizement-Republican in its antagonism to the aristocrats and despots of the Old World, who fondiy hail in the perils and calamities suddenly thrust upon us by their American counterpart the overthrow and ruin of the Model Republic Republican in its hope and trust, its faith and effort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed be "one

and inseparable" henceforth and forever. THE TRIBUNE devotes attention in calmer times, and to some extent in these, to Education. Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well being of mackind; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our dis-tracted, bleeding country. We believe that not otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular perusal of our columns. And we carnestly solicit the cooperation of all friends of the National cause, which we regard and uphold as that of Universal

Humanity, to aid us in extending its e reulation. PROSPECTUS OF THE CONTINEN-TAL MONTHLY .- There are periods n the world's history marked by extraordinary and violent crises, sudden as the breaking forth of a volcane, or the bursting of a storm on the ocean. These crises weep away in a moment the landmarks of generations. They call out fresh talent, and give to the old new direction. It is then that new ideas are born, new theories devel-

oped. Such periods demand fresh exponents, and new men for expounders. This Continent has lately been convulsed by anapheaving so sudden and terrible that the reviolently disturbed, and people look about for the elements with which to sway the storm and direct the whirlwind. Just at present, we do not know what all this is to bring forth; but we do know that great results must flow from such extraordinary commotions.

At a juncture so solemn and so important, there is a special need that the intellectual force of the country should be active and efficient. It is a time for great minds to speak their thoughts bold ly, and to take position as the advance guard. To this end, there is a special want unsupplied. It is that of an Independent Magazine, which shall be open to the first intellects of the land, and which shall treat the issue presented, and to be presented to the country, in atone no way tempered by par-tizanship, or influenced by fear, favor or the hope of reward, which shall seize and grapple with the momentous subjects that the present disturbed state of affairs heave to the surface, and which

To meet this want, the undersigned have com menced, under the editorial charge of Charles G. Lefand, the publication of a new Magazine, devot-

ed to hiterature and National Policy.
In Politics, it will advocate, with all the force at its command, measures best adapted to preserve the oneness and integrity of these United States It will never yield to the idea of any disruption of this Republic, peaceably or otherwise; and it will discuss with honesty and impartiality what must be done to save it. In this department, some of the most eminent statesmen of the time will con-

tribute regularly to its pages.
In Literature, it will be sustained by the best writers and ablest thinkers of this country.

Among its attractions will be presented, in an early number, a 'New Serial of American Life.'

by Richard Kimball, Esq., the very popular author of "The Revelations of Wall Street," "St. Legert" &c. A series of papers by Hon. Horace Greely, embodying the distinguished author's observations on the growth and development of the Grea. West. A series of articles by the author of "Through the Cotton States," containing the result of an extended tour in the, seashore Slave States, just prior to the breaking out of the war. and presenting a startling and truthful picture of the real condition of that region. No pains will be spared to render the literary attractions of the CONTINENTAL both brilliant and substantial The lyrical or descriptive talents of the most eminent literati have been promised to its pages; and nothing will be admitted which will not be distinguished by marked energy originality, and solid strength. Avoiding every influence or as-sociation partaking of clique or coterie, it will be open to all contributions of real merit, even from writers differing materially in their views; the only limitations required being that of devotion to the Union, and the only standard of acceptance

that of intrinsic excellence.

The Editorial Department will embrace, in addition to vigorous and fearless comments on the events of the times, genial gossip with the reader on all current topics, and also devote abundant space to those racy specimens of American wit and humor, without which there can be no perfect exposition of our national character. Among those who will contribute regularly to this department CAUTION.—None are genuine unless the may be mentioned the name of Charles F. Browne words "Holloway, New York and London," are (Artemus Ward), from whom we shall present in the March number, the first of an entirely new and

The CONTINENTEL will be liberal and progres sive, without yielding to chimeras and hopes be-youd the grasp of the age; and it will endeavor to reflect the feelings and interests of the American people, and to illustrate both their serious and humorous peculiarities. In short, no pains will be spared to make it the Representative Magazine
