BULKLEY'S PATENT-LUMBER DRIED BY SUPERHEATED STEAM - The undersigned respectfully informs the people of Clear-field and adjoining counties that he has the agency of the above patent-and will sell individual, county or township rights for its use. The lum-ber dried by this process is stronger, finishes bet-ter, is easier on tools, and requires less time in drying than any other process known, drying 1 inch lumber perfectly in 36 hours better than many months under the old system using the same amount of fuel per day that a common kilm consumes. The certificate of a number of resi-dent mechanics well known in this community is amply sufficient to convince the most sceptical of its utility. Persons desirous of purchasing rights will address JOHN L. CUTTLE. June 24, 1863 Cearfield. Penn'a.

VALUABLE TIMBER LANDS FOR SALE .- The attention of persons desirous of purchasing valuable Timber Lands is invited to the following tracts of land situate in Keating township, Clinton county. BLOOD SEARCHER. In renewing of my acquaintance with the many friends of my medicine, 1 deem it proper to cau-tion them and the public, generally, against the use of an article prepared and sold by a man calling himself "Geo. H. Keyser, Pittsbury, Pa.," who has the impudence to call it

LINDSEY'S IMPROVED BLOOD SEARCHER. and states that it is made from my recipe, and, as if to carry out a regular game of 'Stop Thief." he tells the public that "there is a counterfeit in the market." to see that his name is over the cork of every bottle" &c. He also publishes the most extravagant certificate headed "A Blind Man Cured"-"A Bad Sore Leg Cured," &c. I allowed him to proceed in this way for nearly twelve months, knowing that those who had either used or sold my article would have nothing to do with his, but I found there was a number unacquainted with mine who were induced from the above statements to give his a trial The consequence was disappointment to them and injury to me. as they would at once pronounce Lindsey's Blood Searcher a humbug, without knowing that mane was the

To THE INVENTOR -The Scientific American is indispensible to every inventor, as it not only con-tains illustrated descriptions of nearly all the best inventions as they come out, but each number con-tains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week ; thus giving a correct history of the progress of inventions in this coun-We are also receiving every week, the best try. scientific journals of Great Britain, France and Germany thus placing in our posessinn all that is transpiring in mechanical science and art in these old countries. MUNN & Co have acted as Patent Solicitors for more than Seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business. No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, WILLWRIGHTS, AND FAR-MERS -The Scientific American will be found a most useful journal to them. All the new discoverics in the science of chemistry are given in its columns and the interests of the architect and carpenter are not overlooked ; all the new inventions and discoveries appertaining to these pur-suits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source.
