AN ACKNOWLEDGMENT. - We tender our thanks to Hon. W. A. Wallace, State Senator, for a number of public documents, sent of the Tyrone and Clearfield railroad. us several days since.

THE WEATHER .- The air has been quite cool for some days past, and several heavy rains have prevailed-in consequence of which harvesting has been much retarded.

The "Oil Well." -On yesterday, (Tuesday,) we were shown some salt water, taken from the "oil well" now being bored on this place, which is exceedingly pure and strong; but, as oil is the object in sinking the well, no attention is given to the salt water. It might be well enough, however, hereafter, should the oil project fail, the matter might be fully tested whether salt exists in sufficient quantity to justify the erection of works for its manufacture, or not. We have been unable to ascertain, (owing to the very communicative disposition of the gentlemanly (?) operatives), the precise depth at which salt water was obtained; but, we believe, it is somewhere in the neighborhood of seven hundred feet. But, even should they fail in getting the "greasy fluid" here, they intend to continue their operations in more favorable localities, as they do not deem the sinking of this single well a test as to whether oil exists in paying quantities in Clearfield county.

Intelligent Suffrage.

Rev. Dr. Chapin, in his oration in Albany, on the 4th of July, gave utterance to an idea which, just at present is travelling fast and far. It is, that suffrage, by all, white and black, North and South, East and West, ought to be based on intelligence. As to

Accident to the President's Car.

A telegram of July 5th says: A serious accident occurred to the President's car yesterday evening about eight o'clock, at the Baltimore depot of the Northern Central Road. The train consisted of an engine and the President's car, and had just arrived from Gettysburg, when owing to a mistrain, standing on a side track. Although the speed of the train was much slackened. several of the party in the Preisdent's car were injured. Senor Bewnaga, Chilian Minister, and J. C. Halpine, who read the poem at the Gettysburg celebration, were severely cut about the head. Col. Simpson, of the 8th Army Corps, R. I. Chew of the State Department, F. R. Milton, of the Executive Mansion, and L. L. Crounse, of the New York Times, were slightly injured. The to keep a record of the depth at which this car was somewhat injured, but not enough salt vein was struck, so that at any time to prevent it from proceeding to Washington. The accident was the result of carelessness on the part of switchman.

John C. Breckenridge, previous to his cowardly escape from the responsibility of his crimes, wrote a letter to his friend E. M. Bruce, in which he expresses the hope that "there will be wisdom enough in the couneils at Washington city not to drive a brave and suffering people to the remedies which spring from despair!" A pretty fellow, truly, to talk about a brave and suffering 'people! He did all that one perjured villain could do to bring that suffering on them by urging them into a traitorous and fractricidal war-he did all that was in his power to bring the dark wing of the angel of death to RICHARDSON'S NEW BOOK .- We have overshadow almost every hearth stone in Escape." by Albert D. U. S. 7-30 LOAN. THIRD SERIES.

\$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15th, 1865, and are payable three years from that date in currency, or are convertible at the option of

U. S. 5-20 Six per cent.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State. County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semfannually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per ct. amounts to One cent per day on a \$50 note. Two cents per day on a \$100 note. Ten cents per day on a \$500 note. 20 cents per day on a \$1000 note. \$5000 note.

\$1 per day on a Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this third series are precisely sim-

ilar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th at the time they subscribe. The delivery of the notes of this third series of

the Seven thirties will commence on the 1st of June, and will be made promptly and continously after that date. The slight change made in the conditions of this Third Series affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent in currency. This is

The Only Loan in Market Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People. Less than \$200,000.000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed will all be subscribed for within two months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other loans.

In order that the citizens of every town and section of country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which
