PIANOS TUNED. - Prof. Lighton will remain in Clearfield a short time yet. Persons desirous of having their pianos tuned will please call upon him at once, or address him through the post office.

-THE OIL WELL .- The operation of boring still progresses, and it is in contemplation to sink the well to a depth of one thousand feet before abandoning the oil project. Should the company fail to strike oil at that depth, then it is the intention of creeting works for the manufacture of salt-the salt 12 60 water obtained last week being of very superior quality-which, no doubt, will prove a very profitable investment. The oil company intend to sink another well either on Roaring Run or Montgomery creek, in a short time. That oil exists in this county there is little doubt, and we hope that the proper efforts will be made to induce its de velopment. All that is wanted is energy and enterprise to obtain the necessary ma chinery, and soon the oil itself will flow from the earth i great abundance.

Among the figures of the colored Steel Fashion Plate, we note a Bridal Dress, very chaste and pretty. Cheap IF YOU WANT Approved country produce of every kind taken at the usual market prices in exchange for goods

PROVISIONS.—Flour, bacon, lard, cheese, dried beef, dried fruis, received regularly, at the stere of [Mar 22,] J. P. ERATZER.

U. S. 7-30 LOAN. THIRD SERIES.

\$230,000,000. By authority of the Secretary of the Treasury. the undersigned, the General Subscription Agent for the sale of United States securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15th, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premtum, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semiannually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per ct. amounts to One cent per day on a \$50 note. Two cents per day on a \$100 note. Ten cents per day on a \$500 note. 20 cents per day on a \$1000 note. \$1 per day on a \$5000 note.

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions The Notes of this third series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency

up to July 15th at the time they subscribe. The delivery of the notes of this third series of the Seven thirties will commence on the 1st of June, and will be made promptly and continously after that date. The slight change made in the conditions of this Third Series affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the

higher rate. The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent in currency. This is

The Only Loan in Market Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People. Less than \$200,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed will all be subscribed for within two months, when the notes will undoubtedly command a premium. as has uniformly been the case on closing the

subscriptions to other loans. In order that the citizens of every town and section of country may be afforded facilities for taking the loan. the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKB. Subscription Agent, Philadelphia May 15th, 1865. Subscriptions will be received at the

First National Bank of Clearfield. First National Bank of Curwensville. County National Bank of Clearfield.

The lumber dried by this process is stronger, finishes better, is easier on tools, and requires less time in drying than any other process known, drying I inch lumber perfectly in 36 hours better than many months under the old system using the same amount of fuel per day that a common kiln consumes.
