Railroad Meeting.

At a meeting of the citizens of Morris township, held at the school house in Kylertown, on the evening of December 30th, 1865, on motion of Joseph H. Jones, Esq., E. HOCKENBERBY, President; G. R. Dillen, Denison Johnson, Michael Dinges, N. J. Fulmer, Wm. Zimmerman, Geo. Hoover, and John B. Kyler, Vice Presidents; F. H. Jones and F. R. Shope, Secretaries.

On motion, the President appointed James P. Nelson, Dr. Jefferson Litz, and Jonas Muns, a committee to draft resolutions expressive of the sense of the meeting. On motion, Joseph H. Jones, Esq., addressed the meeting in an appropriate manner, after which the Chairman of the Committee on resolutions read the following re-

WHEREAS, Morris township is equal in farming interests to any other in the county, and in mineral wealth far superior, being underlaid with three distinct veins of bituminous coal, varying in thickness from four to nine feet, besides having a vast amount of pine, oak and hemlock timber on the Moshannon and its tributaries, but being without Railroad, or any other means of transportation to market, this vast source of wealth lies comparatively useless; AND WHEREAS, we have been credibly informed that certain parties in the county are by word, and otherwise, opposing the location and construction of a proposed Railroad through this section, therefore

Resolved, That we aid, to the full extent of our means and influence, the Atlantic and Great Western Railroad company, in the location and construction of a railroad through this vicinity.

Resolved, That, in our judgment, it will remunerate said company abundantly to locate their road on this route, on account of the vast amount of lumber and coal to which they will have access.

Resolved, That, in our opinion, this is much the shortest and best route, as the Allegheny mountain can be crossed at this place at a better grade than at any other point along the mountain range.

Resolved, That we will, without regard to political parties, oppose to the full extent who oppose the location and construction of a Railroad on this route.

Resolved, That we respectfully suggest to the other townships in this county, that they, at an early day, give public expression to their opinions in regard to this important subject.

On motion, James P. Nelson ably addressed the meeting.
On motion Resolved, That these proceed

ings be published in the county papers, and that the Lock Haven papers be requested to copy the same.

On motion, the meeting adjourned JOHN E. HOCKENBERY, President. F. H. JONES, Secretaries. F. R. SHOPE,

Correspondence of the Journal.

KYLERTOWN, Pa., January 3d, 1866. EDITOR OF "RAFTSMAN'S JOURNAL! -DEAR SIR: Please insert the following in your next issue and oblige, Yours truly, W. O. WRIGHT.

ACKNOLEDGMENT-On New Year's day Mr. Wagoner, P. M. in Philipsburg, Centre County, Pa., handed me a package in which was the following:

"REV. W. O. WRIGHT:-DEAR SIR: Accept of the enclosed, as an appreciation of your services by Your Many Friends."
"Philipsburg, January 1st, 1866."

Accompanying the above note, I found the handsome sum of one hundred and fortyfive dollars. This is not the first time this generous people have expressed, substantially, their feelings. In Sixty-four, they sent me a beautiful ingrain carpet. In Sixty-five, a handsome Sleigh, and now, in Sixty-six, one hundred and forty-five dallars. Such generosity deserves to be publicly noticed, though I am convinced my "Many Friends," do not desire it. Permit me here to express my sense of indebtedness to this generous people, and accept the heart-felt thanks of yours truly, W. O. WRIGHT.

FORREST CITY, N. T., Dec. 25, 1865. DEAR EDITOR: -As you had the kind-ness to give room to a letter of mine, some time since, I desire to say a few words to such as may wish to emigrate to this terri-

It is a well known fact that all men do not see alike, and hence have different opinions as to the advantages of a country they may visit. Some will not stop long enough in a place to note the changes of seasons, and in consequence one finds it too warm and another too cold. Another says produce is too plenty to make money out of it, while others say it is too high in price for a poor man to make a living there, etc. These objections generally are the result of negligence in gaining information from those residing in the localities which they visit. But you find men everywhere who are dissatisfied with their condition in life. They may have everything that heart could desire and yet grumble, and the unobservant and credulous traveller is frequently the victim of their discontent, believing only what they hear, and not what they might see, if

they would only open their eyes.

This country, like all others, has its advantages, as well as its disadvantages. Timber is not very abundant, yet there s enough for all practical purposes. Stone is not plenty, yet limestone of good quality can be had by hauling some six or eight miles, which is excellent building material. But the scanty supply of timber and stone, saves many sore spots to the plowman, as he has not to run against roots and stumps in tilling the soil; and their absence also increases the yield of grain per acre.

Farmers here can better afford to sell wheat at one dollar per bushel, than those in Clearfiled can at three dollars, and corn pays bet ter at forty cents here, than at one dollar and a half in Clearfield. And so with all kinds of grain and vegetables. The buildthe meeting was organized by electing John | ings are not so good here as in many parts of Pennsylvania, and yet people generally are content, and are much more sociable and neighborly than in the east-each man striving to enhance the others happiness and comfort.

Politically, the late war has not disturbed the peace of this territory. Parties are nearly equally divided, (the Republicans being in the majority,) but the Cops are fast disappearing; and we expect soon to belong to the United Brotherhood, and have our star appear in the National Constellation. 'Tis true; there are some in Newbraska Territory who are opposed to helping pay the National debt, but many are being almost daily converted to the National faith, and I dare say, ere another Presidential campaign we will have the pleasure of poking in our tickets for "Uncle Sam," and help to pay his debts; and should it become his unpleasant lot, in the future, to find any of our cousins unruly, we will willingly help to chastise them. If there are those who do not like this course they can go elsewhere, for the world is large.

Thus far we have had fine weather this season, with the exception of a few weeks. Several inches of snow fell several days since, but it has all disappeared under the warm rays of the sun. And now. as Christmas is drawing to a close, I will cease my scribbling with a happy greeting to the Yours truly, PILGRIM. Journal.

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower the nervous, and the mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others u-rinate without the ability to retain. This fre-quently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged n their various functions. If they are neglected Gravel and Dropsy may ensue

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these

Gout, or Rheumatism. Pain occurring in the loins is indic-

ative of the above diseases. They occur in persons disposed to acid stomach and chalky secretions.

The Gravel.

The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expel-led from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel

TREATMENT.

Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouaffections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion or small and frequent discharges of water; Stranguary, or stopping of water; Hæmaturia or bloody urine; Gout and Rhematism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous depositions and all annatural enlargements, as well as pain and inflamation, are reduced, and is taken by

gravel, bladder, and kidney affections,

I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy As you advertised that it was composed of BUCHU, CUBERS, and JUNIPER BERRIES, it occurred to me and my physician as an excellent combination, and, with his advice, after an exam-ination of the article, and consulting again with the druggist. I conculuded to try it. ced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and arter using it three weeks, was a-ble to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of
