The House of Bonquet, Girard & Co., Paris have the pleasure of announcing that they have opened an Agency in the city of New York, for the sale of their Widely Known Jewelry, Watches, &c., and for the purpose of making their goods as extensively known and appreciated in the United States as they now are, and have been for over 70 years. In Europe, they have determined on a plan by which poor and rich alike may have the advantage of their splendid styles. As a preliminary, they would remark that they manufacture and sell no imitation Jewelry or Watches, but

All are Warranted Gold of the finest Workmanship.

Our customers will also have the great advantage of a constant succession of new and rich styles and patterns with which we shall keep our New York Agency supplied.

We have adopted the plan of sale, now so popular, of charging a fixed price, and the price will invariably be \$2 for each article, no matter how costly it may be. The expenses of conducting our New York Agency are paid by the sale of Certificates or Coupons representing the various articles. These Certificates are sold at 50 cents each, or five for \$2, and each Certificate will entitle the holder to the particular article he or she is entitled to, on payment of an additional \$2. If the article named on the Certificate is not desired, the holder will oblige us, when he returns the Certificate, by stating what other article of the same value he or she may prefer, and it will be sent with pleasure. OUR AIM IS TO PLEASE, and every means to that end will be exerted. We solicit a trial for every one who reads this notice as we are competent of giving the utmost satisfaction.

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the nervous, and the mucous. The upper expels the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected travel and Droy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism.

Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky secretions.

The Gravel.

The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel ensues.

DROPSY

Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.

Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr. Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous deposits and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by

Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1857.

H. T. HELMBOLD, Druggist:

Dear Sir:—I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu. I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of pure, cures, and restorer, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a permanent cure, knowing then it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system. I do not mean to be without it when ever occasion may require its use in such affections.
