NEW SKIRT FOR 1866. The Great Invention of the Age to HOOP SKIRTS.

J. W. BRADLEY'S New Patent Duplex Elastic (or Double Spring) Skirt.

This Invention consists of Duplex (two) Elastic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elastic Skirt will be experienced in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small space as easily and conveniently as a silk or muslin dress.

A Lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elastic Spring Skirt for a single day, will never after wear any other kind of Skirt. For Children, Misses and Young Ladies they are superior to all others.

The hoops are covered with two ply double twisted thread and will wear twice as long as the single yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods of every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, etc., which they are constantly subjected to when in use.

All are made of the new and elegant corded tapes, and are the best quality in every part, perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.

WEST'S BRADLEY & CARL, proprietors of the Invention, and sole manufacturers, 97 Chambers, and 79 & 81 Reade Streets, New York.

For Sale in all first-class Stores in this City, and throughout the United States and Canada, Havana de Cuba, Mexico, South America and the West Indies.
