SOMETHING NEW.—By reference to new advertisements it will be seen that P. A. Gaulin, has opened a new Merchant Tailor establishment in Graham's Row, over Naugle's Jewelry store. Mr. Gaulin has the reputation of being an excellent workman, and no doubt will render satisfaction to customers. Give him a call.

BOOM MEETING.—On Monday May 14, 1866, in accordance with previous notice, a large number of the Lumbermen of Clearfield County, met in the Court house at Clearfield, for the purpose of drafting resolutions embracing their objections to a Bill, passed by the last session of the Legislature, authorizing the Susquehanna Boom Company, to erect dams across the Susquehanna River, at or near Williamsport, Pa.

The meeting was organized by calling Hon. Jno. Patton as President, Samuel Clyde and J. R. Reed, Esq., as Vice Presidents, T. J. McCullough and Jno. H. Fulford, Secretaries.

On motion, Jonathan Boynton, H. B. Swoope, Esq., William Powell, Jas. B. Graham and G. L. Reed were appointed as a committee, to draft resolutions, embracing the objections of the lumbermen of the county, to the passage of the bill above named.

On motion, G. L. Reed, Jas. B. Graham, Jonathan Boynton, Col. E. A. Irvin and Samuel Mitchell were appointed as a committee, (with power of substitution,) to wait upon the Governor and lay before him the resolutions passed, and to take other steps necessary for the protection of the lumbering interests of the county.

On motion the meeting adjourned.

STORM.—A destructive storm passed over this county, Sunday forenoon, May 13th. The bridge across Anderson creek, near Curwensville, was blown down, and quite a number of barns were unroofed.

At Pennville, while the Friends were assembled in their meeting-house, the storm burst with such fury as to break open the doors and windows; one half the roof was torn off and carried into a neighboring field; a building attached to the west end of the main edifice was torn to pieces; the sheds for horses, fences, horses, and carriages, were hurled in the wildest confusion into the adjoining fields. Some men were thrown from their feet, whilst others maintained their feet by laying hold of trees, posts, &c.

One woman, Mrs. M. E. Crowley, had her child blown out of her arms, when she was instantly thrown upon it, but neither was hurt. The only serious injury was received by Reuben Wall, who had his arm broken in several places. He was taken to the nearest house, where Dr. D. Fetzer reduced the fractures, and the arm is doing well.

Most of the carriages were badly broken up and some torn into fragments, and a horse belonging to Isaac Kirk was badly, perhaps fatally injured, by the shaft of the buggy running into it. The meeting house is almost a total wreck. The damage may be estimated at two or three hundred dollars. Timber was blown down in various places in the line of the gale.

At New Washington trees were unroofed, fences destroyed, and parts of roofs carried off buildings. The rain, which fell in torrents, was accompanied by hail. The next morning there was a heavy frost, and it is feared that most of the fruit is destroyed.

In Indiana county the storm was severe, and it is said several houses were capsized.

SAN FRANCISCO, May 6.—A special messenger arrived, yesterday, at Los Angeles, bringing a dispatch from the commander of Fort Grant to General Mason, announcing that Fort Goodwin, Arizona, had been taken by 2,000 Indians, and the garrison, consisting of 129 men, massacred, with one exception, and the fort burned. The man who escaped was not hunting at the time and witnessed the commotion from a distance.

CONGRESSIONAL.—We clip the following complimentary notice of one of our citizens from the Marriettian:

"We observe in a late number of the EDU Advocate, an article recommending James B. Graham, Esq., of Clearfield, Pa., for Congress. Mr. Graham is well and favorably known in this section, as one of the most successful lumbermen on the Susquehanna river; a high toned, liberal minded and intelligent gentleman of fine business qualifications, who would make an excellent working member of Congress. We have known Mr. G., for over twenty years, and bear willing testimony to his worth. We know our friends in the Clearfield district could do no better than send such a sterling Unionist as Mr. Graham to Congress."

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the nervous, and the mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism. Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chaly secretions.

The Gravel. The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sedimentary; when of this deposit that the stone is formed and Gravel ensues.

DROPSY Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax

TREATMENT. Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, when any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr. Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous deposits and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by Men, Women & Children.

Directions for use and diet accompany. PHILADELPHIA, Pa., Feb. 25, 1857.

H. T. HELMBOLD, Druggist: Dear Sir:—I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, tracing which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious. In fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of Buchu, GRENDS, and JUNIPER BERRIES, it occurred to me and my physician as an excellent combination, and with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months. I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, it is well adapted for use in every occasion may require its use in such affections. M. M'CORMICK
