MEDICAL SOCIETY.—By reference to our Advertising columns, it will be seen that the medical Society will meet on June 19th, to elect officers.

APPEAR THIS WEEK.—The Sheriff's Sales, Register's Accounts, Trustee's Sales, Educational, and several other notices, in our advertising columns.

TO MERCHANTS.—In another column we publish the card of J. P. Beard of Philadelphia, to which we direct the attention of dealers in Hats, Caps, etc. Mr. Beard is a pleasant business man, accommodating and clever. Call and see him.

TO BOYS.—A boy with a moderate English education, of sober and industrious habits, from fifteen to seventeen years of age, and who can come well recommended, can obtain a situation to learn the printing business by applying at the Journal office, soon. A boy from the country preferred.

THE WEATHER.—For several days past the air has been exceedingly cold in this region, and stoves and fuel were requisite to a comfortable atmosphere in rooms and houses. It is feared that the fruit, which escaped the frosts hitherto, will be much injured, if not entirely destroyed by the prevailing cold. All kinds of vegetation is also much retarded by the frigid atmosphere, and is likely to be injured thereby.

A ROBBERY.—We understand that one night some three weeks since, the Hardware store of Messrs. Merrell & Bigler, of this borough, was entered by means of a false key, by some unknown expert, and robbed of about \$300. The banks having closed before it was thought of depositing the money, one of the firm hid it under the counter—never doubting its security there. No suspicion attaches to any one of being the thief.

AN UNSAFE PRACTICE.—Many business men are in the habit of placing their money in some old book during business hours, and then, after closing up in the evening sticking it among their goods for safety during the night. Next morning, on some one presenting a bill to be changed, it is drawn from its hiding place, in the presence of whoever may chance to be in at the time. We have observed such occurrences perhaps a dozen times, in that number of months, at the same place. This practice gives evil disposed person an opportunity of judging where a man keeps his money, and sooner or later we hear of his being robbed. We trust this notice will be the means of discontinuing the practice referred to.

ATTEMPTED BANK ROBBERY.—An unsuccessful attempt was made, on last Friday night, to rob the County National Bank, in this place. To gain admittance to the banking house, it was necessary to go to Mr. Entres' lot, adjoining the building. Here a large cross dog was kept, which the robbers poisoned. Having silenced the dog, they proceeded to bore the lock of the door which communicated with the yard. This accomplished, they commenced to drill a hole into the lock of the safe, evidently with the intent of blowing it up. The iron being hard, they apparently made but slow progress, and by the time they drilled half through the plate, abandoned the project, whether on account of the approach of daylight, or some other cause, is not known. Robbing and thieving seems to be on the increase in this place, and we hope the depredators will be caught, and punished as they deserve.

TERRIBLE EXPLOSION.—We learn that on Wednesday, May 16th, at about 1 o'clock, the boiler of the Portable Steam Saw mill, of J. C. Brenner & Co., of Morris township, exploded and killed two men named John Reader and Wm. Sauntman. Reader, who was from Fulton county, was most horribly mangled, having had the upper half of his head blown off, while a piece of the boiler passed through his body, just above the hips,—besides having most of the larger bones in his body crushed. Sauntman, who was from near Greensburg in Westmoreland county, had one hand blown off, besides having had his arms broken and otherwise much mangled. Both were sober and industrious men, and much admired by their employers. Three other men named Conrad, brothers, who were at work at the mill at the same time, narrowly escaped the fate of their comrades—all of them being more or less injured by the falling of the wreck of the mill.

A Copperhead editor exclaims, in view of the increasing strength of Republicanism, "Unless the people respond we are lost!" Then by all means, good people, don't respond. Let the fellow be lost, for the country will be none the poorer.

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the nervous, and the mucous. The upper expels the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism. Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalyb secretions.

The Gravel. The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes ferrous and sediment forms. It is from this deposit that the stone is formed and Gravel ensues.

DROPSY Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body, it is called Anasarca; when in the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT. Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr. Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous deposits and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by

Men, Women & Children. Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1857. H. T. HELMBOLD, Druggist.

Dear Sir:—I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu. I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of gum, crum, and various minerals, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months. I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it when ever occasion may require its use in such affections. M. MCCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

Hon. Wm. Bigler, Ex-Gov. Penn'a. Hon. Thomas B. Florence, Phil'a. Hon. J. C. Knox, Judge, Phil'a. Hon. D. S. Black, Judge, Phil'a. Hon. J. R. Porter, Ex-Gov. Penn'a. Hon. Ellis Lewis, Judge, Phil'a.
