FATAL ACCIDENT.-James W. Walker of Snow Shoe, Centre county, on Friday 8th. shot himself whilst out surveying. in company with another person. The gun was discharged accidently in passing through the woods, in Mr. Walker's hands, and inflicted a mortal wound upon himself. He died in a few minutes after the occurrence.

THE BRIGADE. - We noticed, on Sunday evening last, at one of our churches, that the roudy brigade was again in attenuance. evidently baving added several recruits to Kenhart Catharine Mrs. Whelock, Annie Mrs. their number, during the week. AN OUTRAGE. - A correspondent under date of June 11th, writes as follows: "Some time during the week ending June 9th, the Mathodist church on East Ridge, Burnside township, was entered by some unprincipled persons, who carried off a book case containing about seventy five dollars worth of Sabbath School books, and the pulpit Bible and Hymn book. The books have not been found as yet, nor is any one suspected of doing the deed." Such scoundrelism deserves the severest punishment of the law, and we hope the thieves may be detected and receive their just rewards.

## THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs: the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube. and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower the nervous and the mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others u-rinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these

The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel

Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gon-ty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water: Scanty secretion, or small and frequent dis-charges of water; Stranguary, or stopping of water; Hæmaturia, or bloody urine; Gout and Rhematism of the kidneys, without any change in quantity, but increase of color or dark water.

It was always highly recommended by the late Dr Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcarcous depositions and all annatural enlargements, as well as pain and inflamation, are reduced, and is

PHILADELPHIA, Pa., Feb. 25, 1857. H. T. HELMBOLD, Druggist:

Dear Sir :- I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which lime I have used various medicinal preparationS, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations exensively advertised. I consulted with my family physician in regard to using your Extract Buchu.

I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determin ed to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy As you advertised that it was composed of suchu, cusess, and Juniper Berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an exam-ination of the article, and consulting again with the druggist. I conculuded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and arter using it three weeks, was a-ble to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you and more satisfactory to me

I am now able to report that a cure Cheap is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant Cheap Shoe Last or Pegs. Palm or Paney taste and odor, a nice tonic and invigorator of the system. I do not mean to be without it when ever Cheap dow Shades, Lamps, Lamptubes occasion may require its use in such affections M. M'CORMICK
