DIVINE SERVICES.—Rev. Archer will preach in the Presbyterian church, morning and evening, on Sunday, July 1st.

Rev. Monroe will preach in the M. E. Church, on Sunday evening, July 1st.

Rev. Harrison will preach in the Lutheran church, on Sunday morning, July 1st.

CIGARS.—J. Shaw & Son, have received another lot of good cigars. Try them.

THE CROPS.—The weather has been very propitious to the growing crops during the past ten days, and they all promise an abundant yield.

FOUND—Several days since, a pair of spread chains. The owner can have the same by calling at the Postoffice, giving a satisfactory description, and paying for the notice.

CHURNS.—The right to manufacture and sell West's superior (5-minute) churns in Woodward township, can be purchased at a low figure. For further information apply at the Journal office.

COURT.—The June term of our court commenced on Monday a-week, and is still in session. Much business has been transacted. We will endeavor to give an abstract of the proceedings next week.

THANKS.—We tender our sincere thanks to those of our patrons who paid their accounts last week; and we will be under like obligations to all others to whom we forwarded bills lately, if they will remit by mail, at an early day, the several amounts due us.

SOMETHING NEW.—Ladies, dress your boys. Patterns of Garibaldi, Zouave and French suits, or any other style desired, will be furnished on short notice, at reasonable rates. Call on P. A. Gaulin, Graham's Row, over Naugle's Jewelry Store, Clearfield, Pa. June 6, '66.

A NEW DRESS.—The Washington, Pa., Reporter, last week, put on an entire new dress, and now makes truly a very neat appearance—equal to any other paper in the State. The Reporter is a staunch Republican journal, edited with great ability, and worthy the confidence and patronage of the Union party in whose midst it is published.

TO THE EDITOR OF THE RAFTSMAN'S JOURNAL.—Dear Sir: Please insert the following in your next issue:

THOS TRACY:—The ladies of St. Francis' Church, in this town, intend holding a Picnic on the coming Fourth of July. It will be held on the same ground they used last summer. They take this opportunity to return thanks to the former guests, and invite them once more, and as many others as wish, to attend on the next occasion.

SOW BUCKWHEAT.—It is estimated that there were 160,695,823 bushels of wheat on hand last harvest for the consumption of the country, and that the quantity that will be on hand at the coming harvest will not reach higher than \$3,496,434 bushels. The question arises, whence will the deficiency be supplied? The extra crop of potatoes which we are now almost certain of, as well as a good crop of corn, will go far to supply the lack of wheat. We now urge all farmers to sow large breadstuffs of buckwheat. This would contribute largely during about six months of the year to supply the want of wheat flour. Taking our resources from potatoes, corn and buckwheat into account, we do not perceive why our laboring population may not get through the next year as easily as the past, as far as breadstuffs are concerned.

"BOYS, DON'T SWEAR."—The editor of an exchange paper, on hearing a little boy not over six years old, who was standing on a street crossing, swearing at the top of his voice in the most profane manner, truthfully remarks: "Poor little fellow, no doubt he thought he was acting 'smart,' or making himself look 'big,' by re-iterating the oaths he hears daily from the lips of men, about our streets. But how mistaken he was. Boys have no idea how little it looks, to grown persons, to see them trying to copy the bad habits of those older than themselves. An old man remarked to us the other day, that 'when he heard a boy swearing, he concluded immediately that he had too little sense to know better,' and 'he would never amount to much.' And the old man was right. Show us a boy that will swear, and we'll show you one that will steal or get drunk, or do any other mean act. Such boys are not to be trusted, for one bad habit is as easily learned as another. Boys remember this."

On one little street in Galena, Illinois, and within the space of four blocks, were at one time the business places of five private citizens, now known as Lieutenant General Grant, Major General John E. Smith, Major General J. A. Rawlins, Major General A. L. Cretain, Brigadier General S. A. Maltby.

Jeff Davis's fondness for onions, as manifested in their great prominence in his bill of fare, has transformed him into a sort of prodigious leek. This accounts for the difficulty in killing him out.—*Jersey Daily Times.*

## THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the nervous, and the mucous. The upper expels the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

## Gout, or Rheumatism.

Pain occurring in the loins is indicative of the above disease. They occur in persons disposed to acid stomach and chalky secretions.

## The Gravel.

The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel ensues.

## DROPSY

Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

## TREATMENT.

Hembold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr. Physik in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous depositions and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by
