EUROPEAN WAR.—On our first page, today, will be found the European war news, besides several other articles of interest, to which we direct the attention of our readers.

CHURNS.—The right to manufacture and sell West's superior (5-minute) churns in Woodward township, can be purchased at a low figure. For further information apply at the Journal office.

THE WEATHER, ETC.—We were favored with several fine showers of rain during the past week, which produced a very enlivening effect upon the growing crops. An abundant harvest may be expected, unless some unforeseen events intervene.

NEW MUSIC.—The following pieces of new music have been received: "Sunlight Polka Brilliant," 40 cents; "Looking forward" and "Gen. Scott's Funeral March," 30 cents each, all by that popular writer, Mrs. E. A. Parkhurst. They are all very beautiful pieces, and can be had by addressing Horace Waters, 481 Broadway, N. Y.

DEATH OF CAPT. BAHAN.—We learn that Capt. Wm. M. Bahan, formerly of this place, died in St. Joseph Hospital, at Philadelphia, on July 4th, 1866. Capt. Bahan was among the first to respond to the call of President Lincoln for volunteers, at the outbreak of the war. Although he was but a short time in active service in the field, on account of ill health, yet he rendered good service to the country in various other positions, and was an officer in the employ of the government at the time of his death. He was about 30 years of age. Peace to his remains.

CLEARFIELD ACADEMY EXHIBITION.—The third session of the Clearfield Academy closed with an exhibition by the scholars, (under the direction of Mr. Harrison and his efficient assistant, Miss Swan,) in the Court Room, on Friday evening, July 6th, 1866—a stage having been erected and the room neatly decorated for the occasion. At an early hour the citizens of our borough, and many from the surrounding country, began to assemble, and long before the hour of commencing, every part of the capacious Court room was densely packed, and many who came from a distance to witness the exercises were compelled to forego their anticipated pleasure as they could not be accommodated even to a "standing position" in the aisles. The exercises were opened by prayer, by Rev. Mr. Archer, and a salutatory by Mr. Ed. Spackman. Then followed a number of dialogues, declamations, essays, tableaux, interspersed with most excellent vocal and instrumental music, and closed with a valedictory by Mr. E. Smith. Both Mr. Spackman and Mr. Smith deserve great credit for the manner in which they performed their parts. "The first pair of boots," a tableau, was a decidedly comic affair, and was greeted with great applause; but "The National Tableau" was the "crowning" scene of the evening. It was truly magnificent and sublime, and elicited the united commendation and praise of the vast concourse of spectators; and, we hope, should an opportunity hereafter present itself, this grand and interesting tableau will be repeated. But, however desirable, we have not the time to make particular mention of all the pieces performed, nor the inclination to point out every individual meritorious case for especial praise, where all done so well; suffice it to say, the characters were well selected, the pieces all good, and the performances highly creditable and commendable for precision and exactness. And we have no hesitancy in saying, that the exercises on this occasion were equal to anything of the kind heretofore witnessed by us, and we especially congratulate the scholars of the Clearfield Academy upon the entire success of their exhibition. But, we must not omit to say, that while all praise is due the scholars for the admirable manner in which they acquitted themselves, much of the success of the exhibition is due to their competent and efficient teachers, Mr. Harrison and Miss Swan, and that they are worthy the future confidence and support of an appreciating and generous public.

To Boys.—A boy with a moderate English education, of sober and industrious habits, from fifteen to seventeen years of age, and who can come well recommended, can obtain a situation to learn the printing business by applying at the Journal office. A boy from the country preferred.

A. W.—Yours received; but, we cannot comply with your request. Our province is to publish the current news of the day and not to discuss the merits or demerits of a lawsuit between neighbors. If you have been wronged by a lawyer, the courts are your proper place of redress, and not the columns of a newspaper.

A CONSTABLE SHOT.—A cold-blooded murder was committed at Centre Hall, Centre county, on Monday a-week. Three brothers, by the name of Campbell, were arrested for drunkenness and riotous conduct by constable Samuel Bair. After the arrest one of the parties, William Campbell, turned upon constable Bair and shot him with a revolver, which he had concealed, killing him almost instantly, whereupon he fled. We understand that he was pursued by the Sheriff of Centre county to Woodward township, Clearfield county, where, on Sunday morning last, he shot Hugh Harpham, one of the Sheriff's aids, through the arm whilst attempting to arrest him. He then took to the woods, bareheaded and barefooted, and at last accounts had not been captured. Vigorous pursuit was being made, and hopes were entertained that he would be arrested. A reward of over one thousand dollars, it is said, is offered for Campbell's apprehension.

Attempted Suicide. On July 2d, a dispatch from Leavenworth, Kansas, announced that General James H. Lane, United States Senator from that State, had shot himself—inflicting a severe wound. It seems that he had just returned from St. Louis to his brother-in-law's on the Government farm—that while at St. Louis he attempted to jump out of the window in the Lindell House—that he had been invited out to ride, and took a pistol with him. On arriving at Leavenworth, he stopped with his brother-in-law, McCall, and on Sunday night, July 1st, McCall and Capt. Adams invited him to go to ride, when he said he wanted his cane, but got a pistol. On going through the Government farm he got out to open the gate, and as he done so he said "Good-bye, Mac," the buggy passing on, when he put the revolver into his mouth and shot himself—the ball passing through the head, and scattering the brains profusely. Fear of exposure and expulsion from the United States Senate is said to be the cause for the rash act. At latest dates he was still living, but no hopes are entertained for his recovery.

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs; the interior consists of tissue or vessels, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the nervous, and the mucous; The upper expels, the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism. Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky secretions.

The Gravel. The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel ensues.

DROPSY Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT. Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or rank water. It was always highly recommended by the late Dr Physik in these affections.

This medicine increases the power of digestion, and excites the absorbents into heat, by which the watery or calcareous depositions and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by

Men, Women & Children: Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1857. H. T. HELMBOLD, Druggist: Dear Sir:—I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of BUCHU, CURRERS, and JUNIPER BERRIES, it occurred to me and my physician as an excellent combination, by which the watery or calcareous depositions of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room, from the first but I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a permanent cure, knowing then it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system. I do not mean to be without it when ever occasion may require its use in such affections. M. McCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:
