Republican County Convention.
Notice is hereby given that a Republican County Convention will be held, at the Court House in Clearfield, on Thursday the 19th day of July, for the purpose of nominating a County ticket, and appointing Congressional and Assembly conferees; and for transacting other business. All favorable to the election of Gen. Geary as Governor, are invited to attend. J. B. MCENALLY, Chairman Rep. Co. Com.

HOT!—During Sunday and Monday last, the mercury had a decided upward tendency, in this region—marking 93 and 100 in the shade.

VACATION.—The Normal School at Curwensville has been closed for two weeks. It will be re-opened on Monday, July 30th, for six weeks. The prospect is good for a largely increased attendance at the re-opening of the school.

HARVESTING.—We see that our farmers are busy cutting rye, as well as making hay. The present warm and dry weather is very favorable for this kind of work. A good rain, however, would be quite auspicious to the growing buckwheat, and other crops.

AGRICULTURAL.—The Executive Committee of the Clearfield county Agricultural Society, will meet at the Register's office in the Borough of Clearfield, on Saturday, July 21st, 1866, at 2 o'clock, P. M., for the purpose of determining whether a Fair will be held this coming fall. By order of the President. I. G. BARGER, Sec.

SUBSCRIBE NOW.—We will send the Journal to NEW subscribers, from now until the end of October, for 50 cents—the cash to accompany the order, invariably. A club of ten or more can be raised in every election district in the county, with a little effort. We trust our friends will present this matter to their neighbors who do not take the Journal.

HYDROPHOBIA.—The Times, published at Leeds, England, says that nitrate of silver (lunar caustic), rubbed into the wound made by the teeth of a mad dog, will cure hydrophobia and prevent all injurious consequences from the wound. The remedy should be applied as soon after the accident as possible, as the virus disseminates through the system in about six weeks, and then all hope is gone. Dr. Yonatt, the well known veterinary surgeon, says he has been bitten eight or ten times and has always cured himself by this means.

A MURDERER ARRESTED.—Campbell, the man who killed Constable Bair in Centre county, and wounded Hugh Harpham, of Tyrone, whilst attempting his arrest in Woodward township, Clearfield county, was arrested on Monday morning, July 9th, in Knox township, Clearfield county, but not until he was shot in the arm or shoulder—but not dangerously. From the Bellefonte Press we learn that "Campbell was not armed when arrested—that the men who arrested him were his relatives, and a relative had also betrayed to the authorities his hiding place—and that it is supposed the reward offered was the motive." The unfortunate man is now in Bellefonte jail awaiting his trial.

HEADLEY'S HISTORY OF THE REBELLION.—We have been favored with the two volumes (in one of this excellent work, and after a careful examination pronounce it fully up to the standard promised by the publishers. It is well bound, neatly printed, and handsomely illustrated throughout, and maintains the high reputation of its author as a writer. Mr. Headley is a gifted and fascinating writer, with a peculiar gift for describing war scenes. That this book will receive a wide circulation, there is no doubt. Agents, and others, who desire an entertaining history of the late rebellion, would do well to address the "American Publishing Company, Hartford, Connecticut," and obtain a copy of Headley's book.

ANECDOTES AND INCIDENTS OF THE GREAT REBELLION.—The publishers have favored us with a copy of this interesting work. It contains all the most thrilling, racy, and remarkable anecdotal events and incidents of the war, and is handsomely illustrated with over 500 fine portraits and beautiful engravings, descriptive of the camp, the picket, the spy, the scout, the bivouac, the siege, with many feats of daring during the rebellion; and the assassination of President Lincoln. The Department, which embraces the "Words and Deeds of Woman," is an exclusive feature in its pages, and will secure for the work a universal popularity. Address, "National Publishing Co., No. 507 Minor Street, Philadelphia, Pa." See advertisement in another column of this paper.

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs: the interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior; the exterior is a conductor also, terminating in a single tube, and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts viz: the upper, the lower, the nervous, and the mucous. The upper expels the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism.
Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalyb secretions.

The Gravel.
The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel ensues.

DROPSY.
Is a collection of water in some parts of the body, and bears different names, according to the part affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.
Helmhold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gonorrhea. Under this head, we have arranged Dysuria, or difficulty and pain in passing water; Scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water; It was always highly recommended by the late Dr. Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous depositions and all unnatural enlargements, as well as pain and inflammation, are reduced, and is taken by

Men, Women & Children.
Directions for use and diet accompany.

PHILADELPHIA, Pa., Feb. 25, 1857.

H. T. HELMBOLD, Druggist:
Dear Sir:—I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu. I did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of such cures, and JUNIPER BERRIES, it occurred to me and my physician as an excellent combination, and with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might be temporary, and therefore concluded to defer and see if it would effect a permanent cure. Knowing then it would be of greater value to you and more satisfactory to me

I am now able to report that a cure is effected after using the remedy for five months.
I have not used any now for three months, and feel as well in all respects as I ever did.
Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it when ever occasion may require its use in such affections.
M. MCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:
