# THE KIDNEYS.

The kidneys are two in number, situsted at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The anterior absorbs: the interior consists of tissues or veins, which serve as a deposit for the urine. and convey it to the exterior ; the exterior is a conductor also, terminating in a single tube. and called the ureter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz : the upper, the lower, the nervous, and the mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others u-rinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the musclos, which are engaged in their various functions. If they are neglected Gravel and Dropsy may ensue.

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these sources.

## Gout, or Rheumatism.

Pain occurring in the loins is indicative of the above diseases. They occur in por-sons disposed to acid stomach and chalky secretions.

# The Gravel.

The Gravel ensues from neglect or the improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain : it becomes feverish and sediment forms. It is from this deposit that the stone is formed and Gravel ensues

### DROPSY

Is a collection of water in some parts of the body, and bears different names, according the part affected, viz: when generally diffused er the body, it is called Anasarca: when of the bdomen, Ascites; when of the chest, Hydrathor4x

### TREATMENT.

Helmbold's highly concentrated Extract of Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheamatism, and gou-ty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing wat er: Scanty secretion, or small and frequent discharges of water; Stranguary, or stopping of water; Hæmaturia, or bloody urine; Gout and Rhematism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr Physick in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or caleareous depositions and all unnatural enlargements, as well as pain and inflamation, are reduced, and is taken by

### PHILADELPHIA, Pa., Feb. 25, 1857. H. T. HELMBOLD, Druggist :

Dear Sir :--- I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections. during which lime I have used various medicinal preparationS, and been under the treatment of he most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I'did this because I used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determin-ed to use no remedies unless I knew of the ingre-dients. It was this that prompted me to use your remedy As you advertised that it was compos-ed of monu, cunens, and juntren neartes, it oc curred to me and my physician as an excellent combination, and, with his advice, after an exam-ination of the article, and consulting again with the druggist. I conculuded to try it. I commen-ced its use about eight months ago, at which time I was confined to my room. From the first bot tle I was astonished and gratified at the beneficial effect, and arter using it three weeks, was a-ble to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you end more satisfactory to me

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system. I do not mean to be without it when ever occasion may require its use in such affections M. M'CORMICR
