THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the exterior.

The auterior absorbs; the interior consists of tissues or veins, which serve as a deposit for the urine, and convey it to the exterior; the exterior is a conductor also, terminating in a single tute. and called the urcter; the ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower the nervous, and the mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected ravel and Dropsy may ensue

The reader must also be made aware that, however slight may be the attack, it is sure to affect his bodily health and mental powers, as our flesh and blood are supported from these

H. T. HELMBOLD, Druggist: . Dear Sir :- I have been a suffer-

er, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparationS, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations exensively advertised. I consulted with my family physician in regard to using your Extract Buchu. I did this because I used all kinds

of advertised remedies, and had found them worthless. and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies unless I knew of the ingredients. It was this that prompted me to use your remedy As you advertised that it was composed of BUCHU, CUBERS, and JUNIPER BERRIES, it occurred to me and my physician as an excellent combination, and, with his advice after an examination of the article, and consulting again with the druggist. I conculuded to try it. I commen-ced its use about eight months ago, at which time I was confined to my roem. From the first bottle I was astonished and gratified at the beneficial effect, and arter using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you and more satisfactory to me

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system. I do not mean to be without it when ever oceasion may require its use in such affections
