GAME. - Game of all kinds is rather plenty in this neighborhood. Deer are numerous and many of them are being shot by the hunters. The price of venison is. however, higher than might be expected from the abundant supply. Squirrels have been so thick as to preve an annoyance to the farmers. Other small game is also plenty.

EVERGREENS FOR WINTER. - A process has been discovered by which a beautiful show of evergreens may be had all through the winter. We give it for the benefit of our lady readers, "If geranium branches, taken from luxuriant shrubs, just before the winter sets in, are cut in slips and immersed in soap water, they will, after drooping a few days, shed their leaves, put forth fresh ones and continue in the finest vigor all winter. By placing a number of bottles thus filled in a flower basket, with moss to conceal the bottles, a show of evergreen is secured for the winter. All the different varieties of the plant being used, the shapes require no fresh water.

Correspondence of the Journal.

Forest City, Nebraska, Sept. 20, 1366. MR. EDITOR: -As we expect to have Nebraska admitted as a State at the next session of Congress, I thought that your readers might, perhaps, feel some interest as to the condition and prospects of this section of country. Emigration has been pouring in rapidly during the past summer and there seems to be rather an increase than an abatement of the same as winter approaches. The resources of the Territory are being rapidly developed, not only in an agricultural point of view, but recently a bed of anthracite coal has been discovered near Nebraska city, and also near Fremont on the U.P. Railroad. The thickness of the vein I cannot state. Whilst timber is not as plenty here as it is in your region, the erection of a steam saw-mill, at Forest city, is a fact not to be lightly overlooked. The work on the Union Pacific Railroad is being vigorously pushed forward, and already nearly two hundred miles of the Road are completed. Wages are high here. Mechanics get from \$4 to \$6 per day, and laborers from \$2.50 to \$3.50.

The corn is all husked and cribbed. The expenses of raising corn, per acre, is as follows: Plowing ground \$1.33; scoring, 67 cents; planting, \$1.50; cultivating and plowing, four times, \$3; husking and cribbing, \$4; seed, 10 cents; total cost per acre, \$10.60 Average yield, 60 bushels per acre, which, at 40 cents would be \$24. Net profit, \$13.40. The above is the cost for hand-planting and furrow plowing. For large farms the horse-planter and doublerow plow are a great improvement, and reduce the expenses materially, and hence an increase in the net profit and land rent.

It seems that Copperheadism met with a grand defeat in old Pennsylvania, and that Hiester Clymer took a deck passage on that rickety craft, "Andy Johnson," for the head-waters of Salt River, where he will spend the remainder of his days in carving niggerheads as souvenirs for his dear rebel brethren in the South. It would also appear from the returns of the late elections throughout the United States, that President Johnson has "swung" clear out of the circle; and that the "bread-and-butter" brigade is bobbing after its "Moses." Poor fellows! let them rest beneath their infamy forevermore, and lull themselves to sleep with their favorite chant-the niggah!

A Relic of Barbarism.—It seems that the whipping post is not abolished-that the practice still prevails of skinning a man's back for the theft of a few dollars' worth of property. On Nov. 15th, five white men and one negro were flogged at Richmond. Virginia, by order of the Hustings Court, on conviction of petty larceny; the first in-stance for many years of the infliction of stripes on white men by judicial sentence. There would be more hope for the regeneration and civilization of the Old Dominion if it could be given as the last of such barbarous practices.

Yours with respect, PILGRIM.
