PATENTED MAY 29, 1866. This is an article for washing without rubbing, except in very dirty places, which will require a very light rub, and unlike other preparations offered for a like purpose, will NOT ROT THE CLOTHES, but will leave them much whiter than ordinary methods, without the usual wear and tear.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:—

It saves all the expense of soap usually used on cotton and linen goods. It saves most of the labor of rubbing, and wear and tear. Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required, it imparts a beautiful gloss and makes much superior to any other mode. No water is required except to moisten the powder.

Directions with each package. And can be readily appreciated by a single trial. The cost of washing for a family of four or six persons will not exceed three cents. The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the fabric or faded in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. Manufactured by HOWE & STEVENS, 260 Broadway, Boston.

Also, manufacturers of family dye colors for sale by Grocers and Dealers everywhere. Oct. 10, 1866. 3m
