"GROUND HOG DAY,"-Saturday, Feb. 21, was "Ground-hog day." It is said, by many persons, that if his pig-ship sees his shadow on that day, he returns to his winter quarters-indicating that there will be six wasks of hard freezing weather to follow. As the sun did not shine in this region on the 2d, Piggy didn't "see his shadow," and hence the "weather prophets" anticipate an early spring. We will see.

Notes from Harrisburg.

Senator Bigham, of Allegheny county, will shortly introduce a bill providing for what has been styled a General Raiiroad Law. When the subject comes up before the Legislature, a desperate struggle is anticipated between the people and the powerful railway monopolies that are overshadowing everything in the State. It is predicted, however, that, unless their representatives display quite a different disposition and act in a manner wholly at variance with the course pursued by members of the Legislature during the last half dozen or ten years, the "people" will find that the Railroad Companies will have the Bill so distorted, before it passes, that it will look more like their bantling than the offspring of a corpo-By Rev. Harrison in the Lutheran church ration ridden public.

Railroad are now here applying to the Legislature for a repeal of the law repealing their charter, passed two years ago. Members from the West are actively working for its passage, and, as a matter of course, the friends of the Pennsylvania Railroad are using their influence to prevent it. It is contended by the supporters of the Connelsville project that there is no propriety in a gigantic corporation like the Central Road objecting to the development of a portion of the State which has thus far suffered from that if she has any money to spare, she should assist the Connelsville company, instead of throwing obstacles in the latters way.

A bill has been introduced into the State Senate, at the instance of Treasurer Kemble, authorizing a loan of twenty-three millions of dollars, to redeem the over-due bonds of the State amounting to that sum. The bill provides that the loan be divided into three classes, to wit: five millions of the new bonds to be payable after five and within ten years; eight millions after ten and within fifteen years; and ten millions at any time after fifteen years. The bonds are to be sold to the highest bidder, but not below their par value, and the over-due seurities may be received in payment. The old bonds are mostly five per cents, the interest on which was payable in gold, and was so paid until the premium on coin was run up to a fearful point, since when it has been paid in greenbacks. The new bonds are to bear six per cent interest, and will likely be made payable in currency. The measure meets with much favor from the financiers of the State and the people who hold the old bonds.

At the January Court of Quarter Session in Berks county, Mr. Jonathan Bieber, a judge of election, was convicted for misdemeanor in rejecting, at the October election, the vote of one Samuel Reimert on the ground that he was a deserter. It was evident, from the muster roll, that Reimert had deserted from Company G,74th Penn'a regiment, and hence Bieber rejected Reimert's vote in compliance with the provisions of the act of Assembly of last session-which law, as well as all others relating to the holdwill contain seven hundred pages and be administer. When the facts in the case firely illustrated. This work will be one of were laid before Gov. Geary, he pardoned Mr. Bieber-being unwilling to see a good duty under the State law, and especially as the suit brought against Mr. Bieber was at the instigation of one who had deserted the flag of his country in the hour of peril.

INHUMAN TREATMENT OF A CHILD.—The people of Norwich, Connecticut, have just been thrown into a high state of excitement by the inhuman treatment to which a man named Charles C. Williams, subjected his little daughter Eunice, aged thirteen years. The child made her escape from the third story of the house by means of a rope made of sheets tied together. Before she reached the ground the rope broke and she received some severe bruises by the fall. Her first inquiry was for water, which she drank with such avidity as to induce inquiry into the cause of her great thirst. From a statement made by her it appears that for three weeks she had been confined in a small room with no food but one bowl of water gruel per day, and that for the last forty-eight hours she had been without food or drink of any kind, and forbidden to speak to her Persons in the interest of the Connelsville father. Almost starved, she had made a successful attempt to escape. Her physical appearance indicates that her story is true. Her father alleges that she was stubborn and would not work with alacrity, and that he had determined upon breaking her unruly spirit. His justification did not seem, however, to satisfy the citizens of Norwich, for the same evening a mob of 200 persons visited his house, battered down his door, and would probably have dealt summarily with the wretch, had he not defended himself with an axe, made his escape from the want of railroad facilities; on the contrary, house, and afterwards taken refuge in a store, where he was taken into custody by the police. His house-keeper has also been arrested, and the affair is to be legally investigated.

THE SUPREME COURT. - As considerable interest is now felt in the character and convictions of the gentlemen who compose the Supreme Court, we submit for reference the following named jurists, with the date of their appointments;

1863-S. P. Chase, Ohio, Chief Justice,

1835-James Wavne, Georgia. 1815-Samuel Nelson, New York. 1846—Robert C. Grier, Penn'a.

1858-Nathan Clifford, Maine. 1862-Noah M. Swayne, Ohio.

1862—David Davis, Illinois. 1862—Samuel E. Miller, Iowa. 1863-Stephen J. Field, California.

It will be seen that five of the Justices, including the Chief Justice, were appointed by Mr. Lincoln, the largest of the same ap pointments ever made by any Chief Magistrate, since the organization of the Court. GREAT DISCOVERY .- One of the . greatest and most useful discoveries in medical science was made by the celebrated Dr. J. Dumas, of Paris, Chief Physician to the Impe rial Infirmary of France, in 1861. Those who have been afflicted with the painful disease known as the Piles, and effectually cured by the use of Dr. DUMAS! FRENCH PILE SALVE, cannot speak too highly of the benefits conferred upon them by the use of this certain remedy. It has never been known to fail in effecting a permanent cure in a single case. SCHENCK'S SEAWEED TONIC. This medicine, invented by Dr. J. H. Schenek, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of di-

gestion By cleansing the stomach with Schenck's

Mandrake Pills, the tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the Seaweed Tonic and three or four boxes of the

Mandrake Pil's will cure any ordinary case of dyspepsia.

Dr. Schenck makes professional visits in New York, Boston, and at his principal office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days of visitation Please observe, when purchasing, that the two

likenesses of the Poctor, one when in the last stage of consumption, and the other as he now is, in perfect health, are on the Government stamp.
