More Snow.-Last night, (Tresday,) at about 10 o'clock, snow commenced falling in this region, and this morning, as we go to press, has reached a depth of 10 inches and continues to fall rapidly. We do not, however, anticipate that it will lie long, as the air has been unusually mild for some ten days past. A hem! Can't we tell the result better next week?

ADVERTISING AND GRATITUDE. - A celebrated wholesale merchant in England, has presented the proprietors of the London Telegraph with a printing press which cost \$25,000 as a token of appreciation. In doing so he accompanied the the gift by a letter which said: "In your paper, by judicious advertising, I first built the foundation of a fortune-and in your paper, by judicious advertising, I have amassed the fortune which | Cowan as Minister to Austria enables me to offer this testimony of regard and good will." Business men should remember this fact, and profit thereby.

A BREAK UP .- On Thursday of last week, the streams in this county commenced snow under the warm rays of the sun, and on Friday the ice broke up and run out. A considerable quantity of timber, we are told, went adrift in places. This loss will be sensibly felt by many. At present the river is free from ice, except such portion as was shoved on shore during the break-up. Should the weather continue moderate for a few days, we may expect to see our Raftsmen engage in constructing their "crafts" preparatory to a trip down the river.

SCIENTIFIC LECTURE. - Our readers will not forget the correspondence, published in our last paper, between a number of our prominent citizens and H. B. Swoope, Esq. Mr. Swoope's Lecture on "Chemical Force," comes off in the Court House, on Tuesday the most interesting and entertaining Lec- resented in Congress. tures ever delivered in this place. Mr. Swoope has a fine Chemical and Philosophical apparatus-is thoroughly acquainted with the subject, and is an eloquent speaker. The proceeds are to be divided between terested. Tickets are being sold at all the places of business.

A WONDERFUL CAT. - There is a gentleman in this city, we repress his name out of respect for his modesty, who owns a most wonderful cat. The animal came to his house aearly two years ago, apparently astray, without home or friends, and it first attracted his attention by its strange freaks when any one would play on the piano. It would run under the instrument the moment the it usic commenced, dance around apparently in the greatest ecstacy, at the same time uttering a most peculiar and plaintive sound— much resembling the warbling of a certain bird. The gentleman would sometimes play an accompaniment to the piano on a flute, ano was being performed on. And in a very short time it seemed to have fully learned the accompaniment, and now can imitate so well that in the adjoining room it would de-ceive any one into the belief that a flute was actually being played upon. This wonderful animal can laugh and sneeze as much ike a child as can a veritable child itself. There are many other wonderful qualities about this cunning little wonder, but we refrain from taxing the credulity of our readers. To the incredulous, we say, go and see the cat for yourselves.—Cairo Democrat.

England is again frightened with a miniature Fenian revolt, and it is quite likely all square-toed boot fellows' found in Ireland will be arrested and imprisoned on charges of Fenianism. The cable informs us that all the telegraph wires in the insurrectionary districts of Ireland have been cut by the insurgents. This movement will end in about as much good towards Irish independence as did the recent invasion of Canada by American Fenians.

It is rumored in Congressional circles, that the President is ready to meet Congress half-way on the reconstruction question. A few more turns of the impeachment screw, may induce him to come over entirely. Although not deeply impressed as to the sincerity and reliability of Mr. Johnson . yet we eaffnot help but look upon this offer to meet Congress half-way as indicative of failing courage on his part, and a better prospect for the settlement of the reconstruction question at an early

Judge Carter said the questions before that and this Court were different. Congress had not only affirmed the common law power, but made it the duty of courts to disappeared very rapidly. The prospect for enforce it. The majority of the Supreme Court of the United States condemned the rule while minority, or less than a majority, counselled its support, leaving the court of this District to form its own opinion. In fact, the judgment of the Supreme Court is reduced to an opinion of justices. The question was so involved in political controversy that it should be referred to the political power of the nation. It was a question of legislation, and not for adjudication. The motion for admission and rescinding of the rule was therefore denied.

While it is denied that Grant is for the Presi dent's plan, it is asserted with great positiveness that he favors no plan that does not recognize the rebellion as treason, and provide for punishing leading traitors. It is also said that he does not favor the proposed military governments, and that he stands on the ground that nothing less than the Amendment should be adopted.

The large, and daily increasing number of leading rebels in Washington, is exciting some attention. If they have been drawn hither by the President's new plap of reconstruction, and in the hope of seeing it succeed. they have been doomed to disappointment-for it is evident that neither Congress nor the Northern people favor it; and, if the action of the North Carolina Legislature is to be an indication, the South will also reject it. It is a truly disgusting exhibition, to eaery leval mind, to see the leaders of an unsuccessful rebellion swarming at the capitol of the nation they sought to destroy, for the purpose of evening next. A PRIZE-WINNER'S SENSATION. - A New York contemporary, in course of a description of the payment of prizes drawn at the late Union Home School lottery, says that the winner of the prize of \$10,000 in greenbacks, an old man, named John F. M'Laughlin, presented himself and informed the management that he was "frightfully poor" and had been working for the United States Government for forty years as a journeyman sad-dler, and that he bought the lucky ticket in acordance with his wife's wishes. Mrs. Mc-Laughlin had a dream some time ago, in which she saw her better half a rich man, and this at the first sound would almost set dwelling in marble halls with vassiis and the cat wild, causing it to increase the pecu-liar sound that it always made when the pi-argued that her better half would do well to purchase a ticket in the lottery, although Mr. McLaughlin, like all the rest of the ticket buyers, had very strict religious scruples-stubborn facts which were overcome by the strenuous exertions of Mrs. M. The aged McLaughlin received the check for the \$10,000 with a tremor of delirious joy, and to the beholders his excitement seemed to verge on the unnatural.

NORTHAMPTON COUNTY .- On the night of Feb. 10th, when the thunder storm was at its height, the dwelling house of Wm. Stem, of Cherry Hill, was struck by lightning twice in succession. The electric fluid struck one of the gable ends, knocking it into the street, then passed down into the parlor, putting out the lights, overturning the chairs, and tearing up the carpets, after which it entered the cellar and passed into the earth. A GREAT DISCOVERY. One of the greatest and most useful discoveries in medical science was made by the celebrated Dr. J Dumas, of Paris, Chief Physician to the Imperial Infirmary of France. in 1861. Those who have been afflicted with the painful disease known as the Piles, and effectually cured by the use of Dr. Dumas' French Piles Salve, cannot speak too highly of the benefits conferred upon them by the use of this certain remedy. It has never been known to fail in effecting a permanent cure in a single case. In this in a single case. In this respect it surpasses all other medicines of the kind. It will do just what it is recommended for ; if not, the money will be refunded. One or two boxes is sufficient to effect a permanent cure in four or six days, if the directions on the box are followed. Price one and two dollars per box, according to size. Sent by Mail or Express to any part of the United States or Canada Sold by Druggists generally. A liberal discount made to the trade. Address, D. S. DUNHAM & CO., Williamsport. DR. SCHENCK'S PULMONIC SYR-This great medicine cured Dr. J. H. Schenck, the preprietor, of Palmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable. when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than

two hundred pounds. Since his recovery,he has devoted his attention exclusively to the cure of consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons. Dr. Schenck's Pulmonic Syrup, Sea-Weed Tonic, and Mandrake Pills are generally all required in curing consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice

free, but for a thorough examination with his Respirometer his fee is three dollars. Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of consumption, and the other as he now is, in perfect health—are on the Gouernment stamp. Sold by all druggists and dealers. Price \$1.50 per bottle, or \$7 50 the half dozen. Letters for advice should always be directed to Dr. Schenck's principal office, No. 15 North 6th St., Phil'a, Pa.
