By Rev. Chambers in the Episcopal church, morning and evening.
By Rev. Guver in the Methodist church, in the morning.

W. A. S., yours to hand, and will appear next week.

NEW BRIDGE.—Contractors should read the advertisement headed "Bridge Builders."

All the late Monthly magazines, and literary weekly newspapers, for sale at the Postoffice.

A strong solution of Epsom salts in water is said to be the best remedy for burns in any stage.

NORMAL SCHOOL.—The second quarter of the Normal School will open at Curwensville on July 30th. See advertisement.

THE SEASON is auspicious to the growing crops—showers of rain prevailing at short intervals. With a late fall, the corn crop promises to be a good one.

HARVEST.—We understand that in parts of this county, the farmers are engaged in cutting their grain. The wheat crop is said to be good, and will produce a better yield than for some years past. The grass crop is also much heavier than for two or three years.

DELAWARE COUNTY.—While Samuel Gregory, farmer, was mending a fence several days ago, his old sow was chewing \$1.70 of his greenbacks, which were in the pocket of his overcoat hanging on a bush near by. The latter job was effectually and hopelessly done.

AGRICULTURAL SOCIETY.—The Executive Committee is requested to meet at the Register's office, in the Borough of Clearfield, on Saturday, July 20th, 1867, at 2 o'clock, p. m. By order of the President.

COMMITTEE.—George Thorn, Josiah R. Read, E. K. Shirey, James Mitchell, N. Kishel.

ACCIDENT.—We learn that, on Monday, July 8th, Wm. D. Smith, of Pike township, had his left arm broken in three places by being accidentally caught in the gearing of the mill. Mr. S. is doing as well as could be expected under the circumstances. A competent person has charge the mill during Mr. S.'s inability to attend to business.

INMATE that makes a first class school, we think the State Normal School at Edinboro is unequalled. We are glad to see that it is well appreciated and patronized. Parents cannot send their children to a better place. Parents intending to go away to school should get a circular of the Normal School. Write for information to J. A. Cooper, Edinboro, Erie Co., Pa.—*Meadeville Republican.*

DEATH OF A MINISTER.—Rev. J. P. Swanger, formerly of Bellefonte, died suddenly, after a brief illness, in Baltimore. He was a member of the East Baltimore Conference of the M. E. Church, and stood high in the estimation of all who knew him. At the time of his death he was pastor of the Greenmont Avenue Chapel, in Baltimore city. His body was embalmed, and arrived in Bellefonte on the 1st of July and interred in the cemetery.

CENTER COUNTY.—An infant, six months old, belonging to Mr. John Fravel, in Marion township, died on the 2d July, by hanging itself by the draw-string of its night gown. The circumstances in detail are these: The child was left in bed by itself while the parents were engaged at their usual morning domestic duties; after the lapse of a short time the mother went to look after her child and, to her indescribable horror, found it suspended by the neck on one of the bed pins. It seems the straw had worked to one side, exposing the rail, and the child creeping about unconsciously, slipped down and thus brought about its death in so sad a manner.

DEMOCRATIC PRIMARY ELECTION.—The following is the vote cast at the Democratic primary election, on Saturday, July 13th: For Assembly.—T. J. M'Callough, 1043; John Lawshe, 994; J. D. Hunt, 14.

DISTRICT ATTORNEY.—Wm. M. M'Callough, 1011; J. L. Cutler, 847.

JURY COMMISSIONER.—R. S. Ellis, —.

CLERK.—Clark Brown, —.

COLONEL.—James A. Moore, —.

Two thousand seven hundred cords of wood were burned at Northeast, Erie county, Wednesday night a week. It belonged to the Buffalo and Erie Railroad company.

ROME.—The sprightly correspondent of the Times writing from Rome, gives some interesting intelligence concerning the city, and affairs in it. He is no stranger in the place, having been in and out of it a dozen times in as many years. An idea of railroads in Italy may be derived from his experience, going from Florence to Rome—started half an hour and arrived five and a half hours after the time named in the bill, distance 180 miles, time 17 hours, number of passengers 1,300, most of them priests. The displays of fireworks and illuminations are extensive and splendid. The city is crowded, and puts on its best appearance. But the writer says that owing to the heat and the apprehensions of sickness, although it is not hot or sickly, few strangers of the Anglo-Saxon race are there. While expressing the opinion that it is the most gorgeous of all displays ever seen in St. Peter's, he says "the priests have their city and show almost to themselves." They come chiefly from Italy itself, which has 161,000, or one priest for every 150 inhabitants; many from France, Spain and Austria, and a few from the United States and other Protestant countries. Pope Pius is looking uncommonly well for a man in his seventy-sixth year. The same cannot be said of the city, the so-called capital of the Christian world, of which the correspondent says: "A great part of the houses need to be reconstructed. There are few in the city that are habitable according to our notions of comfort and decency. The overgrown palaces of the nobility, the stately public structures and ancient monuments, make up the Rome of imagination; but the Rome to eat and drink in, and to sleep in comfortably is yet to be built. It claims to be the first Christian city of the world, yet in respect to what goes to make up in great part modern Christian civilization, it is behind nearly all the rest."

The correspondence demanded by a resolution of Congress, in reference to the reconstruction acts, was sent on Friday to the House by the Secretary of War. We find that Mr. Stanton, in May, issued a circular to the Military Commanders requesting them to be prepared to suppress anticipated riots, and that Gen. Grant's indecision gave merely general instructions to take the necessary precautions. The interesting correspondence between Grant and Sheridan shows that Grant had no intention of reprimanding his subordinate for the removal of Wells, and that Sheridan declared that the result of Mr. Stanton's opinion was defiant opposition to the Reconstruction law. Gen. Grant instructed him to enforce his own construction of the law until otherwise ordered. This correspondence will settle the position of some of our leading men, and its publication is a reinsurance to the nation that justice will be done.

It is gratifying to know that the food crisis has passed in the South. The cry of distress that recently came up from nearly all the Southern States is now alleviated by the gathering of the early crops. The absolute necessities of life are now within the reach of all, although the poorer classes of the population have experienced severe hardships in the last few months. The Southern newspapers are much cheered at the prospects, and at the same time make grateful acknowledgments of the valuable assistance given them from the North, without which, they say, many persons must have perished.

HEAVY VERDICT.—In the case of Wm. R. Gries, Administrator for M. S. Richards, against the Little Schuylkill Navigation Railroad and Coal Company, brought to recover damages for injury done to the mill and water power of the late Judge Richards, recently tried in Schuylkill county, the jury gave a verdict in favor of the plaintiff for eleven thousand seven hundred and fifty dollars.

A horrible crime occurred in Harrison county, Indiana, on Monday, July 8th. A man named Kemper, his wife, two daughters, and three sons, murdered one John Bobey, by hurling stones at him. The murder was brought about by a law suit, which resulted adversely to Kemper. All have been arrested, except two of the sons and the two girls, who are still at large.

The freedmen were about the only men in the South who celebrated the Fourth of July. Reverence for that day is a pretty good test of one's devotion to the Union. It may be manifested in various ways, as may the want of it; but in no way so plainly as by a stolid indifference to the fact that the day is the anniversary of our National Independence.

A Postal treaty has just been concluded between the Post Office Departments of Great Britain and the United States, whereby, on and after the 1st of January, 1868, the postage on letters not exceeding half an ounce in weight, to and from the United States, shall be twelve cents, instead of twenty-four cents, as now charged.

The office of the Lehigh Coal and Navigation Company, at White Haven, near Mauch Chunk, Pa., was robbed on the night of June 10th, of \$45,000 in money and \$12,000 in Government bonds, which were placed there for safe keeping. Five thousand dollars was offered for the arrest of the thieves.

The coin interest on the national debt, amounting to eighteen and one half million dollars, due July 1st, has been paid. The seven-thirtieths, amounting to six millions, falls due on the 15th. There are in the Treasury about seventy three million dollars in coin, and twenty million in coin certificates.

Hundreds of acres of wild mustard are growing along the southern coast of California. The stocks reach the height of 8 feet generally, though some of them are nearly as large as trees. This mustard is said to be superior to any known to commerce, but it is left untouched in this region.

The following remarkable advertisement appeared in the columns of a western newspaper: "Lost, by a poor boy tied up in a brown paper with a white string, a German flute in an overcoat, and several other articles of wearing apparel."

The following is one of Mr. Nasby's highly philosophical observations, that may be truly said to carry its own illustration in itself. "Suthin can't come out of nothin, tho', as in the case of Seward, nothin may come of suthin."

At Laconia, Indiana, two brothers, named Kingsly, fought each other with knife and weapons, until both were fatally injured.

The importations of dry goods at New York were little over three millions in June, a year ago they were seven.

A Montgomery gentleman proposes to pass round the hat for gold dollar contributions in aid of Jeff Davis.

Jacksonville, Florida, is rioting in watermelons at ten cents, and peaches by the cart load.

The estimates for the Indian war as now projected are fully one million dollars a week.

LATEST FASHIONS DEMAND
J. W. Bradley's
CELEBRATED PATENT CRINKLE ELIPTIC (OR DOUBLE
SPRING) SKIRT.

The wonderful flexibility and great comfort
and pleasure to any lady wearing the Duplex
Eliptic Skirt will be experienced particularly in
all crowded assemblies, operas, carriages, rail-
road cars, church pews, arm chairs, for prome-
nade and house dress, as the skirt can be folded
when in use to occupy a small piece as easily and
conveniently as a silk or muslin dress, an inval-
uable quality in crinolines, not found in any sin-
gle spring skirt.
Ladies having enjoyed the pleasure, comfort,
and great convenience of wearing the Duplex
Eliptic steel spring skirt for a single day, will never
afterwards willingly dispense with their use.
For children, misses and young ladies, they are
superior to all other styles.
They will not bend or break like the single
spring, but will preserve their perfect and graceful
shape when three or four ordinary skirts will
have been thrown aside as useless. The hoops
are covered in all directions and crinkled thread,
and the bottom rods are not only double springs,
but twice (or double) covered; preventing them from
wearing out when dragging down stoops stairs, &c.
The Duplex Eliptic is a great favorite with all
ladies and is universally recommended by the
Fashion Magazines as the standard skirt of the
fashionable world.
To enjoy the following inestimable advan-
tages in crinolines, viz: superior quality, perfect
manufacture, stylish shape and finish, flexibility,
durability, comfort and economy, enquire for J. W.
Bradley's Duplex Eliptic or Double Spring
Skirt, and be sure you get the genuine article.
Caution.—To guard against imitations, par-
ticularly to notice that skirts offered as "Duplex"
have the red ink stamp, viz: "J. W. Bradley's
Duplex Eliptic Steel Springs" upon the waist
band—none others are genuine. Also notice that
every hoop will admit a pin being passed through
the centre, thus revealing the two (or double)
springs braided together therein, which is the se-
